

Changes from AACR2 to RDA: A Comparison of Examples Part 2: Access Points

OLA Annual Conference
April 25, 2012

presented by

Adam L. Schiff

Principal Cataloger

University of Washington Libraries

aschiff@uw.edu

faculty.washington.edu/aschiff

List of changes to AACR2 instructions
available on the JSC website:

<http://www.rda-jsc.org/docs/5sec7rev.pdf>

MARC 21 changes for RDA

<http://www.loc.gov/marc/RDAinMARC29.html>

OCLC Technical Bulletin 258

[http://www.oclc.org/support/documentation/
Worldcat/tb/258/default.htm](http://www.oclc.org/support/documentation/Worldcat/tb/258/default.htm)

OLA Annual Conference 4/25/2012

I worked from the list of changes compiled by the JSC and posted on its website.

Note: this is not necessarily a complete list - just those identified during the RDA development process.

This presentation does not cover all of the changes from AACR2 to RDA, nor does it include most of the new instructions unique to RDA, nor many of the new MARC 21 bibliographic and authority format additions and changes made for RDA. I've selected the changes from AACR2 to RDA that I thought would be of most interest to a general audience.

For a list of MARC 21 changes for RDA, see:

<http://www.loc.gov/marc/RDAinMARC29.html> and see the lists of changes as announced in the MARC 21 updates: <http://www.loc.gov/marc/marcginf.html#naa>

OCLC Technical Bulletin 258 lists all of the MARC changes OCLC implemented in May 2010: <http://www.oclc.org/support/documentation/worldcat/tb/258/default.htm>

ACCESS POINTS & AUTHORITY RECORDS

Relationships

Relationships to Persons, Families, & Corporate Bodies

Associated with a Resource: RDA 18-22

Relationships between Works, Expressions, Manifestations, & Items: RDA 24-28

Relationships between Persons, Families, & Corporate Bodies: RDA 29-32

18.5.1.3 Record one or more appropriate terms from the list in appendix I with an identifier and/or authorized access point representing the person, family, or corporate body to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

29.5.1.3 Record an appropriate term from the list in appendix K to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

OLA Annual Conference 4/25/2012

A few words about relationships. In RDA there is much more importance given to indicating the nature of relationships than there was in AACR2. Three types of relationships are covered by various chapters in RDA, and there are three appendices with lists of relationship designators that can be used in conjunction with access points to indicate explicitly the type of relationship. The designators are not required elements, but their use may enable systems to do some things that they cannot now do. In the examples in upcoming slides, I've always shown the use of the relationship designators when appropriate.

18.1.6 The term relationship designator refers to a designator that indicates the nature of the relationship between a resource and a person, family, or corporate body associated with that resource represented by an authorized access point and/or identifier.

24.1.5 The term relationship designator refers to a designator that indicates the nature of the relationship between works, expressions, manifestations, or items represented by authorized access points, descriptions, and/or identifiers.

24.4 Record the relationship between a work, expression, manifestation, or item and a related work, expression, manifestation, or item using one or more of the conventions described under 24.4.1 (identifier), 24.4.2 (authorized access point), or 24.4.3 (description), as applicable.

Record an appropriate relationship designator (see 24.5) to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

24.5.1.1 A relationship designator is a designator that indicates the nature of the relationship between works, expressions, manifestations, or items represented by authorized access points, descriptions, and/or identifiers.

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

29.1.5 The term relationship designator refers to a designator that indicates the nature of the relationship between persons, families, or corporate bodies represented by authorized access points and/or identifiers.

29.4 Record the relationship between a person, family, or corporate body, and a related person, family, or corporate body using one or more of the conventions described under 29.4.1 (identifier) and/or 29.4.2, (authorized access point) as applicable. Record an appropriate relationship designator (see 29.5) to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

29.5.1.1 A relationship designator is a designator that indicates the nature of the relationship between persons, families, or corporate bodies represented by authorized access points and/or identifiers.

29.5.1.3 Record an appropriate term from the list in appendix K to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

*No equivalent, but RDA allows
use of other terms not in
Appendices I-K*

This slide indicates how relationships to persons, families, and corporate bodies associated with a resource are explicitly recorded in AACR2 and RDA (RDA 18-22). I've only shown personal name added entries, but the principles apply equally to families and corporate bodies and also to entities recorded in 1XX fields.

Differences between AACR2 and RDA encoding:

Designations of function in AACR2 are given in abbreviated form, whereas in RDA relationship designators are spelled out.

Specialist catalogers may use MARC 21 relator terms or codes to code specific functions in AACR2 access points. The MARC relator terms are not always identical to RDA designators, and there are terms in both lists that don't have equivalents in the other. In RDA, the relationship designators are always spelled out fully.

RDA 18.5.1.3 Record one or more appropriate terms from the list in appendix I with an identifier and/or authorized access point representing the person, family, or corporate body to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

If none of the terms listed in appendix I is appropriate or sufficiently specific, use a term designating the nature of the relationship as concisely as possible.

Access Points – ~~Rule of Three~~

OLA Annual Conference 4/25/2012

AACR2 21.6C2. If responsibility is shared among more than three persons or corporate bodies and principal responsibility is not attributed to any one, two, or three, enter under title. Make an added entry under the heading for the first person or corporate body named prominently in the item being catalogued. If editors are named prominently, make an added entry under the heading for each if there are not more than three. If there are more than three named prominently, make an added entry under the heading for the principal editor and/or for the one named first.

21.30B1. If the main entry is under the heading for a corporate body or under a title, make added entries under the headings for collaborating persons if there are not more than three, or under the heading for the first named of four or more.

RDA 6.27.1.3 If principal responsibility for the work is not indicated, construct the authorized access point representing the work using the authorized access point representing the first-named person, family, or corporate body followed by the preferred title for the work.

17.8 Work Manifested. CORE ELEMENT. If more than one work is embodied in the manifestation, only the predominant or first-named work manifested is required.

17.8.1.1 A work manifested is a work embodied in a manifestation.

17.8.1.3 Record a work manifested applying the general guidelines on recording primary relationships given under 17.4. [Which are: Identifier for the Work; Authorized Access Point Representing the Work; Composite Description]

LCPS for 17.8: *LC practice for Core element*: For resources other than compilations, this core element is covered by the authorized access point for the work when present in a MARC bibliographic record (not possible to give this core element separately in a MARC record).

For compilations of works, give an analytical authorized access point for the predominant or first work in the compilation when it represents a substantial part of the resource. Disregard contributions such as a preface or introductory chapter. Generally, do not apply this core element to anthologies of poetry, conference proceedings, journals, collections of interviews or letters, and similar resources.

19.2.1.3 Record a creator applying the general guidelines on recording relationships to persons, families, and corporate bodies associated with a resource given under 18.4.

18.5.1.3 Record one or more appropriate terms from the list in appendix I with an identifier and/or authorized access point representing the person, family, or corporate body to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. If none of the terms listed in appendix I is appropriate or sufficiently specific, use a term designating the nature of the relationship as concisely as possible. *Note*: RDA appendices are not closed lists. If a term is needed that isn't in the appendices, catalogers can devise a term and notify the JSC for possible inclusion in RDA. Catalogers can also use other vocabularies.

Note: the policy on how many names to include in a statement of responsibility doesn't automatically correspond to the same policy for how many authorized access points to give. You could give "[and four others]" in the 245 and still give four 700 fields, or you could give all in the 245 but none in 700 fields or only some in 700 fields.

Note: the across-the-board use of relationship designators is a change from AACR2. However, use of designators is still optional in RDA (18.5 Relationship Designator is not a core element). LCPS for 18.5.1.3 only mandates the inclusion of the designator "illustrator" in access points in bibliographic records for an illustrator of resources intended for children.

Access Points – ~~Rule of Three~~

OLA Annual Conference 4/25/2012

21.7B1. Enter a work falling into one of the categories given in 21.7A under its title if it has a collective title. Make added entries under the headings for the compilers/editors if there are not more than three and if they are named prominently in the item being catalogued. If there are more than three compilers/editors named prominently, make an added entry under the heading for the principal compiler/editor and/or for the one named first.

21.30D1. Make an added entry under the heading for a prominently named editor or compiler. For serials and integrating resources, make an added entry under the heading for an editor if considered to be important.

6.27.1.4 If the work is a compilation of works by different persons, families, or corporate bodies, construct the authorized access point representing the work using the preferred title for the compilation, formulated according to the instructions given under 6.2.2.

17.8 Work Manifested. CORE ELEMENT. If more than one work is embodied in the manifestation, only the predominant or first-named work manifested is required.

17.8.1.1 A work manifested is a work embodied in a manifestation.

17.8.1.3 Record a work manifested applying the general guidelines on recording primary relationships given under 17.4. [Which are: Identifier for the Work; Authorized Access Point Representing the Work; Composite Description]

LCPS for 17.8: LC practice for Core element: For resources other than compilations, this core element is covered by the authorized access point for the work when present in a MARC bibliographic record (not possible to give this core element separately in a MARC record).

For compilations of works, give an analytical authorized access point for the predominant or first work in the compilation when it represents a substantial part of the resource. Disregard contributions such as a preface or introductory chapter. Generally, do not apply this core element to anthologies of poetry, conference proceedings, journals, collections of interviews or letters, and similar resources.

20.2.1.3 Record a contributor applying the general guidelines on recording relationships to persons, families, and corporate bodies associated with a resource given under 18.4.

18.5.1.3 Record one or more appropriate terms from the list in appendix I with an identifier and/or authorized access point representing the person, family, or corporate body to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself.

Note: the policy on how many names to include in a statement of responsibility doesn't automatically correspond to the same policy for how many authorized access points to give. You could give [and three others] in the 245 and still give four 700 fields, or you could give all in the 245 but none in 700 fields or only some in 700 fields.

Note: the across-the-board use of relationship designators is a change from AACR2.

Note: in this instance this work is named solely by its preferred title, which is also the title proper of this manifestation. Since it is a collection of articles, one could give analytical access points for them. Note however the LCPS which says to give an analytical access point for only the first work if it is predominant or a substantial part of the resource and generally not to do so for conference proceedings and similar resources.

Entry Under Corporate Body

AACR2 21.1B2

Enter a work emanating from one or more corporate bodies under the heading for the appropriate corporate body if it falls into one or more of the following categories:

- b) some legal, governmental, and religious works of the following types: laws (see 21.31); decrees of the chief executive that have the force of law (see 21.31); administrative regulations (see 21.32); constitutions (see 21.33); court rules (see 21.34); treaties, etc. (see 21.35); court decisions (see 21.36); **legislative hearings**; religious laws (e.g., canon law); liturgical works (see 21.39)

RDA 19.2.1.1.1

Corporate bodies are considered to be creators when they are responsible for originating, issuing, or causing to be issued, works that fall into one or more of the following categories:

- c) works that report the collective activity of
 - iii) an event (e.g., an exhibition, fair, festival, **hearing**)
- f) legal works of the following types [types omitted]
- g) named individual works of art by two or more artists acting as a corporate body**

OLA Annual Conference 4/25/2012

The JSC recently approved a change to add hearings as a category of event that can be considered to be a creator. Hearings were left out of category f) of rule 19.2.1.1.1 because they are not legal works. In November 2011, JSC also added a new category of creator to RDA: named individual works of art by two or more artists acting as a corporate body.

