4

Background

- LCSH for many decades included headings and subdivisions that were used to describe what a resource *is* rather than what it is *about*. Headings can describe numerous non-subject aspects, including:
 - **Genre/form** Symphonies World maps Comedy films Sports posters
 - **Creator info** Canadian fiction Film posters, Swiss American poetry--
Women authors African American children's writings
Music by Jewish composers
 - **Place of origin** Almanacs, Argentinian Folk music--Appalachian Region
 - **Language** Inuktitut poetry Short stories, Zambian (English)
 - **Audience** Young adult fiction Teen films Music--Dictionaries, Juvenile
 - **Time period of creation** Rock music--1961-1970 Tales, Medieval
 - **Music medium of performance** Piano quintets Concertos (Bassoon, flute, oboe)
Flutes (3) with orchestra

5

Background

- Starting with genre/form in 2007, LC has been developing new controlled vocabularies to describe some of these aspects, with the long-term goal of limiting LCSH to describe what a resource is *about* and using the new vocabularies to describe what it *is*
 - LCGFT (2007-): genre/form
 - LCMPT (2014-): music medium of performance
 - LCDGT (2015-): demographic groups (audience and creator/contributor characteristics)
- New MARC fields/subfields were created to record form of work (380), medium of performance (382), demographic group characteristics (385, 386), place of origin (370), and time period of creation (046 \$k/\$l and \$o/\$p, 388)
- Existing MARC fields already existed for genre/form (655), language (008/35-37, 041), and country of production (257)

6

Background

- LC has not yet fully implemented LCGFT in all of its cataloging
- No changes yet to LCSH policies. Continue to assign LCSH according to the *Subject Headings Manual* and assign LCGFT *in addition*
- LC has no plans at this time to cancel any of the LCSH headings or form subdivisions that overlap with the “general” terms

LC Genre/Form Terms

- Terms so far for: cartographic materials, “general” materials (e.g., dictionaries, encyclopedias), law materials, literature, moving images (films and television programs), music, radio programs and other non-musical sound recordings, and religious materials
- SACO proposals for additional terms and revisions to existing terms may be made for all of the areas listed above
- Upcoming project: ARLIS/NA Cataloging Advisory Committee is preparing an initial group of art terms (to appear late 2017 or 2018)
- Potential addition for video game genres through a vocabulary being developed by ALA Subject Analysis Committee Subcommittee on Genre/Form Implementation Working Group on Genre/Form of Videogames. If not added to LCGFT, OLAC may sponsor it as a stand-alone list of terms.

Library of Congress Genre/Form Terms

The Library of Congress Genre/Form Terms for Library and Archival Materials (LCGFT) is a thesaurus that describes what a work is versus what it is about. For instance, the subject heading **Horrer films**, with appropriate subdivisions, would be assigned to a book about horror films. A cataloger assigning headings to the movie *The Texas Chainsaw Massacre* would also use **Horrer films**, but it would be a genre/form term since the movie is a horror film, not a movie about horror films.

The thesaurus combines both genres and forms. Form is defined as a characteristic of works with a particular format and/or purpose. A "short" is a particular form, for example, as is "animation." Genre refers to categories of works that are characterized by similar plots, themes, settings, situations, and characters. Examples of genres are westerns and thrillers. In the term **Horrer films** "horror" is the genre and "films" is the form.

LCGFT assumed its title in June 2010 and in May 2011 the LCCN prefix "gf" was implemented to identify Genre/form terms as part of the change to separate LCGFT from LCSH. The "gf" prefix is one way by which a record can be identified as a genre/form authority record. Further information about the LCGFT thesaurus and its relationship to the LCSH data set may be found in [Library of Congress to Reissue Genre/Form Authority Records \(Revised May 9, 2011\)](#) and in a [FAQ on the topic](#).

Many rock operas have never been staged as theatrical works, and exist only as audio musical works.  - Terms that describe manifestation attributes generally are ineligible (e.g., **DVDs; Large print books; Paperbacks**)
 - A few exceptional manifestation-level terms are in LCGFT (e.g., **Internet videos; Video recordings for the hearing impaired**), but they should not be considered precedents

- General principles
 - Definition: “Genres and forms may be broadly defined as categories of resources that share known conventions. More specifically, genre/form terms may describe the purpose, structure, content, and/or themes of resources. Genre/form terms describing content and themes most frequently refer to creative works and denote common rhetorical devices that usually combine elements such as plot and setting, character types, etc. Such terms may be closely related to the subjects of the creative works, but are distinct from them.”

36

LC Genre/Form Terms

- General principles
 - Specificity applies to genre/form the same as it does to subjects. Assign LCGFT terms that are specific to the resource being cataloged. A seemingly broad term like **Poetry** is specific when you're cataloging a collection of poems in many different forms
 - Assign genre/form terms only as they come readily to mind after a superficial review of the resource being cataloged
 - Assign genre/form terms that correspond to the cataloging treatment of the resource. If cataloging a continuing resource such as a periodical, a monographic series, or a collected set, assign terms that characterize the resource as a whole. If cataloging a work as an analytic, assign terms that characterize the analytic

37

LC Genre/Form Terms

- General principles
 - Assign terms based on analysis of the resource being cataloged. Genre/form terms do not need to be justified by descriptive cataloging elements
 - Assign to the resource being cataloged genre/form terms that describe the resource as a whole. Sometimes one term is sufficient, while at other times a complement of terms is necessary
 - Assign broader or more general terms when it's not possible to establish a more specific term, when an array of terms is needed (e.g., for a Western romance novel, three terms are needed: **Western fiction**, **Romance fiction**, and **Novels**), or when the LCGFT Manual includes special instructions to do this

38

LC Genre/Form Terms

- General principles
 - It is permissible to assign both a broader and a narrower term (for a compilation that consists of a predominant genre or form but includes a “significant proportion” of works that would be assigned another term in the hierarchy)
 - Example:* for a poetry collection primarily containing limericks but also containing a significant proportion of other types of humorous poetry, may assign both **Limericks** and **Humorous poetry**
 - If there is a predominant genre/form, assign that term first; if predominant genre/form needs two terms to express it, assign them first

39

LC Genre/Form Terms

- General principles
 - Don't assign genre/form terms to works that have no discernible genre/form (e.g., a history of U.S. foreign relations in the 20th century)
 - For resources with separate parts (e.g., text plus an extensive bibliography or a section of maps; book with accompanying disc) also assign separate terms for the individual parts or materials if they are judged to be significant. May use \$3 to identify the part to which a term applies

40

LC Genre/Form Terms

- General principles
 - Number of terms
 - If a resource consists of two or three genres that make up a broader genre, and that broader genre includes no other than those two or three genres within its scope, assign the broader genre instead of the two or three narrower genres

Title: The best Rosh ha-Shanah and Yom Kippur music: music of the High Holidays

Term assigned: **High Holiday music** (rather than **Rosh ha-Shanah music** and **Yom Kippur music**)

