<b>SSH</b>	1 hour	33 minutes
<b>RDP</b>	3 hours	27 minutes

## ASIA

**14** MINUTES ON AVERAGE TO FIRST ATTACK

<b>WEB</b>	3 hours	15 minutes
<b>EMAIL</b>	9 hours	36 minutes
<b>SSH</b>	1 hour	48 minutes
<b>RDP</b>	1 hour	9 minutes

*This map demonstrates how quickly cybercriminals seek out attack vectors within your systems. Within 24 hours of exposure to the Internet, it is likely that your systems have already been scanned and selected for further investigation by cybercrime groups. Mitigate your risk for attack by applying security best practices that include continuous monitoring of your networks and systems.*