AACR2 21.1B2 21.1B2. General rule. Enter a work emanating from one or more corporate bodies under the heading for the appropriate corporate body (see 21.4B, 21.5B) if it falls into one or more of the following categories:

- a) those of an administrative nature dealing with the corporate body itself
 - or its internal policies, procedures, finances, and/or operations
 - or its officers, staff, and/or membership (e.g., directories)
 - or its resources (e.g., catalogues, inventories)
- b) some legal, governmental, and religious works of the following types: laws (see 21.31); decrees of the chief executive that have the force of law (see 21.31); administrative regulations (see 21.32); constitutions (see 21.33); court rules (see 21.34); treaties, etc. (see 21.35); court decisions (see 21.36); legislative hearings; religious laws (e.g., canon law); liturgical works (see 21.39)
- c) those that record the collective thought of the body (e.g., reports of commissions, committees, etc.; official statements of position on external policies)
- d) those that report the collective activity of a conference (e.g., proceedings, collected papers), of an expedition (e.g., results of exploration, investigation), or of an event (e.g., an exhibition, fair, festival) falling within the definition of a corporate body (see 21.1B1), provided that the conference, expedition, or event is named in the item being catalogued
- e) those that result from the collective activity of a performing group as a whole where the responsibility of the group goes beyond that of mere performance, execution, etc. Publications resulting from such activity include sound recordings, films, video recordings, and written records of performances. (For corporate bodies that function solely as performers on sound recordings, see 21.23.)
- f) cartographic materials emanating from a corporate body other than a body that is merely responsible for their publication or distribution.

19.2.1.1.1 Corporate Bodies Considered to Be Creators

Corporate bodies are considered to be creators when they are responsible for originating, issuing, or causing to be issued, works that fall into one or more of the following categories:

- a) works of an administrative nature dealing with any of the following aspects of the body itself:
 - i) its internal policies, procedures, finances, and/or operations or ii) its officers, staff, and/or membership (e.g., directories)
 - or iii) its resources (e.g., catalogues, inventories)
- b) works that record the collective thought of the body (e.g., reports of commissions, committees; official statements of position on external policies, standards)
- c) works that report the collective activity of i) a conference (e.g., proceedings, collected papers) or ii) an expedition (e.g., results of exploration, investigation) or iii) an event (e.g., an exhibition, fair, festival, hearing) falling within the definition of a corporate body (see 18.1.2) provided that the conference, expedition, or event is named in the resource being described
- d) works that result from the collective activity of a performing group as a whole where the responsibility of the group goes beyond that of mere performance, execution, etc.
- e) cartographic works originating with a corporate body other than a body that is merely responsible for their publication or distribution.
- f) legal works of the following types: i) laws of a political jurisdiction ii) decrees of a head of state, chief executive, or ruling executive body iii) bills and drafts of legislation iv) administrative regulations, etc. v) constitutions, charters, etc. vi) court rules vii) treaties, international agreements, etc. viii) charges to juries, indictments, court proceedings, and court decisions.
- g) named individual works of art by two or more artists acting as a corporate body

Compilations Lacking Collective Title

OLA Annual Conference 4/25/2012

21.7C1. If a work falling into one of the categories given in 21.7A1 lacks a collective title, enter it under the heading appropriate to the first work named in the chief source of information of the item being catalogued. If the item lacks a collective chief source of information, enter it under the heading appropriate to the first work in the item. Make added entries for editors/compiler and for the other works as instructed in 21.7B1, insofar as it applies to works without a collective title.

6.27.1.4 Compilations of Works by Different Persons, Families, or Corporate Bodies

If the compilation lacks a collective title, construct separate access points for each of the works in the compilation.

Alternative

Instead of (or in addition to) constructing access points for each of the works in the compilation, construct an authorized access point representing the compilation using a devised title formulated according to the instructions given under 2.3.2.11.

Whether to devise a title proper (see next slide) was left to LC cataloger's judgment for the RDA Test.

17.8 Work Manifested. CORE ELEMENT. If more than one work is embodied in the manifestation, only the predominant or first-named work manifested is required.

17.8.1.1 A work manifested is a work embodied in a manifestation.

17.8.1.3 Record a work manifested applying the general guidelines on recording primary relationships given under 17.4. [Which are: Identifier for the Work; Authorized Access Point Representing the Work; Composite Description]

LCPS for 17.8: *LC practice for Core element*: For resources other than compilations, this core element is covered by the authorized access point for the work when present in a MARC bibliographic record (not possible to give this core element separately in a MARC record).

For compilations of works, give an analytical authorized access point for the predominant or first work in the compilation when it represents a substantial part of the resource. Disregard contributions such as a preface or introductory chapter. Generally, do not apply this core element to anthologies of poetry, conference proceedings, journals, collections of interviews or letters, and similar resources.

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. *HOWEVER, in the situation in this slide, the MARC second indicator value of "2" indicates the relationship, so a relationship designator is not used.*

Compilations Lacking Collective Title

OLA Annual Conference 4/25/2012

21.7C1. If a work falling into one of the categories given in 21.7A1 lacks a collective title, enter it under the heading appropriate to the first work named in the chief source of information of the item being catalogued. If the item lacks a collective chief source of information, enter it under the heading appropriate to the first work in the item. Make added entries for editors/compiler and for the other works as instructed in 21.7B1, insofar as it applies to works without a collective title.

6.27.1.4 Compilations of Works by Different Persons, Families, or Corporate Bodies
 If the compilation lacks a collective title, construct separate access points for each of the works in the compilation.

Alternative

Instead of (or in addition to) constructing access points for each of the works in the compilation, construct an authorized access point representing the compilation using a devised title formulated according to the instructions given under 2.3.2.11.

Whether to devise a title proper was LC cataloger's judgment during the RDA Test.

Note: Cataloger's judgment which convention to use (and whether to use more than one) to express relationships: could be only the 505 (description) or could be only 700s (authorized access points for the works manifested) or could be both. Could also be only identifiers or identifiers along with description and/or access points (note: identifiers alone were not used during the U.S. test of RDA (LCPS for 17.4.2.2)).

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. *HOWEVER, in the situation in this slide, the MARC second indicator value of "2" indicates the relationship, so a relationship designator is not used.*

Two or More Unnumbered or Non-Consecutively Numbered Parts of a Work

AACR2 25.6B3

100 0_ \$a Homer.
240 10 \$a Iliad. \$k Selections
245 10 \$a Homer's Iliad,
books I, VI, XX, and XXIV /
\$c with a copious
vocabulary for the use of
schools and colleges, by
James Fergusson.

RDA 6.27.2.3, 17.8, 24.5.1.3

100 0_ \$a Homer, \$e author.
245 10 \$a Homer's Iliad, books I, VI,
XX, and XXIV / \$c with a copious
vocabulary for the use of schools
and colleges, by James Fergusson.
700 02 \$a Homer. \$t Iliad. \$n Book 1.
700 02 \$a Homer. \$t Iliad. \$n Book 6.
700 02 \$a Homer. \$t Iliad. \$n Book 20.
700 02 \$a Homer. \$t Iliad. \$n Book 24.

OLA Annual Conference 4/25/2012

25.6B3. If the item consists of three or more unnumbered or nonconsecutively numbered parts of, or of extracts from, a work, use the uniform title for the whole work followed by *Selections*.

6.27.2.3 Two or More Parts

When identifying two or more unnumbered or non-consecutively numbered parts of a work, construct authorized access points for each of the parts applying the instructions given under 6.27.2.2.

Alternative

When identifying two or more unnumbered or non-consecutively numbered parts of a work, treat the parts as an expression of the whole work. Construct the authorized access point representing the expression by adding *Selections* to the authorized access point representing the work as a whole (see 6.27.1 and 6.12.1.4).

LC Policy Statement 6.27.2.3: *LC practice for Alternative*: Construct the authorized access point representing the expression by adding *Selections* to the authorized access point representing the work as a whole.

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. *However in the example shown in this slide, the second indicator value of "2" already indicates the type of relationship, so no relationship designator is used.*

Two or More Unnumbered or Non-Consecutively Numbered Parts of a Work

700 02 \$a Homer. \$t Iliad. \$n Book 6.
700 02 \$a Homer. \$t Iliad. \$n Book 20.
700 02 \$a Homer. \$t Iliad. \$n Book 24.

100/240 combination fulfills the expression manifested core requirement. 700 analytical added entries for related works are optional, so are shown in italics.

25.6B3. If the item consists of three or more unnumbered or nonconsecutively numbered parts of, or of extracts from, a work, use the uniform title for the whole work followed by *Selections*.

6.27.2.3 Two or More Parts

When identifying two or more unnumbered or non-consecutively numbered parts of a work, construct authorized access points for each of the parts applying the instructions given under 6.27.2.2.

Alternative

When identifying two or more unnumbered or non-consecutively numbered parts of a work, treat the parts as an expression of the whole work. Construct the authorized access point representing the expression by adding *Selections* to the authorized access point representing the work as a whole (see 6.27.1 and 6.12.1.4).

LC Policy Statement 6.27.2.3: *LC practice for Alternative*: Construct the authorized access point representing the expression by adding *Selections* to the authorized access point representing the work as a whole.

The 700 added entries in the RDA example could be made based on the instructions for referencing related works in chapter 25.

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. *However, since the second indicator value of "2" indicates the type or relationship, a relationship designator is not used in this situation.*

17.10 Expression Manifested CORE ELEMENT Expression manifested is a core element if there is more than one expression of the work manifested. If more than one expression is embodied in the manifestation, only the predominant or first-named expression manifested is required.

17.10.1.1 An expression manifested is an expression embodied in a manifestation.

17.10.1.3 Record an expression manifested applying the general guidelines on recording primary relationships given under 17.4. [Which are: Identifier for the Expression; Authorized Access Point Representing the Expression; Composite Description]

LCPS for 17.10: *LC practice for Core element*: For resources other than compilations, this core element is covered by the authorized access point for the expression when present in a MARC bibliographic record (not possible to give this core element separately in a MARC record).

For compilations of expressions, give an analytical authorized access point for the predominant or first expression in the compilation when it represents a substantial part of the resource. Disregard contributions such as a preface or introductory chapter. Generally, do not apply this core element to anthologies of poetry, conference proceedings, journals, collections of interviews or letters, and similar resources.

New MARC Bibliographic Coding for Relationship Information

7XX fields:

\$i - Relationship information (R)

Can use designators from RDA Appendix J to explicitly name the type of relationship between WEMI

LCPS for 1.7.1: When subfield \$i for relationship designator is used, it is the first subfield, the first word is capitalized, and the subfield ends with a colon.

OLA Annual Conference 4/25/2012

\$i - Relationship information Designation of a relationship between the resource described in the 7XX field and the resource described in the 1XX/245 of the record. This may be an uncontrolled textual phrase or a controlled textual value from a list of relationships between bibliographic resources.

LCPS for 1.7.1: When subfield \$i for relationship designator is used, it is the first subfield, the first word is capitalized, and the subfield ends with a colon.

AACR2 21.28 Related Works

21.28A1. Apply this rule to a separately catalogued work (see also 1.1B9, 1.5E1a, and 1.9) that has a relationship to another work. Such works include:

- continuations and sequels; supplements; indexes;
- concordances; incidental music to dramatic works;
- cadenzas; scenarios, screenplays, etc.; choreographies;
- librettos and other texts set to music; subseries;
- special numbers of serials; collections of extracts from serials

Do not apply this rule to a work that has only a subject relationship to another work.

For particular types of relationship (e.g., adaptations, revisions, translations), see 21.8-21.27.

21.28B1. Enter a related work under its own heading (personal author, corporate body, or title) according to the appropriate rule in this chapter. Make an added entry (name-title or title, as appropriate) for the work to which it is related.

RDA 25.1.1.1 A related work is a work related to the resource being described (e.g., an adaptation, commentary, supplement, sequel, part of a larger work).