41

LC Genre/Form Terms

- General principles
 - Number of terms - Rule of Three
 - If a genre/form term includes in its scope more than three sub-genres or forms, but the resource being cataloged consists of only two or three of those sub-genres or forms, assign the appropriate two or three terms instead of the broader term

Title: Time machine: the history of Canadian 60's garage, punk, and surf, 1985-95

Terms assigned: **Garage rock music**

Punk rock music

Surf music

not **Rock music**, the broader term, because it has more than three NTs

42

LC Genre/Form Terms

- General principles
 - Number of terms - Rule of Three
 - If a resource displays more than three of the narrower terms of a single broader term, assign the broader term unless the rule of four applies
 - Number of terms - Rule of Four
 - For resources that display four sub-genres or forms of a broader term, if the four sub-genres or forms comprise only a small portion of the scope of the broader term (i.e., the broader term has many narrower terms in addition to the four in question), assign the four sub-genres or forms instead of the broader term.
 - *Example:* poetry anthology that consists of four Japanese forms: **Haiku**, **Senryu**, **Tanka**, and **Kyōka**. Assign the four specific terms rather than **Poetry**

43

LC Genre/Form Terms

- General principles
 - Bring out or account for each genre or form in the title and subtitle if they accurately represent the genre(s) and/or form(s) of the resource and if they are useful for retrieval
 - If the title is general but the work is actually of a more specific genre and/or form, assign terms for the specific genre or form
 - If many genres and/or forms are listed on the title page in the manner of a table of contents, treat them as a table of contents
 - Follow additional instructions in the manual for kinds of resources and disciplines (e.g., literature)

44

LC Genre/Form Terms

• General principles

- **Objectivity:** Avoid assigning terms that express personal value judgments and opinions about resources being cataloged. Consider the intent of the author or publisher, and if possible assign terms for this orientation without being judgmental (e.g., if collection says it's humorous poetry, assign the appropriate term even if you don't find the poems funny)
- LCGFT terms are not authorized for any type of subdivision (no \$x, \$y, \$z, or \$v)

Not valid: 655 _7 Science fiction \$z France. \$2 lcgft

655 _7 Science fiction \$y 19th century. \$2 lcgft

- Divided into 10 “top” terms: **Commemorative works; Creative nonfiction; Derivative works; Discursive works; Ephemera; Illustrated works; Informational works; Instructional and educational works; Recreational works; Tactile works**
 - These are mainly for gathering the general terms into broad categories; they will rarely be assigned in a bibliographic record because more specific terms are available
 - Some of the more specific terms may be in the hierarchies of multiple top terms. For example, **Handbooks and manuals** has two BTs, **Instructional and educational works** and **Reference works**, which is an NT of **Informational works**

To Elizabeth Graeme Fergusson

Madam,

Philadelphia 5th March 1797.

The multiplicity of business which occurred in the course of the last Session, particularly in the latter part of it, placed it entirely out of my power to attend to matters of private concern. This reason, I hope, you will view with the goodness to accept as an apology for my delay in acknowledging the receipt of your very polite and obliging favour of the 16th of January, at an earlier period—& even now, being not less occupied in preparing to leave this City, I perceive the necessity of asking farther forgiveness for this laconic epistle.¹ I have, however, conversed freely on the subject of your letter with our mutual friend Mr Boudinot, who will inform you fully of the circumstances under which I find myself relative to your request. To his information therefore, I beg leave to refer you.²

I cannot conclude however, without offering you my sincere thanks for the honor you intended me, for the enclosures accompanying your letter, and for the favourable and flattering sentiments which you have expressed for me therein. To which permit me to add assurances of the high esteem and regard with which I have the honor to be, Madam, Your Most Obedient and Very Hble Servant

G: Washington

ALS (letterpress copy), DLC:GW; LB, DLC:GW.
Elizabeth Graeme Fergusson (1739-1801) first wrote to GW on 29 Sept. 1777 asking permission for her husband, Hugh Henry Fergusson, who had recently returned from Scotland and come to Germantown from New York with Lord Howe, to visit her for a month at Graeme Park outside Philadelphia. GW refused to grant her request, and on 12 Oct. she brought to him the famous letter from the Philadelphia clergyman Jacob Duché calling on GW to negotiate a settlement with Britain. Before the Revolution, after breaking off her engagement to William Franklin in 1769 and before marrying Fergusson in 1772, Elizabeth Graeme worked on a translation of Fenelon's *Télémaque* which she revised and completed in the 1780s. Her friend Elias Boudinot had been helping her search for a publisher for the nearly thirty thousand lines of poetry in twenty-four books, and she was now asking GW's permission to dedicate the work to him (Simon Gratz, "Some Material for a Biography of Mrs. Elizabeth Fergusson," *see* Graeme," *Zib. Abbe.* 30 [1915]: 257-381, 382-499, 41 [1917]: 385-498).

Foreword

To mark the completion of forty years of existence, we are bringing out collections of essays on some specific topics, culled from past numbers of the journal. The collection which follows is of obituary articles published in *Social Scientist* in the past. Oddly enough, for reasons which are not very clear, the journal published no obituaries until 1983, that is, for the first eleven years of its existence.

Susobhan Sarkar
(1900–1982)

Susobhan Chandra Sarkar passed away quietly, just after dawn on 26 August 1982, in his home at Naktala on the outskirts of Calcutta, a week after his eighty-second birthday.

Among the twentieth-century teachers of history in our subcontinent, Susobhan Sarkar was outstanding. He concentrated on modern Europe, on the social context of the development of British constitutional history and Western European political thought; and late in his career, on renaissance middle-class culture in nineteenth- and early twentieth-century India. His lucid explication of the method of Marx in analysing the course of human development, his capacity to show forces of feudalism, capitalism and imperialism interacting with ideas and influencing events, and his awareness of ways in which these forces blurred in situations where relations of production had not crystallized enough for sharp antagonisms between opposed forces, were superbly brought home to several generations of students, who left his classes with a firm grounding in the historical method of interpretation.

A disciplined and clear-sighted human being, he was a deeply committed friend of the Communist Party of India (CPI), from its origins. He had worked in popular fronts and organizational activities for diffusion of democratic and socialist consciousness. A description of all this, and a full bibliography of his books and many periodical articles and reviews, till 1975 (he wrote more in the last seven years), may be found in some detail elsewhere.¹

Published in *Social Scientist*, Issue 117, Volume 11, Number 2, February 1983.

The IACUC Process: Facilitating Science in a Well-Managed Animal Care and Use Program

by G. David Ledney, Ph.D., Radiation Medicine Department and Institutional Animal Care and Use Committee, LTC Clayton L. Hadick, USA, M.P.H., D.V.M., ACCLAM, Veterinary Sciences Department; and Robert H. Weichbrod, Ph.D., M.B.A., RILAM, Veterinary Sciences Department, Armed Forces Radiobiology Research Institute, Bethesda, Maryland

Introduction

Communication among people with diverse backgrounds and vested interests is difficult at best. This is especially true among those concerned with animal welfare issues.