25.1.1.3 Reference a related work applying the general guidelines on referencing related works, expressions, manifestations, and items given under 24.4. [*Which are:* Identifier for the Related Work; Authorized Access Point Representing the Related Work; Description (structured or unstructured) of the Related Work]

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. If none of the terms listed in appendix J is appropriate or sufficiently specific, use a term designating the nature of the relationship as concisely as possible. When using an unstructured description, indicate the nature of the relationship as part of the unstructured description. *Note: RDA appendices are not closed lists. If a term is needed that isn't in an appendix, the cataloger can devise their own term and notify the JSC for possible inclusion in the RDA appendix. Catalogers can also use other vocabularies.*

Note: in the RDA example in the slide, the unstructured description given in the 500 note field of the AACR2 record could also be included in the RDA record, but it's probably unnecessary when the relationship designator has been used with the authorized access point for the related work.

LCPS for 1.7.1. When subfield \$i for relationship designator is used, it is the first subfield, the first word is capitalized, and the subfield ends with a colon.

Related Expressions

AACR2 21.14A, 21.30G, 25.5C1

RDA 26.1, 24.5 & Appendix I-J

245 10 \$a Chosen by God : \$b Pedro Arrupe's retreat notes, 1965 / \$c translated with an introduction by Joseph A. Munitiz, **\$J** ; edited by Philip Endean, **\$J** and Elizabeth Lock.

700 1_ \$i Translation of: \$a Arrupe, Pedro, \$d 1907-1991. \$t Aquí me tienes, Señor.

700 1_ \$a Munitiz, Joseph A., \$d 1931- \$e translator, \$e editor.

OLA Annual Conference 4/25/2012

21.14A. Enter a translation under the heading appropriate to the original. Make an added entry under the heading for the translator if appropriate under the provisions of 21.30K1.

21.30K1. Translators. If the main entry is under the heading for a person, make an added entry under the heading for a translator if: a) the translation is in verse *or* b) the translation is important in its own right *or* c) the work has been translated into the same language more than once *or* d) the wording of the chief source of information of the item being catalogued implies that the translator is the author *or* e) the main entry heading may be difficult for catalogue users to find (e.g., as with many oriental and medieval works).

25.5C1. If the linguistic content of the item being catalogued is different from that of the original (e.g., a translation, a dubbed motion picture), add the name of the language of the item to the uniform title. Precede the language by a full stop.

21.30G1. Make an added entry under the heading for a work to which the work being catalogued is closely related (see 21.8-21.28 for guidance in specific cases). *NOTE however that in AACR2 for a translation we wouldn't normally make an added entry for the original language expression of the work. 21.14A says nothing about making that kind of added entry.*

21.28B1. Enter a related work under its own heading (personal author, corporate body, or title) according to the appropriate rule in this chapter. Make an added entry (name-title or title, as appropriate) for the work to which it is related.

26.1.1.1 A related expression is an expression related to the expression represented by an identifier, an authorized access point, or a description (e.g., a revised version, a translation).

26.1.1.3 Reference a related expression applying the general guidelines on referencing related works, expressions, manifestations, and items given under 24.4. [*Which are:* Identifier for the Related Work; Authorized Access Point Representing the Related Work; Description (structured or unstructured) of the Related Work]

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. If none of the terms listed in appendix J is appropriate or sufficiently specific, use a term designating the nature of the relationship as concisely as possible. When using an unstructured description, indicate the nature of the relationship as part of the unstructured description. *Note: RDA appendices are not closed lists. If a term is needed that isn't in an appendix, the cataloger can devise their own term and notify the JSC for possible inclusion in the RDA appendix. Catalogers can also use other vocabularies.*

LCPS for 1.7.1. When subfield \$i for relationship designator is used, it is the first subfield, the first word is capitalized, and the subfield ends with a colon.

Note: An added entry for the translator most likely would not be made in AACR2 (21.30K1), but an access point would probably be recorded in RDA (20.2). I.3.1 defines the relationship designator "editor" to include the author of an introduction: **editor** A person, family, or corporate body contributing to an expression of a work by revising or elucidating the content, e.g., adding an introduction, notes, or other critical matter. An editor may also prepare an expression of a work for production, publication, or distribution. For major revisions, adaptations, etc., that substantially change the nature and content of the original work, resulting in a new work, see *author*, I.2.1.

Personal Name Headings – Fictitious Persons

AACR2 21.4C1

100 1_ \$a Beard, Henry.

greatest lessons / \$c by
Kermit the Frog.

In RDA, fictitious entities and real non-human entities can receive access points as creators and contributors. Here are two well known examples of fictitious (and non-human) entities.

AACR2 21.4C. Works erroneously or fictitiously attributed to a person or corporate body
If responsibility for a work is known to be erroneously or fictitiously attributed to a person, enter under the actual personal author or under title if the actual personal author is not known. Make an added entry under the heading for the person to whom the authorship is attributed, unless he or she is not a real person.

The hums of Pooh / by Winnie the Pooh
(Written by A.A. Milne)

Main entry under the heading for Milne

The adventure of the peerless peer / by John H. Watson ; edited by Philip

José Farmer

(Written by Farmer as if by the fictitious Dr. Watson)

Main entry under the heading for Farmer

RDA 9.0. Persons include fictitious entities.

LCPS for 9.0: *LC/NACO practice*: Apply this chapter to fictitious entities and real non-human entities having roles as creators or contributors. To avoid changes in LCSH during the RDA Test, LC testers and non-LC testers who are NACO participants should create name authority records for such entities and tell the Policy and Standards Division (PSD) when there is a counterpart heading in LCSH; PSD will compile a list of subject headings for possible deletion, once a decision is made regarding implementation of RDA.

Note: There doesn't appear to be a better designator in RDA for Beard's role than "author." In reality, he is the author of the book, but he is presented on the resource as the person who collaborated with Miss Piggy in some unclear way. [The *Free Online Dictionary* defines "as-told-to" as: Written by a professional author based on conversations with the subject.]

Personal Name Headings – Real Non-Human Entities

AACR2

245 00 \$a Dear Socks, dear
Buddy : \$b kids' letters to
the first pets / \$c [compiled,
with a foreword, by] Hillary
Rodham Clinton.

700 1_ \$a Clinton, Hillary
Rodham.

RDA 9.0, 19.2, 18.5

245 00 \$a Dear Socks, dear
Buddy : \$b kids' letters to
the first pets / \$c [compiled,
with a foreword, by] Hillary
Rodham Clinton.

700 0_ \$a Socks \$c
(Presidential pet), \$d 1989-
2009, \$e addressee.

700 0_ \$a Buddy, \$d 1997-
2002, \$e addressee.

700 1_ \$a Clinton, Hillary
Rodham, \$e editor of
compilation.

In RDA, fictitious entities and real non-human entities can receive access points as creators and contributors. Here's an example of real non-human entities. In AACR2 neither Socks nor Buddy could be established as name headings, but in RDA they are treated as individuals who can be given access points if appropriate.

Note the definition of person in the RDA Glossary: **Person:** An individual or an identity established by an individual (either alone or in collaboration with one or more other individuals). This definition does not require that an individual be a human.

LCPS for 9.0: *LC/NACO practice:* Apply this chapter to fictitious entities and real non-human entities having roles as creators or contributors. To avoid changes in LCSH during the RDA Test, LC testers and non-LC testers who are NACO participants should create name authority records for such entities and tell the Policy and Standards Division (PSD) when there is a counterpart heading in LCSH; PSD will compile a list of subject headings for possible deletion, once a decision is made regarding implementation of RDA.

Note about the two headings:

The name "Socks" was judged to not convey the idea of a person. For a person whose name consists of a phrase or appellation not conveying the idea of a person, profession or occupation (9.16) or field of activity (9.15) are core elements and are added to the name of the person (9.19.1.2e). Order of preference is profession or occupation followed by field of activity. After some discussion with catalogers at my institution and with Judy Kuhagen at LC, I used the qualifier (Presidential pet) as a field of activity. Other possibilities were "Pet cat", "Presidential cat", "White House cat", "Clinton family pet", etc. The choice is left to cataloger judgment.

With Buddy the dog, we do have a name that conveys the idea of a person (albeit a canine person), so neither profession/occupation nor field of activity are needed or required. His dates serve to differentiate him from other persons known as Buddy.

Personal Name Headings – Pseudonyms

AACR2 22.2B

AACR2 22.2B3 says that if a person is a contemporary and uses more than one name, including at least one pseudonym, establish as many headings as there are names. For non-contemporaries, 22.2B2 specifies the same, provided the cataloger can identify "separate bibliographic identities"; otherwise, non-contemporaries have one heading.

RDA 9.2.2.8

If an individual has more than one identity, choose the name associated with each identity as the preferred name for that identity. Consider an individual who uses one or more pseudonyms, or his or her real name as well as one or more pseudonyms, to have more than one identity.

OLA Annual Conference 4/25/2012

RDA does not have the restriction that AACR2 has on non-contemporaries having to have separate bibliographic identities in order for there to be authorized access points for each identity.

LCRI 22.2B: Consider all living authors and any author who has died since December 31, 1900, to be contemporary. In case of doubt, do not consider the person a contemporary.

Personal Name Headings – Titles or Terms Associated with Surnames

AACR2 22.15C, 22.19B

Do not add other titles or terms associated with names entered under surname unless they are required to distinguish between two or more persons with the same name and neither dates nor fuller forms of name are available (see 22.19B).

100 1_ \$a Williams, Hank, \$d 1949-

Usage: Hank Williams, Jr.

RDA 9.2.2.9.5

Treat *Filho*, *Junior*, *Neto*, *Netto*, or *Sobrinho* following a Portuguese surname as part of the surname.

Record similar terms (e.g., *Jr.*, *Sr.*, *filis*, *père*) and numbers (e.g., *III*) occurring in languages other than Portuguese following the person's forename or forenames, preceded by a comma.

100 1_ \$a Williams, Hank, **\$c Jr.**, \$d 1949-

OLA Annual Conference 4/25/2012

There are quite a few other changes that I do not have time to cover. But the next slides illustrate some significant changes in the formulation of access points.

Because Hank Williams, Jr.'s birth date is available, in AACR2 the term "Jr." is not included in his heading. In RDA, terms indicating relationship such as "Jr." are treated as part of the preferred name.

Personal Name Headings – Dates

AACR2 22.17A

Smith, John, 1924-
 Smith, John, 1900 Jan. 10-
 Smith, John, 1836 or 7-1896
 Smith, John, ca. 1837-1896
 Smith, John, 1837-ca. 1896
 Smith, John, ca. 1837-ca.
 1896
 Smith, John, b. 1825

 Smith, John, d. 1859

RDA 9.3.2.3, 9.3.3.3, 9.19.1.3

Smith, John, 1924-
 Smith, John, 1900 **January** 10-
 Smith, John, 1836 or **1837**-1896
 Smith, John, **approximately** 1837-1896
 Smith, John, 1837-**approximately** 1896
 Smith, John, **approximately** 1837-
approximately 1896
 Smith, John, **born** 1825
LC practice: Smith, John, **1825-**
 Smith, John, **died** 1859
LC practice: Smith, John, **-1859**

OLA Annual Conference 4/25/2012

RDA Appendix B does not contain any abbreviations for months. Other terms associated with dates that are abbreviated in AACR (b., d., fl., cent.) are spelled out if used in RDA records because abbreviations should not be used. “ca.” is replaced by “approximately”.

9.3.2.3 If the person was born in the same year as another person with the same name, record the date of birth in the form [year] [month] [day]. Record the month in the language and script preferred by the agency creating the data.

LC Policy Statement 9.3.2.3: *LC practice:* Use a hyphen after date of birth; do not use the term “born” with the date.

LC Policy Statement 9.3.3.3: *LC practice:* Use a hyphen before the date of death; do not use the term “died” with the date.

Note: the various dates associated with a person (birth, death, period of activity) are *separate* elements in RDA. But because they all map to MARC X00 subfield \$d, something extra (e.g., “born”, “died”, or a hyphen between, before, or after) is needed when encoding those RDA elements in access points to give the dates meaning. So the last two examples in this slide are not pure RDA, they are “RDA in MARC.”

Personal Name Headings – Dates

AACR2 22.17A

RDA 9.3.4.3, 9.19.1.3

Johnson, Carl F., fl. 1893-1940	Johnson, Carl F., flourished 1893-1940
	LC practice: Johnson, Carl F., active 1893-1940
Joannes, Diaconus, 12th cent.	Joannes, Diaconus, 12th century
Joannes, Actuarius, 13th/ 14th cent.	Joannes, Actuarius, 13th/14th century
Lin, Li, jin shi 1152	Lin, Li, jin shi 1152

OLA Annual Conference 4/25/2012

RDA Appendix B does not contain any abbreviations for months. Other terms associated with dates that are abbreviated in AACR (b., d., fl., cent.) are spelled out if used in RDA records because abbreviations should not be used. “ca.” is replaced by “approximately”.

9.3.4.3 If the person’s date of birth and date of death are both unknown, record a date or range of dates indicative of the person’s period of activity applying the basic instructions on recording dates associated with persons given under 9.3.1.

In AACR2, flourished dates are not used for dates within the twentieth century. There is no such limitation on recording years of activity in RDA.

LC Policy Statement 9.3.4.3: *LC practice:* Use “active” and “century” rather than the abbreviations “fl.” and “cent.”

Note: the various dates associated with a person (birth, death, period of activity) are *separate* elements in RDA. But because they all map to MARC X00 subfield \$d, something extra (e.g., “born”, “died”, or a hyphen between, before, or after) is needed when encoding those RDA elements in access points to give the dates meaning. So the first example in this slide is not pure RDA, it is “RDA in MARC.”

Brown, George (*Flutist*)

22.19A1. If neither a fuller form of name nor dates are available to distinguish between identical headings of which the entry element is a given name, etc., devise a suitable brief term and add it in parentheses.

22.19B1. If neither a fuller form of name nor dates are available to distinguish between identical headings of which the entry element is a surname, add a qualifier (e.g., term of honour, term of address, title of position or office, initials of an academic degree, initials denoting membership in an organization) that appears with the name in works by the person or in reference sources. Add the qualifier after the last element of the name.

In RDA 9.19.1.2, titles or other designations added to names are limited to:

- a) a title of royalty (see 9.4.1.4) or nobility (see 9.4.1.5)
- b) the term Saint (see 9.6.1.4)
- c) title of religious rank (see 9.4.1.6-9.4.1.8)
- d) the term Spirit (see 9.6.1.5)
- e) a term indicating profession or occupation (see 9.16) or field of activity of the person (see 9.15), in that order of preference, for a person whose name consists of a phrase or appellation not conveying the idea of a person.

9.19.1.6 If none of the elements specified under 9.19.1.3 (date of birth and/or death), 9.19.1.4 (fuller form of name), or 9.19.1.5 (period of activity of the person) is available to distinguish one access point from another, add a term indicating the profession or occupation of the person (see 9.16).

9.19.1.1 If no suitable addition is available, use the same access point for all persons with the same name, and use an undifferentiated name indicator (see 8.11) to designate the name as one that is undifferentiated.

Note: There are no restrictions on using profession as an addition to access points in RDA, which means there will be fewer undifferentiated names than in AACR2.

Note: The parenthetical addition to the access point is encoded in X00 subfield \$c.

Note: F.I.P.S. in the AACR2 example stands for Fellow of the Incorporated Phonographic Society. That George Brown authored several shorthand manuals.

Note: The original release of RDA (9.19.1.7) also allowed the addition of Field of Activity to distinguish one access point from another. However at the November 2011 meeting of the Joint Steering Committee, the JSC approved a proposal to remove Field of Activity as a possible addition to access points. This change will be reflected in a future RDA update.

OLA Annual Conference 4/25/2012

4:23 PM 2/5/2011

Personal name authority record created during the RDA test. Profession added to the name to differentiate him from others with the same name.

When including a parenthetical addition to a personal name access point, the first word in the parentheses is always capitalized (RDA A.2.4). Not every addition in \$c in AACR2 headings was capitalized (see the flutist example on the previous slide).

Family Names

RDA chapter 10 provides general guidelines and instructions on choosing and recording preferred and variant names for families, and on recording other identifying attributes of families. It also provides guidelines on using the preferred name for a family in conjunction with other identifying attributes to construct the authorized access point representing that family, and using variant names to construct variant access points.

OLA Annual Conference 4/25/2012

Family Names

Elements include:

- Preferred name (10.2.2)

- Variant name (10.2.3)

- Type of family (10.3)

- Date associated with family (10.4)

- Place associated with family (10.5)

- Prominent member of family (10.6)

Some new MARC authority fields can be used to record some of these attributes:

- 370 - Associated Place

- 376 - Family Information

OLA Annual Conference 4/25/2012

We'll see examples of the new MARC fields later on.

Family Name Access Points

10.10.1.1

When constructing an authorized access point to represent a family, use the preferred name for the family (see 10.2.2) as the basis for the authorized access point.

Make additions to the name as instructed under 10.10.1.2-10.10.1.5, in that order, as applicable.

10.10.1.2 Type of Family (included in MARC X00 \$a)

10.10.1.3 Date Associated with the Family (X00 \$d)

10.10.1.4 Place Associated with the Family (X00 \$c)

10.10.1.5 Prominent Member of the Family (X00 \$g)

OLA Annual Conference 4/25/2012

Family Name Access Points

100 3_ \$a Branson (Family)
100 3_ \$a Donald (Clan)
100 3_ \$a Bourbon (Royal house)
100 3_ \$a Nguyễn (Dynasty : \$d 1558-1775)
100 3_ \$a Nguyễn (Dynasty : \$d 1802-1945)
100 3_ \$a James (Family : \$c Jamestown, Wash.)
100 3_ \$a James (Family : \$c Summerton, S.C.)
100 3_ \$a Peale (Family : \$g Peale, Charles Willson, 1741-1827)
100 3_ \$a Peale (Family : \$g Peale, Norman Vincent, 1898-1993)
100 3_ \$a Nayak (Dynasty : \$d 1529-1739 : \$c Madurai, India)

OLA Annual Conference 4/25/2012

Important to note: while RDA provides for the creation and use of descriptive access points for family names, the Library of Congress current policy is that RDA family name access points will not be used as subjects. Instead, a family name heading from LCSH must be used. See slide 57 for an example of a name authority record for a family showing that the access point may not be used as an LC subject heading.

LCPS 10.0: *LC practice:* Apply this chapter for distinctive family entities; continue the current subject cataloging policy for general family groupings. Separate authority records will exist in the LC/NACO Authority File and LCSH.

RDA family name authority records are being coded with the following:

008/11 Subject heading system/thesaurus code: n [Not applicable]

008/15 Heading use code--subject added entry: b [Heading not appropriate as subject added entry]

667 SUBJECT USAGE: This heading is not valid for use as a subject; use a family name heading from LCSH.

RDA Family Names *Not* Used as Subjects

LCPS 10.0: *LC practice*: Apply this chapter for distinctive family entities; continue the current subject cataloging policy for general family groupings. Separate authority records will exist in the LC/NACO Authority File and LCSH.

RDA family name authority records in LC/NACO AF are coded:

008/11 Subject heading system/thesaurus code: “n” [Not applicable]

008/15 Heading use code—subject added entry: “b” [Not appropriate]

667 SUBJECT USAGE: This heading is not valid for use as a subject; use a family name heading from LCSH.

OLA Annual Conference 4/25/2012

Important to note: while RDA provides for the creation and use of descriptive access points for family names, the Library of Congress current policy is that RDA family name access points will not be used as subjects. Instead, a family name heading from LCSH must be used. See slides for field 376 in the authority section of this presentation for examples of name authority records for a family showing that the access point may not be used as an LC subject heading.

LCPS 10.0: *LC practice*: Apply this chapter for distinctive family entities; continue the current subject cataloging policy for general family groupings. Separate authority records will exist in the LC/NACO Authority File and LCSH.

RDA family name authority records are being coded with the following:

008/11 Subject heading system/thesaurus code: n [Not applicable]

008/15 Heading use code--subject added entry: b [Heading not appropriate as subject added entry]

667 SUBJECT USAGE: This heading is not valid for use as a subject; use a family name heading from LCSH.

Corporate Names

OLA Annual Conference 4/25/2012

The only significant changes from AACR2 to RDA for corporate names have to do with the preferred names and access points for conferences, congresses, exhibitions, fairs, festivals, etc.

Conferences, Congresses, Fairs, Festivals, etc.

Only a single instruction for preferred name of all of these entities in RDA (11.2.2.11) and for additions to the name (11.13.1.8), resulting in the following changes:

- Frequency included in preferred name of conferences, congresses, etc.
- Year of convocation omitted from preferred name of exhibitions, fairs, festivals, etc.
- Year of convocation added in qualifier in authorized access points for exhibitions, fairs, festivals, etc. (11.13.1.8)
- Location added in qualifier in authorized access points even if it is also in the preferred name (11.13.1.8)

In RDA there is one instruction for conferences, congresses, meetings, exhibitions, fairs, festivals, etc. (11.2.2.11). This results in the following changes to AACR2: frequency will be retained in the preferred name of a conference, congress, meeting, etc. (24.7A1). Year of convocation will be omitted from the preferred name of exhibitions, fairs, festivals, etc. (24.8A1), but will be included as an addition to the authorized access point. Location will be included as an addition to the authorized access point even if the location is part of the preferred name of the body (24.7B4, 24.8B1).

24.7A1. Omit from the name of a conference, etc. (including that of a conference entered subordinately, see 24.13), indications of its number, *frequency*, or year(s) of convocation.

24.7B4. If the location is part of the name of the conference, etc., do not repeat it.

24.8B1. As instructed in 24.7B, add to the name of an exhibition, fair, festival, etc., its number, date, and location. Do not add the date and/or location if they are integral parts of the name.

11.2.2.11 Omit from the name of a conference, congress, meeting, exhibition, fair, festival, etc., (including that of a conference, etc., treated as a subordinate body, see 11.2.2.14), indications of its number, or year or years of convocation, etc.

11.13.1.8 Add to the name of a conference, etc. (including that of a conference recorded subordinately, see 11.2.2.14), if applicable and readily ascertainable (in this order): a) the number of the conference, etc. (see 11.6) b) the date of the conference, etc. (see 11.4.2) c) the location of the conference, etc. (see 11.3.2)

Conferences, Congresses, Fairs, Festivals, etc.

OLA Annual Conference 4/25/2012

In RDA there is one instruction for conferences, congresses, meetings, exhibitions, fairs, festivals, etc. (11.2.2.11). This results in the following changes to AACR2: frequency will be retained in the preferred name of a conference, congress, meeting, etc. (24.7A1). Year of convocation will be omitted from the preferred name of exhibitions, fairs, festivals, etc. (24.8A1), but will be included as an addition to the authorized access point. Location will be included as an addition to the authorized access point even if the location is part of the preferred name of the body (24.7B4, 24.8B1).

24.7A1. Omit from the name of a conference, etc. (including that of a conference entered subordinately, see 24.13), indications of its number, *frequency*, or year(s) of convocation.

24.7B4. If the location is part of the name of the conference, etc., do not repeat it.