An Institutional Animal Care and Use Committee (IACUC) is by its nature a focal point (fig. 1) for communication among all parties who have a stake in the use of animals in biomedical research. While each group may seek resolutions that favor its own inter-

ests, the guideline for IACUC members, when evaluating animal use proposals, must be the ethical use of animals in research and testing.

During a typical review process, IACUC members are accustomed to hearing, "You can't do that," "You don't know the science," "You have no authority," "I've done this so many times already," "That will take too long," "You are an impediment to research," (8). When a frustrated investigator says, "Just tell me what I need to do," an IACUC member may be

The purposes of this act are the following: to ensure a viable and ecologically sound tuna fishery in the eastern tropical Pacific Ocean, including avoidance of bycatch of non-targeted marine species, maintenance of healthy stocks of tuna, and protection of marine mammal populations; to observe strengthen and improve international efforts to reduce incidental dolphin mortality to insignificant levels approaching a zero mortality and serious injury rate as required by

Laboratory Animals in Space Life Sciences Research

by Gary L. Borkowski, D.V.M., M.S., Pennsylvania State University, University Park, Pennsylvania; William W. Wilfinger, Ph.D., Biosuch Express, St. Bernard, Ohio; Philip K. Lane, M.D., Lockheed Martin Engineering and Sciences Services Company, National Aeronautics and Space Administration (NASA)-Ames Research Center, Moffett Field, California

Abstract

Animals have been invaluable in space life sciences research and have contributed greatly to the current database of knowledge in this field. This article presents an overview of the historical involvement of animals, describes the hardware and logistics of flying animal payloads on the space shuttle orbiter, and discusses future plans for animal experiments in space.

Introduction

Since the beginning of modern space exploration, animals have accompanied and sometimes preceded humans as space travelers. Extensive animal experimentation was used in both the United States and Soviet/Russian space programs to collect the medical knowledge and

develop and test the engineering design concepts that would be required to support human space exploration. Initially, animals were used as surrogates to test the suitability of the space environ-

Literature Terms

LCGFT Literature Terms

- Top term: **Literature**
 - Used only for collections of literary works composed of multiple genres/forms to which more specific terms cannot be applied.

- Five high-level terms under **Literature**:
 - **Comics (Graphic works)**
 - **Drama**
 - **Fiction**
 - **Folk literature**
 - **Poetry**

101

LCGFT Literature Terms

- Many have corresponding headings in LCSH, but the LCGFT headings may not be identical. For example:

102

LCGFT Literature Terms

- Explicit aspects like **audience**, **creator characteristics**, place of origin, **language**, and **time period of creation** that are often included in LCSH were out of scope for LCGFT if they are explicit in the term, so you will not find terms like these from LCSH: **Children's poetry**; **Buddhist stories**; **Christian fiction**; **Gay men's writings**; **College prose**; **Byzantine literature**; **Literature, Medieval**; **Chinese drama**

- However, when not explicit, terms may be in LCGFT, e.g.

Azharot *Jewish liturgical poems on 613 commandments in the Torah*

Bible plays *specific religion is not explicit*

Chansons de geste *a medieval French genre*

Comedies of humours *an English 16th-17th century drama genre*

Fabliaux *bawdy medieval tales*

Hyangga *Korean poetry from Unified Silla (668-935) and Koryŏ dynasties (935-1392)*

Jataka stories *Buddhist tales about the previous births of the Buddha*

103

LCGFT Literature Terms

- Exclusions from LCGFT

- Terms that require a value judgment on the part of catalogers and users are ineligible, e.g., **Feminist fiction**; **Patriotic poetry**

- Terms for literary movements, e.g., **Dadaist poetry**; **Expressionist drama**; **Beat literature**

- However, style and technique *are* eligible, e.g., **Frame stories**; **Metadramas**; **Parodies (Literature)**; **Noir comics**; **Satirical literature**; **Stream of consciousness fiction**

LCGFT Literature Terms

- LCGFT Manual J 235

Special provisions for literature:

- Fiction: in addition to other genre/form terms, assign a term for length when it is readily apparent (**Novels; Novellas; Short stories; Flash fiction**)
- Poetry: For both individual poems and collections of poetry, rely chiefly on the title, introduction, cover information, etc., to determine whether the poetry is of a specific genre or form. If after a superficial review a specific genre or form cannot be determined, assign the term **Poetry**
- Poetry: If the genre or form of a poem or collection of poetry is known to the cataloger due to the cataloger's academic or cultural background, etc., one or more genre/form terms may be assigned to represent the genre or form (e.g., you know that Homer's *Odyssey* is **Epic poetry** even if the resource you're cataloging doesn't say it is)

Driving Alone in Winter

Driving alone in winter through acres of land
deserted by everything save the snow
trapped in the ruts of the road,
the moon broken by the bare trees,
I remember the days when my brothers and I would fall asleep
in the backseat on the way home.

Tonight, coming home, I remember
the faint light on the dashboard holding my father's face,
my mother's soft voice, my brothers asleep,
the moon running among the trees beside the car.

Back cover:

Villa Miserias is a suburb of a suburb where everyone knows their place and nothing ever changes. Every two years, elections are held for the presidency of the residents' committee, and every two years there are no surprises. But the balance begins to shift with the arrival of Selon Perdumes and his theory of Quietism in Motion. With his alabaster smile, he uncovers the deepest secrets of the unwary residents, and transforms their fantasies in reality with the help of the loans he offers them. Growing rich from money-lending, Perdumes gradually becomes the spectral power behind the community. But when Max Michels, sunk in an obsessive relationship with the beautiful, black-eyed Nelly, and, struggling to silence the multiple dissenting voices in his head, decides to run for president without Perdumes' permission, the battle lines are drawn.

A Zero-Sum Game is a universal story, a biting satire of contemporary consumer society and the cult of the individual, written with the vicious precision of Swift and Orwell, liberally sprinkled with biting humor and chilling realism. Debut novelist Eduardo Rabasa, named one of the Hay Festival's México20 list of the greatest young Mexican writers, focuses a clear, steady authorial gaze upon the sophistry and rationalizations that mask the actual situation in which, for all the choices we are offered, we have little power over our destinies, caught in the paradox of empowerment and impotence that is neoliberal society and the democratic state.

Preliminary page: "Collects outbursts of passionate love, the conflicted relationship between a father and a son, and, above all, a critique of democracy in the shape of political satire."

THE RAPE OF THE LOCK

AND

AN ESSAY ON MAN

BY ALEXANDER POPE

EDITED BY A. M. VAN DYKE, M.A.
DEPARTMENT OF ENGLISH, CINCINNATI HIGH SCHOOL

NEW YORK ··· CINCINNATI ··· CHICAGO
AMERICAN BOOK COMPANY
1898

“The Rape of the Lock” was founded on a local incident. Lord Petre having, in a moment of audacity, cut off a lock of Miss Arabella Fermor’s hair, her resentment knew no bounds, and led to a bitter quarrel between the two families. John Caryl, an intimate friend of Pope’s, suggested to him that he embody the incident in a humorous poem, so that the tragedy might be “laughed away.” Pope was pleased with the suggestion, and wrote in mock-heroic vein two cantos, describing the robbery and the ensuing battle. This was so well received that he added to it, increasing it to five cantos by introducing the machinery of the sylphs and the description of the game at ombre. The poem was unsuccessful in its purpose of making peace between the two families. Sir George Brown (Sir Plume) was annoyed at being made to talk only nonsense, and Miss Fermor was more offended by her characterization as Belinda than pleased at the flattery tendered her in the dedication. But the critics of the day and the public at large hailed the poem as a masterpiece. It is generally considered the most brilliant mock-heroic poem ever produced. In this, more than in any other of his works, Pope shows

Critical Essays Alexander Pope's *Essay on Man*

Source: CliffsNotes website
<https://www.cliffsnotes.com/literature/c/candide/critical-essays/alexander-popes-essay-on-man>

The work that more than any other popularized the optimistic philosophy, not only in England but throughout Europe, was Alexander Pope's *Essay on Man* (1733-34), a rationalistic effort to justify the ways of God to man philosophically. As has been stated in the introduction, Voltaire had become well acquainted with the English poet during his stay of more than two years in England, and the two had corresponded with each other with a fair degree of regularity when Voltaire returned to the Continent.

Voltaire could have been called a fervent admirer of Pope. ... Even as late as 1756, the year in which he published his poem on the destruction of Lisbon, he lauded the author of *Essay on Man*. In the edition of *Lettres philosophiques* published in that year, he wrote: "The *Essay on Man* appears to me to be the most beautiful didactic poem, the most useful, the most sublime that has ever been composed in any language." ...

Pope denied that he was indebted to Leibnitz for the ideas that inform his poem, and his word may be accepted. Those ideas were first set forth in England by Anthony Ashley Cowper, Earl of Shaftesbury (1671-1731). They pervade all his works but especially the *Moralist*. Indeed, several lines in the *Essay on Man*, particularly in the first Epistle, are simply statements from the *Moralist* done in verse. Although the question is unsettled and probably will remain so, it is generally believed that Pope was indoctrinated by having read the letters that were prepared for him by Bolingbroke and that provided an exegesis of Shaftesbury's philosophy. The main tenet of this system of natural theology was that one God, all-wise and all-merciful, governed the world providentially for the best.

Alexander Pope's *Essay on Man*: An Introduction

David Cody, Associate Professor of English, Hartwick College

The Essay on Man is a philosophical poem, written, characteristically, in [heroic couplets](#), and published between 1732 and 1734. Pope intended it as the centerpiece of a proposed system of ethics to be put forth in poetic form: it is in fact a fragment of a larger work which Pope planned but did not live to complete. It is an attempt to justify, as Milton had attempted to vindicate, the ways of God to Man, and a warning that man himself is not, as, in his pride, he seems to believe, the center of all things. Though not explicitly Christian, the *Essay* makes the implicit assumption that man is fallen and unregenerate, and that he must seek his own salvation.

The "Essay" consists of four epistles, addressed to Lord Bolingbroke, and derived, to some extent, from some of Bolingbroke's own fragmentary philosophical writings, as well as from ideas expressed by the deistic third Earl of Shaftesbury. Pope sets out to demonstrate that no matter how imperfect, complex, inscrutable, and disturbingly full of evil the Universe may appear to be, it does function in a rational fashion, according to natural laws; and is, in fact, considered as a whole, a perfect work of God. It appears imperfect to us only because our perceptions are limited by our feeble moral and intellectual capacity. His conclusion is that we must learn to accept our position in the Great Chain of Being — a "middle state," below that of the angels but above that of the beasts — in which we can, at least potentially, lead happy and virtuous lives.

Epistle I concerns itself with the nature of man and with his place in the universe; Epistle II, with man as an individual; Epistle III, with man in relation to human society, to the political and social hierarchies; and Epistle IV, with man's pursuit of happiness in this world. An *Essay on Man* was a controversial work in Pope's day, praised by some and criticized by others, primarily because it appeared to contemporary critics that its emphasis, in spite of its themes, was primarily poetic and not, strictly speaking, philosophical in any really coherent sense: [Dr. Johnson](#), never one to mince words, and possessed, in any case, of views upon the subject which differed materially from those which Pope had set forth, noted dryly (in what is surely one of the most back-handed literary compliments of all time) that "Never were penury of knowledge and vulgarity of sentiment so happily disguised." It is a subtler work, however, than perhaps Johnson realized: G. Wilson Knight has made the perceptive comment that the poem is not a "static scheme" but a "living organism," (like [Twickenham](#)) and that it must be understood as such.

 - Generally choose the most specific appropriate term available (e.g., **Rock music** instead of **Popular music**)
 - If work combines aspects of two genres/forms that are in different hierarchies, or exemplifies more than one genre/form, give multiple terms (e.g., for an art song, assign both **Songs** and **Art music**)
 - For notated music, give terms for the notated format in addition to any genre/form terms describing the musical work (e.g., for the score and set of parts for a string quartet, assign **Chamber music**, **Scores**, and **Parts (Music)**)

144

Music Terms

- Music Library Association's *Best Practices for Using LCGFT for Music Resources*
 - For sound recordings, do not assign **Sound recordings**, but assign terms for particular types of sound recordings if appropriate (e.g., **Film soundtracks**, **Live sound recordings**, **Original cast recordings**, **Remixes (Music)**, **Visual albums**)
 - Guidance on some specific terms (**Art music** and **Folk music**; **Chamber music**; **Arrangements (Music)**; **Excerpts**)
 - LCGFT terms should be used in conjunction with LCMPT terms
 - For now, continue to use LCSH in field 650 according to the guidelines in the Subject Headings Manual

Cartographic Materials

- LCGFT Manual: No separate instruction sheet for these materials
- *Cartographic Resources Manual* (2016) available through Cataloger's Desktop
 - Replaces LC's *Map Cataloging Manual*
 - Chapter 4. Subject Access:
 - Assign at least one genre form heading for all cartographic materials. Assign a more specific applicable heading or headings in preference to a general one, that is, **Road maps** rather than **Maps**.
 - There is no set order for genre form headings for maps.
 - However, for other cartographic materials, the first heading should be specific to the medium, such as **Atlases**, **World atlases**, **Globes**, or **Relief models**. This heading can then be followed, in no set order, by any another headings that apply, such as **Physical maps** or **Road maps**.

Cartographic Materials

- Chapter 4. Subject Access:

- A subsidiary map mentioned in a title, subtitle, or cover, even if not indexed, frequently receives a subject or genre/form tracing depending on prominence, detail, typography, or other factors.
- Subsidiary maps, especially insets, which portray a specific subject frequently receive subject or genre/form tracings, whether or not they are indexed.
- The genre/form headings **Maps**, **Tourist maps**, and **Road maps** are all considered general headings, and the maps to which they apply are considered general maps. The use of two of the three general headings on the same work should be explained by the title, alternate title, series, or overall publishers' intent, often clarified by a shows note.