24.8B1. As instructed in 24.7B, add to the name of an exhibition, fair, festival, etc., its number, date, and location. Do not add the date and/or location if they are integral parts of the name.

11.2.2.11 Omit from the name of a conference, congress, meeting, exhibition, fair, festival, etc., (including that of a conference, etc., treated as a subordinate body, see 11.2.2.14), indications of its number, or year or years of convocation, etc.

Conferences, etc.: Multiple Locations

Change from AACR2: add all locations to qualifier; separate each by semicolon.

AACR2 24.7B4

Symposium on Breeding and
Machine Harvesting of
Rubus and Ribes (1976 : East
Malling, England, and
Dundee, Scotland)

Conference on the Appalachian
Frontier (1985 : James
Madison University and
Mary Baldwin College)

Danish-Swedish Analysis
Seminar (1995 :
Copenhagen, Denmark, etc.)

RDA 11.3.2, 11.13.1.8

Symposium on Breeding and
Machine Harvesting of
Rubus and Ribes (1976 : East
Malling, England; Dundee,
Scotland)

Conference on the Appalachian
Frontier (1985 : James
Madison University; Mary
Baldwin College)

Danish-Swedish Analysis
Seminar (1995 :
Copenhagen, Denmark;
Lund, Sweden; Paris, France)

OLA Annual Conference 4/25/2012

24.7B4. If the sessions of a conference, etc., were held in two locations, add both names.

World Peace Congress (1st : 1949 : *Paris, France, and Prague, Czechoslovakia*)

Institute on Diagnostic Problems in Mental Retardation (1957 : *Long Beach State College and San Francisco State College*)

If the sessions of a conference, etc., were held in three or more locations, add the first named place followed by *etc.*

International Conference on Alternatives to War (1982 : *San Francisco, Calif., etc.*)

11.13.1.8 If the sessions of a conference, etc., were held in two or more locations, add each of the place names.

When included in an access point, multiple locations will be separated by a semicolon (RDA E.1.2.4).

E.1.2.4 Enclose the number, date, and location of a conference, etc., in parentheses. Separate the number, date, and location by a space, colon, space. Separate multiple locations by a semicolon.

Enclose the number, date, and location of an exhibition, etc., in parentheses.

Separate the number, date, and location by a space, colon, space. Separate multiple locations by a semicolon.

Named Conferences

AACR2 21.1B1, LCRI 21.1B1

RDA 11.2, 11.7

LCRI 21.1B1: the phrase must include a word that connotes a meeting: "symposium," "conference," "workshop," "colloquium," etc.

11.7.1.4 If the preferred name for the body does not convey the idea of a corporate body, record a suitable designation in the language preferred by the agency creating the data.

Authorized access points in RDA that are not valid headings in AACR2:

Freedom & Faith (Conference) (1984 : Saint Charles, Ill.)

Digital Library Futures: User Perspectives and Institutional Strategies (Conference) (2009 : Milan, Italy)

First Impressions: the Cultural History of Print in Imperial China (8th-14th Centuries) (Conference) (2007 : Fairbank Center for East Asian Research)

OLA Annual Conference 4/25/2012

AACR2 21.1B1. A corporate body is an organization or a group of persons that is identified by a particular name and that acts, or may act, as an entity. Consider a corporate body to have a name if the words referring to it are a specific appellation rather than a general description. Consider a body to have a name if, in a script and language using capital letters for proper names, the initial letters of the words referring to it are consistently capitalized, and/or if, in a language using articles, the words are always associated with a definite article. Typical examples of corporate bodies are associations, institutions, business firms, nonprofit enterprises, governments, government agencies, projects and programmes, religious bodies, local church groups identified by the name of the church, and conferences. Conferences are meetings of individuals or representatives of various bodies for the purpose of discussing and/or acting on topics of common interest, or meetings of representatives of a corporate body that constitute its legislative or governing body.

LCRI 21.1B1. When determining whether a conference has a name, cases arise that exhibit conflicting evidence insofar as two of the criteria in the definition of a corporate body are concerned: capitalization and the definite article. When the phrase is in a language that normally capitalizes each word of a name, even in running text, consider a capitalized phrase a name even if it is preceded by an indefinite article. (This statement cannot apply to other languages.)

Another important point to bear in mind when deciding whether a phrase is a name is that the phrase must include a word that connotes a meeting: "symposium," "conference," "workshop," "colloquium," etc. Note: Some notable sequential conferences that lack such a term are exceptionally considered to be named, e.g., Darmstädter Gespräch. In addition, phrases that combine acronyms or initialisms with the abbreviated or full form of the year are also considered to be named.

RDA 11.2.1.1 A name of the corporate body is a word, character, or group of words and/or characters by which a corporate body is known.

11.2.2.1 The preferred name for the corporate body is the name or form of name chosen as the basis for the authorized access point representing that body.

11.7.1.1 Other designation associated with the corporate body is a word, phrase, or abbreviation indicating incorporation or legal status of a corporate body, or any term serving to differentiate the body from other corporate bodies, persons, etc.

11.7.1.4 If the preferred name for the body does not convey the idea of a corporate body, record a suitable designation in the language preferred by the agency creating the data.

LCRI 21.1B1 was not carried over into the LC Policy Statements. Therefore a conference in RDA does not have to have a word denoting a meeting in its preferred name. However, a qualifier will need to be added to names of conferences that do not convey the idea of a conference.

Uniform Titles

AACR2 25.5C1

100 1_ \$a Blackstone, Stella.
 240 10 \$a Bear in a square. \$l
 French & English
 245 10 \$a Bear in a square =
 \$b L'ours dans le carré / \$c
 Stella Blackstone ;
 [illustrations by] Debbie
 Harter ; [translation by
 Servane Champion].
 246 31 \$a Ours dans le carré

RDA 6.11.1.4, 17.10, 24.5.1.3

100 1_ \$a Blackstone, Stella, *\$e*
author.
 245 10 \$a Bear in a square = \$b
 L'ours dans le carré / \$c Stella
 Blackstone ; [illustrations by]
 Debbie Harter ; translation by
 Servane Champion.
 246 31 \$a Ours dans le carré
700 12 \$a Blackstone, Stella. \$t
Bear in a square. \$l English.
700 12 \$a Blackstone, Stella. \$t
Bear in a square. \$l French.

*Only predominant or first-named expression manifested is required.
 Second 700 is optional, so it is shown in italics.*

25.5C1. If the linguistic content of the item being catalogued is different from that of the original (e.g., a translation, a dubbed motion picture), add the name of the language of the item to the uniform title. Precede the language by a full stop.

Do not add the name of the language to a uniform title for a motion picture with subtitles.

If an item is in two languages, name both. If one of the languages is the original language, name it second.

Otherwise, name the languages in the following order: English, French, German, Spanish, Russian, other languages in alphabetic order of their names in English. If an item is in three or more languages, use *Polyglot* unless the original work is in three or more languages (e.g., a multilateral treaty), in which case give all the languages in the order specified above.

In RDA if a single expression of a work involves more than one language, record each of the languages (RDA 6.11.1.4). RDA does not include the limitation in AACR2 on motion pictures with subtitles.

17.10 Expression Manifested

Expression manifested is a core element if there is more than one expression of the work manifested. If more than one expression is embodied in the manifestation, only the predominant or first-named expression manifested is required.

LCPS for 17.10: *LC practice for Core element*: For resources other than compilations, this core element is covered by the authorized access point for the expression when present in a MARC bibliographic record (not possible to give this core element separately in a MARC record).

For compilations of expressions, give an analytical authorized access point for the predominant or first expression in the compilation when it represents a substantial part of the resource. Disregard contributions such as a preface or introductory chapter. Generally, do not apply this core element to anthologies of poetry, conference proceedings, journals, collections of interviews or letters, and similar resources.

Note: Only the first 700 in the example is required. It would be cataloger's judgment as to which to give if only giving one (although RDA says that it would be either the "predominant or first-named expression"). Not giving access to the French translation in the example above would probably be a disservice to users, however. Giving the language of the original expression is not something that U.S. libraries have done for AACR2 (e.g., LC only gives the language of expression for a translation). This policy will need to be reconsidered if RDA is implemented in the U.S.

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. However, since the second indicator "2" specifies the nature of the relationship, the designator is not used in the example in this slide.

Uniform Titles

AACR2 25.5C1

700 02 \$a Euripides. \$t Bacchae. \$l
Latin.
700 02 \$a Euripides. \$t Bacchae. \$l
Italian.

*Only predominant or first-named expression manifested is required.
 Second and third 700s are optional, so they are shown in italics.*

25.5C1. If the linguistic content of the item being catalogued is different from that of the original (e.g., a translation, a dubbed motion picture), add the name of the language of the item to the uniform title. Precede the language by a full stop.

Do not add the name of the language to a uniform title for a motion picture with subtitles.

If an item is in two languages, name both. If one of the languages is the original language, name it second.

Otherwise, name the languages in the following order: English, French, German, Spanish, Russian, other languages in alphabetic order of their names in English. If an item is in three or more languages, use *Polyglot* unless the original work is in three or more languages (e.g., a multilateral treaty), in which case give all the languages in the order specified above.

In RDA if a single expression of a work involves more than one language, record each of the languages (RDA 6.11.1.4). RDA does not include the limitation in AACR2 on motion pictures with subtitles.

17.10 Expression Manifested

Expression manifested is a core element if there is more than one expression of the work manifested. If more than one expression is embodied in the manifestation, only the predominant or first-named expression manifested is required.

LCPS for 17.10: *LC practice for Core element*: For resources other than compilations, this core element is covered by the authorized access point for the expression when present in a MARC bibliographic record (not possible to give this core element separately in a MARC record). For compilations of expressions, give an analytical authorized access point for the predominant or first expression in the compilation when it represents a substantial part of the resource. Disregard contributions such as a preface or introductory chapter. Generally, do not apply this core element to anthologies of poetry, conference proceedings, journals, collections of interviews or letters, and similar resources.

Note: Only the first 700 in the example is required. But it would probably be a disservice to users to provide an access point for one of the language expressions and not the others.

24.5.1.3 Record an appropriate term from the list in appendix J to indicate the nature of the relationship more specifically than is indicated by the defined scope of the relationship element itself. *However, the second indicator value "2" in this example already indicates the type of relationship, so a designator is not used.*

LCPS for 6.11.1.3. Greek. *LC practice*: For the MARC language code list forms "Attic Greek," "Greek, Ancient (to 1453)," and "Greek, Modern (1453-)," use "Greek." However, if the item is a translation from one specific Greek form into another Greek form, or contains text in two specific forms, use the specific form(s) within parentheses following "Greek." In specifying the form of the Greek, use one of the following terms: "Greek (Ancient Greek)" for the period before 300 B.C.; "Greek (Hellenistic Greek)" for the period 300 B.C.-A.D. 600; "Greek (Biblical Greek)" for the Septuagint and the New Testament; "Greek (Medieval Greek)" for the period 600-1453; "Greek (Modern Greek)" for the period 1453-

505 Contents note
and/or
700 12 Analytical access point(s)

Only predominant or first-named work manifested is required. This could be given either in a description (contents note) or as an analytical access point, or both.

25.9A. Use the collective title *Selections* for items consisting of three or more works in various forms, or in one form if the person created works in one form only, and for items consisting of extracts, etc., from the works of one person. For musical works, see also 25.34B-25.34C.

6.2.2.10 Record the preferred title for a compilation of works applying the instructions given under 6.2.2.10.1-6.2.2.10.3, as applicable.

6.2.2.10.1 Record the conventional collective title *Works* as the preferred title for a compilation of works that consists of, or purports to be, the complete works of a person, family, or corporate body, including those that are complete at the time of publication.