Audience and Creator/Contributor Characteristics

- MARC fields 385 and 386 were developed to have a place to record audience and creator/contributor characteristics
- *Library of Congress Demographic Group Terms* (LCDGT) is a controlled vocabulary specific to demographic groups and was developed for use in 385 and 386 fields
- Initial group of 387 terms were approved in 2015, and there were 1,090 approved terms as of April 2017
- SACO proposals may be made for additional needed terms
- LCDGT should be used with the *Demographic Group Terms Manual* (<https://www.loc.gov/aba/publications/FreeLCDGT/freelcdgt.html>)

MARC 385/386 \$m and \$n

\$m – Demographic group term (NR)
\$n – Demographic group code (NR)

- During the development of the 385 and 386 fields, some commented that many class of persons headings belong to broader group categories that users might want to search or limit by. For example, children, tweens, teenagers, young adults, middle-aged persons, and senior citizens are all examples of **age groups**. Catholics, Baptists, Jews, Buddhists, Mormons, Muslims, Hindus, and Wiccans are all examples of **religious groups**.
- LC PSD maintains the list of group terms and codes:

Library of Congress Demographic Group Categories Term and Code List

List identifier: lcdgt

<http://www.loc.gov/standards/valuelist/lcdgt.html>

Term and Code List

The purpose of this list of demographic categories and associated codes is to allow terms that are authorized in Library of Congress Demographic Group Terms (LCDGT) to be collocated at a broad level.

The demographic group category codes are three-character lowercase alphabetic strings. They are derived from the first letter of the demographic group category and two additional letters from the word(s) making up the demographic group category name.

Age [age]

Use for the chronological age of the group members (e.g., Adults, Children, Infants).

Educational level [edu]

Use for the educational level of the group members (e.g., First grade students, Graduate students, High school students).

Ethnic/cultural [eth]

Use for the ethnic or cultural identification of the group members (e.g., Asian Americans, Maratha (Indic people), Muscogee (North American people)). For ethnic and cultural groups that are also demonyms associated with a supra-national region, a country or a sub-national region or jurisdiction, prefer Nation/regional category.

Gender [gdr]

Use for the gender of the group members (e.g., Females, Males, Transgender people).

Language [lng]

Use for the language associated with the group members (e.g., Arabic speakers, English speakers, Zulu speakers).

Medical, psychological, and disability [mpd]

Use for the medical or psychological condition, or the physical or mental disability, of the group members (e.g., Breast cancer patients; Mentally ill; Deaf).

National/regional [nat]

Use for the demonym related to a supra-national region, a country, or a sub-national region or jurisdiction that is associated with the group members (e.g., Angolans, Bavarians, Easterners (United States)). For ethnic and cultural groups that are not also demonyms, prefer Ethnic/cultural category.

Occupation/field of activity [occ]

Use for the activity or avocation associated with the group members (e.g., Hunters, Mathematicians, Textile artists).

Religion [rel]

Use for the religion or denomination, sect, etc., of the group members (e.g., Buddhists, Presbyterians, Shiites).

Sexual orientation [sxo]

Use for the sexual orientation of the group members (e.g., Bisexuals, Gay men, Heterosexuals).

Social [soc]

Use for identifiable social groups that cannot be included in the other categories (e.g., Children of divorced parents, Nursing students, Socialists).

165

385/386 Fields

- \$m and \$n are optional
- \$2 is optional, but recommended if terms recorded are from a controlled vocabulary. Use *lcdgt* for terms from LCDGT
- May repeat \$a when terms are from the same vocabulary:

386 __ Catholics \$a Canadians \$a Librarians \$2 lcdgt

A work or works created by Catholic Canadian librarians

- Must repeat the field if \$m or \$n is used and terms belong to different demographic categories:

386 __ \$n rel \$a Catholics \$2 lcdgt

386 __ \$n nat \$a Canadians \$2 lcdgt

386 __ \$n occ \$a Librarians \$2 lcdgt

166

385/386 Fields

- Must repeat field if terms are from different controlled vocabularies:

385 __ \$a Teenagers \$2 lcdgt

385 __ \$a Adolescents \$2 ericd

A work or works for teenagers

386 __ \$a Indians, North American \$2 mesh

386 __ \$a American Indians \$2 ericd

386 __ \$a Indians of North America \$2 lcsb

A work or works created by Native Americans

167

385/386 Fields

- Generally, break up compound terms into their components. For example:

~~386 __ Japanese American women teachers \$2 lcsb~~

use instead:

386 __ Japanese Americans \$a Women \$a Teachers \$2 lcdgt

or

386 __ \$a Japanese Americans \$2 lcdgt

386 __ \$a Women \$2 lcdgt

386 __ \$a Teachers \$2 lcdgt

A work or works created by Japanese American women teachers

Which Vocabularies to Use?

- Any vocabularies that are on the *Subject Heading and Term Source Codes* list or other appropriate specialized lists such as *Occupation Term Source Codes*

<http://www.loc.gov/standards/sourcelist/subject.html>

- LCDGT is being developed as a preferred vocabulary to use in these fields
- My advice:
 - 1) use LCDGT as first choice
 - 2) propose needed new terms through SACO whenever possible
 - 3) use other vocabularies (LCSH, MeSH, AAT, etc.) as third resort
 - 4) use an uncontrolled/local term as last resort

174

Where Can You Find LCDGT Terms?

- Available in Classification Web and through LC’s Linked Data Service (id.loc.gov)
- Now also searchable through Cataloger’s Desktop (if you have a Class Web subscription)
- Annually created PDF file at <https://www.loc.gov/aba/publications/FreeLCDGT/DEMOGRAPHIC.pdf>
- Netanel Ganin’s list at <http://www.netanelganin.com/projects/lcdgt/lcdgt.html>
- New and changed terms are posted in the monthly lists at <http://www.loc.gov/aba/cataloging/subject/weeklylists>; free subscriptions to the monthly lists, via e-mail or RSS feed, can be arranged at <http://www.loc.gov/rss>
- Full MARC 21 authority records in MARC UTF-8 format are free to download from <http://classificationweb.net/LCDGT/> and in a variety of formats from the Linked Data Service
- Authority records **not** available in OCLC Connexion or SkyRiver 😞

175

176

Why Use LCDGT?

- LCDGT includes many terms that are not in LCSH:
 - language speakers **Chinese speakers** **Korean speakers**
 - demonyms for persons from states, provinces, regions, etc.
Wisconsinites **Newfoundlanders** **Tuscans**
 - non-U.S. ethnic groups formed as compound terms
Japanese Canadians **Asian Australians** **Bosnian Swedes**
 - members of named religious denominations and political parties
Church of Scotland members **Fianna Fáil members (Ireland)**
- LCDGT terms may be different from LCSH:
 - phrase headings instead of [Main heading]--[Subdivision] strings
Breast cancer patients **Bookstore employees**
 - Native American tribal groups formed differently
Cherokee (North American people) vs. **Cherokee Indians**
 - new authority research might lead to choice of different authorized form

 About the Library of Congress Demographic Group Terms PDF Files

This page provides PDF files for the 2017 Edition of the *Library of Congress Demographic Group Terms (LCDGT)* as well as the draft of the *Demographic Group Terms Manual*. The LCDGT vocabulary should be used in conjunction with the Manual, which provides guidelines and instructions for making proposals and for applying demographic group terms. Data for this edition was selected in April 2017.

LCDGT is also available in other formats. For users desiring enhanced functionality, LCDGT will continue to be part of LC's web-based subscription product, *Classification Web*. Authority records in MARC UTF-8 format may be freely downloaded from <http://classificationweb.net/LCDGT/>, and they are also available for download in a variety of formats from LC's Linked Data Service, <http://id.loc.gov>.

Earlier editions are available [here](#) but should not be used for cataloging.

194

Assigning LCDGT - Key Points

- May add Audience Characteristics (field 385) and Creator/Contributor Characteristics (field 386) to bibliographic and authority records
- *LC practice*: one term per field. Repeat field if recording multiple terms. Optionally include \$n code.

385 __ Lawyers \$2 lcdgt

385 __ Japanese speakers \$2 lcdgt

or

385 __ \$n occ \$a Lawyers \$2 lcdgt

385 __ \$n lng \$a Japanese speakers \$2 lcdgt

195

Assigning LCDGT - Key Points

- LCDGT Manual L 480 (Audience) and L 485 (Creators/Contributors)
 - Audience may be explicitly stated or implicit. Infer audience through examination of the resource (subject matter, format, etc.).
 - Liberally assign inferred audiences for juvenile resources, both fiction and nonfiction. Not restricted to age and educational level terms. For example, for a picture book on intercountry adoption for ages 5-9, you could assign both **School children** and **Adoptees**, if considered useful for those wishing to find a resource to help explain adoption to young children
 - No limit to number of terms that can be assigned

196

Assigning LCDGT - Key Points

- LCDGT Manual L 480 (Audience) and L 485 (Creators/Contributors)
 - Generally, all editions of a resource should get the same audience terms assigned, unless the audience has changed significantly. Generally, all editions of a resource by the same creator should get the same creator terms.
 - You may assign terms that overlap in meaning if they are in different group categories (e.g., **Teenagers** and **High school students**; **Asian Americans** and **Americans**)
 - Creator/contributor terms should be based on self-identification as a member of a particular demographic group
 - Avoid assigning terms based solely on a photograph or a person's name. Gendered titles (Ms., Mr., Madame, contessa) and pronouns (he, she, elle, er, etc.) may be used, with caution, to choose terms describing a person's gender

197

What do each of these people have in common?

198

Assigning LCDGT - Key Points

- LCDGT Manual L 480 (Audience) and L 485 (Creators/Contributors)
 - Demographic terms assigned to one of a creator's resources generally can be used on other resources created by the same person
 - Assign a term that is broader or more general than the group it is intended to cover only when it is not possible to establish a precise term, or when an array of terms is needed
 - Assign a separate term for each discrete element rather than compound terms (e.g., **Japanese Americans** and **Women** and **Teachers**, rather than the LCSH term **Japanese American women teachers**)
- L 487 gives guidance on the order of the terms
 - If classification number does not reflect either the audience or creator/contributor characteristics, the order doesn't matter

199

Assigning LCDGT - Key Points

- Follow special instructions in L 510-L 560 if there are any
 - Age level and Educational level terms can both be assigned
 - 385 __ Teenagers \$2 lcdgt
 - 385 __ Junior high school students \$2 lcdgt
 - 385 __ High school students \$2 lcdgt
 - Assign **Adults** only when resource specifically states that as the audience. This can include statements found on a resource such as "Ages 10 and up":
 - 385 __ Preteens \$2 lcdgt
 - 385 __ Teenagers \$2 lcdgt
 - 385 __ Adults \$2 lcdgt
 - Many resources may not have a specific audience and that's OK. Resources with a general audience do not get any audience terms assigned.

200

Assigning LCDGT - Key Points

- Follow special instructions in L 510-L 560 if there are any
 - Ethnic/cultural terms and nationality/regional terms may both be assigned, even if they share wording (e.g., **Korean Americans** and **Americans**)
 - Assign demonyms based on statements that indicate current or former residence in a place
 - Do not attempt to distinguish between people who were born and/or grew up in a place and those who moved to that place later in their lives. Do not attempt to discern immigration and naturalization status, except as explicitly indicated on the resource itself.

“... was born and raised in Australia and currently lives in Spain”

386 __ Australians \$a Spaniards \$2 lcdgt

201

Assigning LCDGT - Key Points

- Follow special instructions in L 510-L 560 if there are any
 - When the audience or creator/contributor resides below the first-level administrative subdivisions of countries (e.g., a state, a province), assign terms for the first-level administrative subdivision (e.g., for a resident of San Francisco or someone who grew up in San Francisco, assign **Californians**)
 - *Note*: LC is still deciding whether and how to establish demonyms for places below the first-level administrative subdivision of a country
 - Possible interim practice:
 - If there is an well known demonym for the local place, assign it *without a subfield* \$2 or with \$2 *local* if you keep your own list of locally assigned terms
 - For creator/contributors, could also add 370 \$g for the place of origin of work

For example: A collection of poetry written by people from San Francisco

370 __ \$g San Francisco (Calif.) \$2 naf

386 __ San Franciscans or San Franciscans \$2 local

386 __ Californians \$2 lcdgt

202

Assigning LCDGT - Key Points

- Follow special instructions in L 510-L 560 if there are any
 - Do *not* assign language terms just to reflect the language of a resource (e.g., don't assign audience **German speakers** to every resource in German). Language terms for audience are usually assigned for resources that instruct speakers of one language who are learning another language.
 - Bilingual dictionaries may have two audience speaker terms assigned if speakers of both languages would find it useful
 - 245 00 Collins English-Italian, Italian-English dictionary ...
 - 385 __ English speakers \$2 lcdgt
 - 385 __ Italian speakers \$2 lcdgt
 - Monolingual language dictionaries would *not* be assigned a language audience term, e.g., don't assign **English speakers** to the OED or to *A Dictionary of Economics*

203

Assigning LCDGT - Key Points

- Do not assign a term from the Occupation/Field of Activity category when the term is redundant with the format of resource being cataloged. That is, don't assign **Composers** as a creator characteristic of a score. It's a score, so its creator must be a composer! Similarly, don't assign **Poets** to every book of poetry. However, if you have a novel or non-fiction work written by a composer, then assigning **Composers** as a creator characteristic is useful.
- Consider SACO proposals for new LCDGT terms needed in new cataloging
- Continue to follow current subject cataloging policies and procedures as found the *Subject Headings Manual*. That is, assignment of LCDGT in fields 385 and 386 is *in addition* to what you assign in 6XX fields.