6.2.2.10.2 Record one of the following conventional collective titles as the preferred title for a compilation of works (other than music, see 6.14.2.8) that consists of, or purports to be, the complete works of a person, family, or corporate body, in one particular form.

Correspondence; Essays; Novels; Plays; Poems; Prose works; Short stories; Speeches

If none of the above is appropriate, record an appropriate specific collective title (e.g., *Posters, Fragments, Encyclicals*).

If the compilation consists of two or more but not all the works of one person, family, or corporate body in a particular form, apply the instructions given under 6.2.2.10.3.

6.2.2.10.3 For a compilation consisting of:

a) two or more but not all the works of one person, family, or corporate body, in a particular form

or b) two or more but not all the works of one person, family, or corporate body, in various forms

record the preferred title for each of the works in the compilation applying the basic instructions on recording titles of works given under 6.2.1.

Alternative

Instead of (or in addition to) recording the preferred title for each of the works in the compilation, record a conventional collective title as instructed under 6.2.2.10.1 or 6.2.2.10.2, as applicable, followed by *Selections*.

LCPS for 6.2.2.10.3: *LC practice for Alternative*: Instead of recording the preferred title for each of the works in the compilation, record a conventional collective title followed by "Selections." Give an authorized access point for the first or predominant work (RDA 17.8) or expression (RDA 17.10).

LCPS for 6.27.3: Conventional Collective Titles Beginning with "Works." *LC practice/PCC practice*: Routinely add the date of expression to the authorized access point using a conventional collective title that begins with "Works" as the preferred title.

17.8 Work Manifested

If more than one work is embodied in the manifestation, only the predominant or first-named work manifested is required.

Note: Since more than one work is in this manifestation, the cataloger has to record a work manifested by either (1) an identifier, (2) authorized access point, and/or (3) description. So in the RDA example, either a 505 contents note would be included or at minimum an access point for the predominant or first-named work manifested.

Works Accepted as Sacred Scripture

AACR2 25.17A

Use as the uniform title for a sacred scripture (see 21.37) the title by which it is most commonly identified in English-language reference sources dealing with the religious group(s) to which the scripture belongs. If no such source is available, use general reference sources.

Avesta
Bible
Koran
Talmud
Tripiṭaka

RDA 6.23.2.5

Choose as the preferred title for a sacred scripture the title by which it is most commonly identified in reference sources in the language preferred by the agency creating the data that deal with the religious group or groups to which the scripture belongs. If no such source is available, use general reference sources.

Avesta
Bible
Holy Piby
Kitāb al-aqdas
Qur'an
Talmud
Tripiṭaka

OLA Annual Conference 4/25/2012

Additional examples have been added to show the preferred title of a sacred scripture. The preferred title used for the Koran is changed in RDA to a different transliterated form: **Qur'an**.

25.17A. Use as the uniform title for a sacred scripture (see 21.37) the title by which it is most commonly identified in English-language reference sources dealing with the religious group(s) to which the scripture belongs. If no such source is available, use general reference sources.

6.23.2.5 Choose as the preferred title for a sacred scripture the title by which it is most commonly identified in reference sources in the language preferred by the agency creating the data that deal with the religious group or groups to which the scripture belongs. If no such source is available, use general reference sources.

Works Accepted as Sacred Scripture

AACR2 21.37A

Enter a work that is accepted as sacred scripture by a religious group, or part of such a work, under title.

RDA 6.30.1.2

For a work that is accepted as sacred scripture by a religious group, construct the authorized access point representing the work using the preferred title for the work.

Exception: works attributed to a single person

Bahá'u'lláh, 1817-1892. Kitāb al-aqdas

Hubbard, L. Ron (La Fayette Ron), 1911-1986. Introduction to Scientology Ethics

Moon, Sun Myung. Wöllli haesöl

OLA Annual Conference 4/25/2012

21.37A. Enter a work that is accepted as sacred scripture by a religious group, or part of such a work, under title. When appropriate, use a uniform title as instructed in 25.17-25.18. Make an added entry under the heading for one, two, or three persons associated with the work and/or the item being catalogued. If there are four or more such persons, do not make added entries.

6.30.1.2 For a work that is accepted as sacred scripture by a religious group, construct the authorized access point representing the work using the preferred title for the work, formulated according to the instructions given under 6.23.2.

Book of Mormon

Qur'an

Ādi-Granth

Exception

If reference sources dealing with the religious group to which the sacred work belongs (e.g., works of the Baha'i Faith) attribute a work accepted as sacred scripture to a single person, construct the authorized access point representing the work by combining (in this order):

a) the authorized access point representing the person responsible for creating the work, formulated according to the instructions given under 9.19.1

b) the preferred title for the work, formulated according to the instructions given under 6.23.2

Bahá'u'lláh, 1817-1892. Kitāb al-aqdas

 Bible. \$p Ezra
 Bible. \$p Revelation
 Bible. \$p Corinthians, 1st
 Bible. \$p Genesis, XI, 26-XX, 18
 Bible. \$p Pentateuch
 Bible. \$p Gospels
 Bible. \$p Apocrypha

In RDA, individual books and groups of books of the Bible are recorded as a subdivision of Bible, rather than as a subdivision of O.T. or N.T.

OLA Annual Conference 4/25/2012

25.18A1. General rule

Enter a Testament as a subheading of *Bible*. Enter a book of the Catholic or Protestant canon as a subheading of the appropriate Testament.

25.18A2. Testaments

Enter the Old Testament as **Bible. O.T.** and the New Testament as **Bible. N.T.**

6.23.2.9.1 For the Old Testament, record *Old Testament* as a subdivision of the preferred title for the Bible.

For the New Testament, record *New Testament* as a subdivision of the preferred title for the Bible.

6.23.2.9.2 For books of the Catholic or Protestant canon, record the brief citation form of the Authorized Version as a subdivision of the preferred title for the Bible. If the book is one of a numbered sequence of the same name, record its number after the name as an ordinal numeral. Use a comma to separate the name and the number.

If the resource being described is part of a book (other than a single selection known by its title), add the chapter (in roman numerals) and verse (in arabic numerals). Use inclusive numbering if appropriate. Use commas to separate the name of the book, the number of the chapter, and the number of the verse or verses.

6.23.2.9.3 For the following groups of books, record the name given below as a subdivision of the preferred title for the Bible. ...

Versions (Expressions) of the Bible

OLA Annual Conference 4/25/2012

25.18A11. Version

Give a brief form of the name of the version following the name of the language. If the item is in three or more languages, do not add the name of the version.

Bible. *Latin. Vulgate . . .*

Bible. *N.T. Corinthians. English. Authorized . . .*

If the version is identified by the name of the translator, use a short form of the translator's name. If there are two translators, hyphenate their names. If there are more than two, give the name of the first followed by *et al.*

Bible. *English. Lamsa . . .*

Bible. *O.T. Anglo-Saxon. Ælfric . . .*

Bible. *English. Smith-Goodspeed . . .*

6.25.1.4 Record a brief form of the name of the version. If the resource is in three or more languages, do not record the version.

If the version is identified by the name of the translator, use a short form of the translator's name. If there are two translators, hyphenate their names. If there are more than two, use the name of the first followed by *and others*.

Besides the difference between how books of the Bible are named, the only other main difference is the way more than two translators are named: see last two examples in this slide.

OLA Annual Conference 4/25/2012

There are few changes from AACR2 to RDA for series access points. Follow RDA chapter 6 instructions for determining the authorized access point for a series. Abbreviations are no longer used when recording numbering in the series statement (490 \$v) unless they are found on the resource itself. However, for the series access point (which is a relationship of one work to another in RDA), abbreviations for numbering are still used (24.6.1.3/B.5.5) . Numbering expressed as words is turned into numerals (24.6.1.3/1.8.3).

24.6 Numbering of Part

24.6.1.1 Numbering of part is a designation of the sequencing of a part or parts within a larger work.

Numbering of part may include a numeral, a letter, any other character, or the combination of these, with or without an accompanying caption (volume, number, etc.) and/or a chronological designation.

24.6.1.2 Take information on numbering of parts from any source.

24.6.1.3 Record the numbering of a part or parts as it appears on the source of information. Apply the general guidelines on numbers expressed as numerals or as words given under 1.8. Abbreviate terms used as part of the numbering as instructed in Appendix B (B.5.5).

B.5.5 Numbering of Part

Use abbreviations prescribed in B.7-B.10 for terms used as part of the numbering of a part (see 24.6).

NOTE: There is a relationship designator in Appendix J for the whole-part work relationships "in series (work)". In MARC 21 records, since the 800-830 tags are defined as series added entry, the relationship is already encoded and no designator is needed.

OLA Annual Conference 4/25/2012

These two examples do illustrate some changes from AACR2. The first example illustrates that agencies may keep roman numerals in that form (1.8.2, first alternative). The second example shows that the word “series” is not found in Appendix B in RDA and thus may not be abbreviated in the numbering of the series.

1.8.2 Form of Numerals

Record numerals in the form preferred by the agency creating the data, unless the substitution would make the numbering less clear.

The basic instruction above would allow an agency to change a roman numeral into an arabic numeral. There are two alternatives to the basic instruction:

Alternatives

- 1) Record numerals in the form in which they appear on the source of information.
- 2) Record the numerals in the form in which they appear on the source. Add the equivalent numerals in the form preferred by the agency creating the data, indicating that the information was taken from a source outside the resource itself as instructed under 2.2.4.

The LCPS for 1.8.2 says to apply the first alternative.

Authority Records

Identifying RDA Authority Records

In MARC 21 authority records:

- 040 \$e with value ***rda***
- 008/10 (Rules) coded ***z*** for Other
- in existing AACR2 records, during the testing period, the RDA form of a heading was recorded in a 7XX linking field with the second indicator value of “4” (= Source not specified)

OLA Annual Conference 4/25/2012

In 7XX linking field with the RDA form the second indicator “4” (Source not specified) was used because other forms (e.g., from the South African name authority file and French-language forms of headings for Canadian bodies from the Library and Archives Canada authority file) also are found in 7XX linking fields in some authority records.

LC and the Program for Cooperative Cataloging will, if RDA is to be implemented, consider if some existing AACR2 forms are RDA-compatible. The 7XX fields added to AACR2 records will just not be automatically “flipped” without consideration of the categories of differences between AACR2 and pure RDA forms. Additional RDA elements could be recorded separately in the newly created MARC fields for those elements without having to be added to the authorized AACR2 access point. Stayed tuned for further news from LC and PCC.

RDA Authorized Access Point

AACR2

Example of an existing AACR2 record in which the RDA form was recorded in a 7XX linking field.

7XX - Heading Linking Entries

Second Indicator – Thesaurus

4 - Source not specified

Heading conforms to a controlled list that cannot be specified by another second indicator value or by an identifying MARC code in subfield \$2.

Note the change in practice from AACR2/LCRI as seen in the 710 linking entry: in RDA we will not be abbreviating the word Department in authorized access points (unless the corporate body itself uses an abbreviation in its preferred name).

RDA 0.6.3 Section 2: Recording Attributes of Work and Expression

If the preferred title for a work is the same as or similar to a title for a different work, or to a name for a person, family, or corporate body, record as many of the additional identifying elements listed below as necessary to differentiate them.

Record the elements either as additions to the access point representing the work, as separate elements, or as both.

...