An Introduction to Spanish for Health Care Workers facilitates better communication between health care providers and the growing Spanish-speaking community in the United States. It is not a phrase book or a translator. It is a first course in Spanish, progressively merging conversation and a health care lexicon in various medical contexts. Although it does not call for a prerequisite knowledge of Spanish, this book is also helpful to people who speak limited Spanish and aspire to apply their Spanish in a medical setting. Topics include building the patient-practitioner relationship, the patient's chief complaint, taking medical history, and defining current symptoms. We progress to injuries, pharmacotherapy, diet and nutrition, tests and procedures, diagnoses, and specialized topics such as hospitalizations, dentistry, illnesses, tropical and infectious diseases, mental health, palliative care, maternity, and sexual protection.

Robert O. Chase is a social worker and a pretrial competency examiner for the Connecticut Department of Mental Health and Addiction Services. An American-Dominican citizen, he teaches Spanish at local hospitals and at Tunnix Community College, drawing on rich Latin-American immersion experiences. **Clarisa B. Medina de Chase** is a rehabilitation therapist at Connecticut Valley Hospital. A Dominican-American citizen, she appreciates the value and challenges of learning to successfully function in multiple sociocultural and linguistic contexts.

SACO and LCGFT/LCDGT

or, what to do when you need a term that isn't yet established

“The term I need isn’t in LCGFT or LCDGT” 🙌😄🙌

- Assign broader term? *Violates principles of specificity, but better than nothing*
- Assign no term? *Disservice to users*
- Use term from a different controlled vocabulary? *Sure, that’s allowed. Be sure to code it correctly as being from that vocabulary. However, LCGFT and LCDGT are purpose-built vocabularies that are preferable.*
- Propose the new term through SACO? *Yes! Good choice!*
- But how do I do that? Will it hurt? *I will teach you! And, only a little*

 - Authority research must be done to show that you have searched to determine what the authorized term and variants should be; if you don't find anything else about the genre/form that will not cause your proposal to be rejected – you just have to show that you looked for information
 - Any BTs must be submitted in separate proposal if they aren't already established (i.e., you can't have a 555 in a record if there isn't also an authority where that term is a 155)

Formulating and Proposing New LCGFT Terms

Formulating LCGFT

- LCGFT Manual instruction sheets J 120-J 195 have detailed info
 - Key points:
 - Use plural form for entities capable of being counted and singular form for concepts that cannot be enumerated

Chinese operas	Black humor
Haiku	Courtroom art
Kabuki plays	Folk literature
Samurai films	Gagaku
 - Establish terms in English unless:
 - 1) No English term for the concept exists and foreign terms are used to express the concept even in English-language sources

Festschriften	Sasōl sijo	Sewamono
<i>or</i>		
 - 2) No citation can be found in any English-language source and the concept appears to be unique to the language of the work being cataloged ²⁶⁸

Formulating and Proposing New LCDGT Terms

Formulating LCDGT - L 420 When to Establish

- LCDGT Manual instruction sheets L 420-L 476 have detailed info
- L 420 When to Establish a New Demographic Term
 - Establish new term for “a discrete and identifiable group with which one or more creators or contributors self-identifies, and for explicit or implicit intended audiences ... Establish the demographic group when it is first encountered”
 - Terms generally reflect current American usage. If there is no consensus on the accepted term to use, conduct authority research and then “make an intuitive judgment based on available evidence”
 - Make UF references from any significantly different terms found for the group

270

Formulating LCDGT– L 440 Authority Research

- Must conduct authority research to determine authorized term, variant terms (UFs), related terms (BTs and/or RTs), appropriate group category code(s), and scope note if one is provided
- Must always cite work being cataloged that prompted the need for the proposal
- Citing only the work cataloged is never sufficient. Must look for info in other sources and cite those sources. Even if nothing was found, you must show that you did do research
- Use multiple 670 fields for sources where info was found and a single 675 for sources where no info was found

271

Formulating LCDGT– L 440 Authority Research

- Patterns may be cited, but not in lieu of authoritative reference sources (e.g., you can cite **Chess players** as a pattern in a proposal for **Checker players**, but that is not sufficient)
- Sources to consult (print and/or online)
 - General dictionaries, encyclopedias, and indexes (e.g., Reader's Guide)
 - Subject heading lists/thesauri (e.g., LCSH, MeSH, AAT, ERIC, Homosaurus)
 - Reference sources for particular disciplines (e.g., subject/language dictionaries, encyclopedias, handbooks, etc.)
 - Web sites, especially for organizations associated with the concept being proposed (e.g., American Society for Environmental History for proposal to establish **Environmental historians**)
 - OCLC, for other works that use the proposed term or variants

272

Formulating LCDGT – L 460 Form of Authorized Term

- Terms in direct order **Engineering students** *not* Students, Engineering
- Terms in plural form **Californians** *not* Californian
- Terms in English unless
 - (1) no English term for the group and group is normally referred to in foreign terms even in English-language resources (e.g., **Mahorais**)
 - or
 - (2) no citation can be found in any English-language reference source and concept appears to be unique to the language of the resource being cataloged (e.g., **Saint-Barths; Saint-Pierrais et Miquelonnais**)

273

Formulating LCDGT – L 463 Parenthetical Qualifiers

- Parenthetical qualifiers used if word or phrase has more than one definition (except if term has commonly accepted meaning as well as other more obscure ones)
 - Georgians (Republic of Georgia)**
 - Georgians (State of Georgia)**
 - Hawaiians (Polynesian people)**
- but* **Sisters** *not* Sisters (Siblings)
- Prefer phrases using adjectival qualifier over a parenthetical qualifier
 - Lay deacons** *not* Deacons (Laity)
- Some categories of terms are routinely qualified (e.g., political party members, ethnic groups that are not also demonyms)
 - Democratic Party members (United States)**
 - Cherokee (North American people)**

274

Formulating LCDGT – L 465, L 468 Categories & BTs

- Every term must be assigned to one or more categories of which it is a part. Use code for the category in MARC field 072
- BTs given when one group is by definition part of another
- BTs may be from different categories
 - 150 __ \$a Boys
 - 550 __ \$w g \$a Children
 - 550 __ \$w g \$a Males
- BTs not assigned when term is not intrinsically part of another established demographic group. Can use inverted UFs to bring related terms together
 - 150 __ \$a Law students 150 __ \$a Nursing students
 - 450 __ \$a Students, Law 450 __ \$a Students, Nursing

*No BT for **Students** because it refers to students at all levels and in all disciplines*

275

Formulating LCDGT – L 468 BTs

- “Orphan” terms, i.e., terms with no BTs, are permitted and common. Many terms are not intrinsically part of another established demographic group

Formulating LCDGT – L 470 RTs

- RTs link two terms that are neither broader nor narrower than each other; one of the terms should be strongly implied whenever the other is considered; meanings that overlap to some extent, or the terms are used somewhat interchangeably

African Americans

RT Blacks

Blacks

RT African Americans

- RT references not made if terms begin with the same word or word stem or if have a common broader term at any level of hierarchy
- Scope notes contrasting the terms are made if the above rule does not permit RTs

277

Formulating LCDGT – L 473, L 476 UFs & Scope Notes

- L 473: “Used For” (UF) references
 - General rule: after deciding what the authorized term will be, make UFs for other equivalent words and phrases found while conducting authority research
 - Numerous guidelines, e.g., when to make UFs for inverted references, phrase equivalents, abbreviations, variant spellings, foreign language words or phrases, pejorative terms, etc.