Record as many of the additional identifying elements listed below as necessary to differentiate one expression of a work from another. ***Record the elements either as additions to the access point representing the expression, as separate elements, or as both.***

RDA 0.6.4 Section 3: Recording Attributes of Person, Family, and Corporate Body

If the preferred name for the person, family, or corporate body is the same as or similar to a name by which another person, family, or corporate body is known, record as many of the additional identifying elements listed below as necessary to differentiate them. ***Record the elements either as additions to the authorized access point representing the person, family, or corporate body, as separate elements, or as both.***

OLA Annual Conference 4/25/2012

Two important instructions from chapter 0 of RDA, having to do with recording additional elements needed to differentiate works and expressions with the same or similar titles, and persons, families, and corporate bodies with the same or similar name. RDA does not require that elements which are core elements because they are needed to differentiate entities from each other be recorded as separate elements. Including such elements as additions to the authorized access point satisfies the core requirement in RDA because of 0.6.3 and 0.6.4 instructions.

LCPS for 0.6.3: *LC practice*: When identifying (1) a musical work with a title that is not distinctive or (2) recording an element to differentiate one work or expression from another work or expression or from a name for a person, family, or corporate body, always add the element to the access point.

LCPS for 0.6.4: *LC practice*: When recording an element to differentiate one person, family, or corporate body from another person, family, or corporate body with the same or a similar name, always add the element to the access point.

In the following slides, the separate element is shown in authority records simply to show the possible use of the new MARC fields for the element, but note that including these separate elements is optional, because the required elements are always included in the authorized access point per LCPS's for 0.6.3 and 0.6.4.

Because Field of Activity is no longer an element that can be added to an access point, 0.6.4 will need to be revised a bit so that it is clear that it may only be recorded as a separate element.

New MARC 21 Authority Fields

046 – Special Coded Dates (R)

RDA 6.4 Date of Work CORE ELEMENT WHEN NEEDED TO DIFFERENTIATE

6.10 Date of Expression CORE ELEMENT WHEN NEEDED TO DIFFERENTIATE

9.3 Date Associated with the Person CORE ELEMENT

10.4 Date Associated with the Family CORE ELEMENT

11.4 Date Associated with the Corporate Body CORE ELEMENT

\$f - Birth date (NR)
\$g - Death date (NR)
\$k - Beginning or single date created (NR)
\$l - Ending date created (NR)
\$s - Start period (NR)
\$t - End period (NR)
\$u - Uniform Resource Identifier (R)
\$v - Source of information (R)
\$2 - Source of date scheme (NR)
\$6 - Linkage (NR)
\$8 - Field link and sequence number (R)

6.4 Date of work is a core element *when needed to differentiate a work from another work with the same title or from the name of a person, family, or corporate body.*

6.10 Date of expression is a core element *when needed to differentiate an expression of a work from another expression of the same work.*

IMPORTANT TO NOTE:

0.6.3 and 0.6.4: *recording elements needed to differentiate one entity from another them in the access point is sufficient to satisfy the core requirements for those elements. Thus 046 and other separate MARC fields are basically optional, but including them in authority records may enable future use and manipulation by machines.*

LCPS for 0.6.3: *LC practice:* When identifying (1) a musical work with a title that is not distinctive or (2) recording an element to differentiate one work or expression from another work or expression or from a name for a person, family, or corporate body, always add the element to the access point.

cartographic three-dimensional form	sounds	tactile text	

OLA Annual Conference 4/25/2012

Note: this is the same element that was discussed in part 1 for use in bibliographic records. It can also be used in name authority records for expressions.

336 – Content Type

The form of communication through which a work is expressed. Field 336 information enables expression of content types from various lists when the authority is for a title or name/title.

Multiple content types from the same source vocabulary or code list may be recorded in the same field in separate occurrences of subfield \$a (Content type term) and subfield \$b (Content type code). Terms from different source vocabularies are recorded in separate occurrences of the field.

OTHER IDENTIFYING ATTRIBUTES OF EXPRESSIONS

6.9 Content Type CORE ELEMENT

6.9.1.3 Record the type of content contained in the resource using one or more of the terms listed in table 6.1. Record as many terms as are applicable to the resource being described.

Alternative

If the resource being described consists of more than one content type, record only

a) the content type that applies to the predominant part of the resource (if there is a predominant part)

or

b) the content types that apply to the most substantial parts of the resource (including the predominant part, if there is one)

using one or more of the terms listed in table 6.1, as appropriate.

An authority record for a Spanish expression of Orson Scott Card's graphic novel Ultimate Iron Man.

Note: one 336 with repeatable subfield \$a's could also have been recorded instead of two separate 336 fields.

New MARC 21 Authority Fields

368 – Other Corporate Body Attributes (R)

RDA 11.7 Other Designation Associated with the Corporate

Body CORE ELEMENT FOR BODY WITH NAME NOT CONVEYING IDEA
OF A CORPORATE BODY; CORE ELEMENT WHEN NEEDED TO DIFFERENTIATE

\$a - Type of corporate body (R)

\$b - Type of jurisdiction (R)

\$c - Other designation (R)

110 2_ \$a Red Hot Chili Peppers (Musical group)

368 \$a Musical group

151 \$a Cork (Ireland : County)

368 \$b County

111 2_ \$a World Cup (Soccer)

368 \$c Soccer

110 2_ \$a Indiana (Battleship : BB-50)

368 \$a Battleship \$c BB-50

368 - Other Corporate Body Attributes (R)

A word, phrase, or abbreviation indicating incorporation or legal status of a corporate body, or any term serving to differentiate the body from other corporate bodies, persons, etc.

RDA 11.7 Other Designation Associated with the Corporate Body

CORE ELEMENT Other designation associated with the corporate body is a core element for a body with a name that does not convey the idea of a corporate body. For other corporate bodies, a designation is a core element when needed to distinguish a corporate body from another corporate body with the same name.

11.7.1.1 Scope. Other designation associated with the corporate body is a word, phrase, or abbreviation indicating incorporation or legal status of a corporate body, or any term serving to differentiate the body from other corporate bodies, persons, etc.

11.7.1.4 Names Not Conveying the Idea of a Corporate Body

If the preferred name for the body does not convey the idea of a corporate body, record a suitable designation in the language preferred by the agency creating the data.

11.7.1.5 Type of Jurisdiction

For a government other than a city or a town, record the type of jurisdiction in the language preferred by the agency creating the data. If there is no equivalent term for the type of jurisdiction in the language preferred by the agency, or in case of doubt, record it in the official language of the jurisdiction.

If the type of jurisdiction does not provide a satisfactory distinction, record an appropriate word or phrase designation as instructed under 11.7.1.6.

If two or more governments lay claim to jurisdiction over the same area (e.g., as with occupying powers and insurgent governments), record suitable designations to distinguish one from the other, as appropriate, as instructed under 11.7.1.6.

11.7.1.6 Other Designation

If neither a place nor date associated with the body, nor an associated institution, nor a type of jurisdiction, is sufficient or appropriate for distinguishing between two or more bodies, record an appropriate designation in the language preferred by the agency creating the data.

\$8 - Field link and sequence number (R)

OLA Annual Conference 4/25/2012

6.5 Place of origin of the work is a core element *when needed to differentiate a work from another work with the same title or from the name of a person, family, or corporate body.*

10.5 A place associated with the family is a core element *when needed to distinguish a family from another family with the same name.*

11.3 Place associated with the corporate body is a *core element for conferences, etc.* (see 11.3.2). For other corporate bodies, place associated with the corporate body is a *core element when needed to distinguish a corporate body from another corporate body with the same name.*

0.6.3: If place of origin of work is needed to differentiate one work from another, record the element either as an additions to the access point representing the work, as a separate element, or as both. Although the separate element can be recorded in the authority record, *recording it in the access point is sufficient to satisfy core requirements.* LCPS for 0.6.3: *LC practice:* When identifying (1) a musical work with a title that is not distinctive or (2) recording an element to differentiate one work or expression from another work or expression or from a name for a person, family, or corporate body, always add the element to the access point.

0.6.4: If the place associated with the family or place associated with the corporate body is recorded, record the elements either as additions to the authorized access point representing the person, family, or corporate body, as separate elements, or as both. Although the separate element can be recorded in authority records, *recording it in the access point is sufficient to satisfy core requirements.*

LCPS for 0.6.4: *LC practice:* When recording an element to differentiate one person, family, or corporate body from another person, family, or corporate body with the same or a similar name, always add the element to the access point.

Note the form in which a place is recorded: RDA 16.2.2.4: If the place name is being used to record the location of a conference, etc., (see 11.3.2), the location of the headquarters, etc., of a corporate body (see 11.3.3), the place of origin of a work (see 6.5), or a place associated with a person (see 9.8–9.11), family (see 10.5), or corporate body (see 11.3), precede the name of the larger place by a comma.

Budapest, Hungary

Place name recorded as the location of the corporate body with the preferred name: Rumbach

Utcai Zsinagóga

Appendix B.11: Use the abbreviations in table B.1 for the names of certain countries and of the names of states, provinces, territories, etc., of Australia, Canada, and the United States when the names are recorded:

a) as part of the name of a place located in that state, province, territory, etc. (see 16.2.2.9) or other jurisdiction (see 16.2.2.11)

b) as the name or part of the name of a place associated with a person (see 9.8–9.11) family (see 10.5), or corporate body (see 11.3).

[What's missing from this instruction is that the same thing applies to places of origin of the work]

OLA Annual Conference 4/25/2012

9.12.1.1 Address of the person is the address of a person's place of residence, business, or employer and/or an e-mail or Internet address.

11.9.1.1 Address of the corporate body is the address of a corporate body's headquarters or offices, or an e-mail or Internet address for the body.

MARC Format Information:

An address (as well as electronic access information such as email, telephone, fax, TTY, etc. numbers) associated with the entity described in the record. Multiple addresses, such as mailing addresses and addresses corresponding to the physical location of an item or facilities, are recorded in separate occurrences of field 371.

For a person: the address of a person's place of residence, business, or employer and/or an e-mail or Internet address.

For a corporate body: the address of the corporate body's headquarters or offices, or an e-mail or Internet address for the body.

Distinction between field 371 (Address) and field 370 (Associated place): Field 370 (Associated place) includes information about places associated with a person or a corporate body at the level of the country, the town, etc. Field 371 (Address) contains information relating to the location of a person or a corporate body, at which they can be found or reached (e.g., printed mail address, e-mail address, etc.).

New MARC 21 Authority Fields

372 – Field of Activity (R)

RDA 9.15 Field of Activity of the Person CORE ELEMENT WHEN NAME DOESN'T CONVEY IDEA OF A PERSON AND WHEN NEEDED TO DIFFERENTIATE

11.10 Field of Activity of the Corporate Body

\$a - Field of activity (R)	\$0 - Record control number (R)
\$s - Start period (NR)	\$2 - Source of term (NR)
\$t - End period (NR)	\$6 - Linkage (NR)
\$u - Uniform Resource Identifier (R)	\$8 - Field link and sequence number (R)
\$v - Source of information (R)	

374 – Occupation (R)

RDA 9.16 Profession or Occupation of the Person CORE ELEMENT WHEN NAME DOESN'T CONVEY IDEA OF A PERSON AND WHEN NEEDED TO DIFFERENTIATE

\$a – Occupation (R)	\$0 - Record control number (R)
\$s - Start period (NR)	\$2 - Source of term (NR)
\$t - End period (NR)	\$6 - Linkage (NR)
\$u - Uniform Resource Identifier (R)	\$8 - Field link and sequence number (R)
\$v - Source of information (R)	

9.15 Field of activity of the person is a core element for a person whose name consists of a phrase or appellation not conveying the idea of a person. For other persons, field of activity is a core element when needed to distinguish a person from another person with the same name.

9.15.1.1 Field of activity of the person is a field of endeavour, area of expertise, etc., in which a person is engaged or was engaged.