SACO Exercise 1 - LCGFT

Darn! The term you want to use isn't in LCSH either.

You could assign the broader term **Comedy plays**. But you really want to give the specific genre/form for this work, so you decide to do a SACO proposal. You know that LC won't just take your word for it, so you do some authority research in several dictionaries and encyclopedias.

Hodgson, Terry. The Drama Dictionary, ©1988

Commedia erudita. 'Learned comedy'. The written comedy of Italy in the early sixteenth century, as compared with the improvised Commedia dell'Arte. A realistic and sardonic form of comedy, best represented perhaps by *La Mandragola* (c.1518) by Machiavelli and *I Suppositi* (1509) by Ariosto. It derived from the Roman farce of Terence (c.190 or c.180-159 B.C.) and Plautus (c.254-184 B.C.).

298

Commedia erudita

ITALIAN DRAMATIC FORM

WRITTEN BY: The Editors of Encyclopædia Britannica
 See Article History

Commedia erudita, (Italian: 'learned comedy'), 16th-century Italian dramatic form that, unlike its theatrical contemporary, the vernacular and improvisational *commedia dell'arte*, followed scripts written in Latin or Italian that were based on the scholarly works of earlier Italian and ancient Roman authors. Because the language used in the *commedia erudita* was not easily comprehensible to the general public, these plays were performed for the nobility, usually by nonprofessional actors (*dilettanti*). Sources for *commedia erudita* included the comedies of the Roman dramatists Plautus and Terence and works of the 14th-century Italian humanist [Giovanni Boccaccio](#). Other dramas were contributed by [Ludovico Ariosto](#), considered the best writer of early Italian vernacular comedy and a principal figure in the establishment of this literary form; the philosopher-playwright [Giambattista della Porta](#), author of a number of stinging satires; and [Niccolò Machiavelli](#), whose *La mandragola* (1524; 'The Mandrake') was one of the outstanding comedies of the century.

Themes, motifs, situations, and the use of stock characters by the *commedia erudita* greatly influenced the *commedia dell'arte*, whose repertoires, especially in northern Italy, resembled the *commedia erudita* in their tight structures based on the three dramatic unities (time, place, action).

299

The New Penguin Dictionary of the Theatre, 2001

commedia erudita An Italian theatrical form of the 16th century, a more scholarly counterpart to the *commedia dell'arte*. Unlike the *commedia dell'arte*, the *commedia erudita* was based upon written scripts (derived largely from the comedies of Plautus and Terence) and was intended for performance before educated audiences. Among those who wrote for the *commedia erudita* were Aretino, Ariosto, Della Porta, and Machiavelli.

The Methuen Drama Dictionary of the Theatre, 2011

commedia erudita In 16th-century Italy, a more scholarly version of the *commedia dell'arte*. Unlike the latter, it was performed to educated audiences and used written scripts, many derived from the comedies of Plautus and Terence. A representative play is Machiavelli's *La Mandragola* (1520), a satire on Florentine society in which a corrupt priest helps a woman's husband, lover, and mother to betray her. Other writers in the genre were Bernardo Bibbiena, whose *La Calandria* (1506) was adapted from Plautus's *Menaechmi*, Pietro Aretino, who based his *Il Marescalco* (1533) on Plautus's *Casina*, Giambattista Della Porta, who wrote over 30 plays of this kind, and the poet Lodovico Ariosto.

Pavis, Patrice. Dictionary of the Theatre: Terms, Concepts, and Analysis, ©1998

commedia erudita An Italian brand of comedy of intrigue from the Renaissance, often written by Humanists to counterbalance the rather coarse imitations of the comedies of Plautus and Terence and the popular genre of *commedia dell'arte* -- for example, *I Suppositi* by Ariosto (1509), *La Mandragola* by Machiavelli (1520).

310

From the foreword:

Page x: "This anthology has been put together with the express aim of offering early twenty-first century East African readers of English language poetry opportunities for partaking in comprehensive poetic experience."

Page xi: "The universality of the experience of being human together with the communicability of even the strangest of experiences across human groups partly account for the inclusion of poems by non-East Africans and of previously published poems by East Africans in this anthology. Early twenty-first century East African readers should not find it unduly difficult to understand these 'strange' utterances."

311

The content of the anthology is chiefly poetry by male and female writers from East Africa, but it also includes a few poems by others (William Blake, Thomas Hardy, Wilfred Owen, Léopold Sédar Senghor, William Shakespeare, and Wole Soyinka)

Questions:

Is there a stated audience for this compilation?

Are there any creator/contributor characteristics that ought to be recorded?

- LC maintains a list called *Temporal Term Source Codes* (<https://www.loc.gov/standards/sourcelist/temporal.html>). But there is nothing currently on the list!
- “Many general subject lists and thesauri also contain controlled vocabularies for specifying time periods. Thus those general sources may also be used in usage elements identified for temporal terms, with the appropriate source code (see [Subject Heading and Term Source Codes](#))”
- Maybe some day LC will decide it needs to create the LCTTT (LC Temporal Terms Thesaurus)
- For now, use terms from other general lists, e.g., LCSH, FAST

Full Implementation of Faceted Vocabularies

Finally - What About All Our Old Records?

- In order for faceted vocabularies to work best, we will need to figure out how to add facets to legacy records. Think about how many literature and music records don't have any genre/form terms in them. Audience and creator/contributor terms would also be helpful.
- ALCTS CaMMS Subject Analysis Committee has issued a white paper: *A Brave New (Faceted) World: Towards Full Implementation of Library of Congress Faceted Vocabularies* (<http://hdl.handle.net/11213/8146>)

A Brave New (Faceted) World

- Key Points:
 - need critical mass of bibliographic metadata that includes these faceted attributes
 - full-scale implementation requires a combination of broad and comprehensive training of catalogers ("current implementation") and retrospective implementation through the development of nuanced and powerful machine algorithms
 - requires buy-in and support of national and international entities like PCC, LC, OCLC and library systems vendors
 - addition of genre/form terms should be a core requirement for PCC records
 - strongly encourage the addition of 382 fields, using LCMPT terms whenever appropriate
 - add LCDGT to both bibliographic and authority records, until authority records are created for all personal names and works and expressions; then just add to authority records
 - shows how retrospective enhancement of records could be achieved based on fixed field values and codes, LCSH and classification numbers, and other data already in records