9.16 Profession or occupation is a core element for a person whose name consists of a phrase or appellation not conveying the idea of a person. For other persons, profession or occupation is a core element when needed to distinguish a person from another person with the same name.

9.16.1.3 Profession or occupation is a profession or occupation in which a person works or has worked.

11.10.1.1 Field of activity of the corporate body is a field of business in which a corporate body is engaged, its area of competence, responsibility, jurisdiction, etc.

0.6.4 Section 3: Recording Attributes of Person, Family, and Corporate Body

If the preferred name for the person, family, or corporate body is the same as or similar to a name by which another person, family, or corporate body is known, record as many of the additional identifying elements listed below as necessary to differentiate them. **Record the elements either as additions to the authorized access point representing the person, family, or corporate body, as separate elements, or as both.** [Emphasis added by me]

- Fuller form of name
- Profession or occupation
- Field of activity of the person
- Place associated with the family
- Prominent member of the family
- Location of headquarters, etc.
- Associated institution
- Other designation associated with the corporate body

LCPS for 0.6.4: *LC practice*: When recording an element to differentiate one person, family, or corporate body from another person, family, or corporate body with the same or a similar name, always add the element to the access point.

NOTE: Since the JSC approved a proposal to eliminate Field of activity as a possible addition to an access point representing a person, 0.6.4 will need a revision as well.

OLA Annual Conference 4/25/2012

9.13.1.1 An affiliation is a group with which a person is affiliated or has been affiliated through employment, membership, cultural identity, etc.

MARC 373: The field is repeated if the person has multiple affiliations for different time periods.

Note: MARC Proposal No. 2011-05 broadened the definition of field 373 to include not only the affiliation for a person but also any institution associated with the entity described. The revision was approved by MARBI and the name of the field was changed from Affiliation to Associated Group. The field was redefined as “Information about a group, institution, association, etc., that is associated with the entity in the 1XX. This can also be a group with which a person is or has been affiliated, including dates of affiliation.” The field is repeated if the person has multiple affiliations for different time periods.

11.5 Associated institution is a core element for conferences, etc., if the institution’s name provides better identification than the local place name or if the local place name is unknown or cannot be readily determined. Associated institution is a core element for other corporate bodies if the institution’s name provides better identification than the local place name or if the local place name is unknown or cannot be readily determined, and it is needed to distinguish the corporate body from another corporate body with the same name

9.7.1.1 Gender is the gender with which a person identifies.

9.7.1.3 Record the gender of the person using an appropriate term from the list below.

female

male

not known

If none of the terms listed is appropriate or sufficiently specific, record an appropriate term or phrase.

EXAMPLE

intersex

transsexual woman

9.5 Fuller Form of Name

CORE ELEMENT

A fuller form of name is a core element when needed to distinguish a person from another person with the same name.

9.5.1.1 Scope. A fuller form of name is the full form of a part of a name represented only by an initial or abbreviation in the form chosen as the preferred name, or a part of the name not included in the form chosen as the preferred name.

9.5.1.3 Recording Fuller Forms of Names

If a fuller form of a person's name is known and if the preferred name as prescribed by the instructions given under 9.2.2 does not include all of that fuller form, record, as appropriate:

a) the fuller form of all the inverted part of the name (forenames, etc.)

and/or

b) the fuller form of the part of the name recorded as the first element of the name (surname, etc.).

OLA Annual Conference 4/25/2012

6.3. Form of work is a core element *when needed to differentiate a work from another work with the same title or from the name of a person, family, or corporate body.*

6.3.1.1. Form of work is a class or genre to which a work belongs.

6.6. Other distinguishing characteristic of the work is a core element *when needed to differentiate a work from another work with the same title or from the name of a person, family, or corporate body.*

6.6.1.1. Other distinguishing characteristic of the work is a characteristic other than form of work, date of work, or place of origin of the work that serves to differentiate a work from another work with the same title or from the name of a person, family, or corporate body.

Geological Survey (South Africa) Issuing body of a work titled *Bulletin*. There are other works with title *Bulletin*.
Philadelphia Museum of Art Owner of a Jan van Eyck painting titled *Saint Francis receiving the stigmata*. There are other Van Eyck paintings with same title.

Douglas Surname of the director of a 1965 motion picture titled *Harlow*. There is another film produced in 1965 with the same title.

0.6.3 Section 2: Recording Attributes of Work and Expression

If the preferred title for a work is the same as or similar to a title for a different work, or to a name for a person, family, or corporate body, record as many of the additional identifying elements listed below as necessary to differentiate them. Record the elements ***either as additions to the access point representing the work, as separate elements, or as both.*** [Emphasis added by me]

Form of work; Date of work; Place of origin of work; Other distinguishing characteristic of the work

NOTE: although these separate elements can be recorded in both bibliographic or authority records, *recording them as additions to the access point is sufficient to satisfy the core requirements.*

LCPS for 0.6.3: *LC practice:* When identifying (1) a musical work with a title that is not distinctive or (2) recording an element to differentiate one work or expression from another work or expression or from a name for a person, family, or corporate body, always add the element to the access point.

New MARC 21 Authority Fields

382 – Medium of Performance(R)

RDA 6.15 Medium of Performance

\$a - Medium of performance (R)

383 – Numeric Designation of a Musical Work (R)

RDA 6.16 Numeric Designation of a Musical Work

\$a - Serial number (R)

\$b - Opus number (R)

\$c - Thematic index number (R)

\$d - Thematic index code (NR)

\$e - Publisher associated with serial or opus number (NR)

384 – Key (NR) First indicator

RDA 6.17 Key Key type

\$a - Key (NR) # - Relationship to original unknown
0 - Original key
1 - Transposed key

OLA Annual Conference 4/25/2012

6.15 Medium of performance is a core element when needed to differentiate a musical work from another work with the same title. It may also be a core element when identifying a musical work with a title that is not distinctive.

6.15.1.1 Medium of performance is instrument, instruments, voice, voices, etc., for which a musical work was originally conceived.

6.16 Numeric designation is a core element when needed to differentiate a musical work from another work with the same title. It may also be a core element when identifying a musical work with a title that is not distinctive.

6.16.1.1 A numeric designation of a musical work is a serial number, opus number, or thematic index number assigned to a musical work by a composer, publisher, or a musicologist.

6.17 Key is a core element when needed to differentiate a musical work from another work with the same title. It may also be a core element when identifying a musical work with a title that is not distinctive.

6.17.1.1 Key is the set of pitch relationships that establishes the tonal centre, or principal tonal centre, of a musical work. Key is designated by its pitch name and its mode, when it is major or minor.

0.6.3 Section 2: Recording Attributes of Work and Expression

When identifying a musical work with a title that is not distinctive, record as many of the following elements as are applicable. For musical works with distinctive titles, record as many of the following elements as necessary to differentiate the work from others with the same title. ***Record the elements either as additions to the access point representing the work, as separate elements, or as both.*** [Emphasis added by me]

Medium of performance

Numeric designation of a musical work

Key

LCPS for 0.6.3: *LC practice*: When identifying (1) a musical work with a title that is not distinctive or (2) recording an element to differentiate one work or expression from another work or expression or from a name for a person, family, or corporate body, always add the element to the access point.

In June 2011, MARC Proposal No. 2011-09 to define two new subfields in field 383 was approved:

\$d – Thematic index code (NR) - Code identifying thematic index represented by number recorded in \$c

\$e - Publisher associated with serial or opus number (NR) - Brief identification of publisher associated

Medium of performance, numeric designation, and key recorded to distinguish one work by Telemann with the collective title Sonatas from others with the same title. The separately recorded elements are optional, since including as additions to the access point satisfies the core requirements.

New MARC Authority Coding for Relationship Information

4XX and 5XX fields:

\$i - Relationship information (R)

Can use designators from RDA Appendices J-K

\$w - Control Subfield (NR)

/0 - Special relationship

i - Reference instruction phrase in subfield \$i

r - Relationship designation in \$i or \$4

LCPS for 1.7.1: When subfield \$i for relationship designator is used, it is the first subfield, the first word is capitalized, and the subfield ends with a colon.

OLA Annual Conference 4/25/2012

\$i - Relationship information Subfield may contain either a *designation of a relationship* of the entity in a 4XX or 5XX field to the 1XX entity in the record or it may contain a textual *reference instruction phrase* that is to be used for a user display indicating the relationship of the 1XX entity in the record to the entity in a 4XX or 5XX field. If the subfield contains a Relationship designation, the appropriate reference instruction phrase may be derived from it. The relationship may be name to name (if only names of persons, families, or corporate bodies are involved) or resource to resource (if name/titles or titles are involved).

Relationship designation: When a tracing field contains a relationship designation in subfield \$i, control subfield \$w/0 contains code r (Relationship designation in subfield \$i or \$4). Code r indicates that the generation of a tag related reference instruction phrase in a cross reference display should be suppressed. The content of subfield \$i or \$4 should be used to generate the reference instruction phrase that is used in a cross reference display.

LCPS for 1.7.1: When subfield \$i for relationship designator is used, it is the first subfield, the first word is capitalized, and the subfield ends with a colon.

678	1	The Fountain Green Branch of the Church of Jesus Christ of Latter-day Saints was established with the founding of the community of Fountain Green, Utah in 1859. In July 1877 the branch became the Fountain Green Ward. Robert L. Johnson (1819-1901) served as the first branch and ward bishop, from 1861 to 1884.

OLA Annual Conference 4/25/2012

One final example that shows the relationship of a parent to a subordinate corporate body, which we've not expressed in AACR2 authority records.

LCPS for 1.7.1: When subfield \$i for relationship designator is used, it is the first subfield, the first word is capitalized, and the subfield ends with a colon.

Earlier/Later Relationships

AACR2

110 2_ \$a Brigham Young
University

410 2_ \$a BYU

510 2_ \$a Brigham Young
Academy \$w a

\$w - Control subfield
/0 - Special relationship
a - Earlier heading

RDA

110 2_ \$a Brigham Young
University

410 2_ \$a BYU

510 2_ \$i **Predecessor**: \$a Brigham
Young Academy \$w r

\$w - Control subfield
/0 - Special relationship
r - Relationship designation
in \$i or \$4

OLA Annual Conference 4/25/2012

There could be a difference in the way earlier/later relationships are recorded in RDA authority records from the way we do them in AACR2. Instead of a codes a (earlier heading) and b (later heading) in subfield \$w, one could use code r (relationship designation in \$i or \$4) and then give a relationship designator from RDA Appendix K (or another suitable term if needed) in subfield \$i. Appendix K.4.3 provides a number of designators that can be used for relationships between corporate bodies:

K.4.3 Relationship Designators to Relate Corporate Bodies to Other Corporate Bodies
Record an appropriate term from the list below with the authorized access point or identifier for a related corporate body (see 32.1). Apply the general guidelines on using relationship designators given under K.1.

hierarchical subordinate A corporate body that is subordinate to the other corporate body.
hierarchical superior A corporate body that is hierarchically superior to the other corporate body.

mergee A corporate body that merged with the other corporate body to form a third.

predecessor A corporate body that precedes the other corporate body.

product of a merger A corporate body that resulted from a merger of two or more other corporate bodies.

product of a split A corporate body that resulted from a split or division of the other corporate body.

successor A corporate body that succeeds or follows the other corporate body.

LCPS for 1.7.1 says: When subfield \$i for relationship designator is used, it is the first subfield, the first word is capitalized, and the subfield ends with a colon.

HOWEVER: LC practice for the Test (LCPS for 32.1.1.3) said to continue to use codes “a” and “b” in subfield \$w for earlier/later corporate body relationships. If LC/PCC implements RDA, we’ll need a consistent policy here.

Questions??
