

Name _____

Date _____

Neuron Review Test

Instructions: Match the items in column A with the corresponding items in column B. Write the matching letter in the space provided in column A.

Column A

1. Junction between two neurons_____
2. A type of cell in the nervous system_____
3. Groups of ribosomes used for protein synthesis_____
4. It contains chromosomes_____
5. Membrane bound structure that plays a role in packaging peptides and proteins into vesicles_____
6. It produces ribosomes_____
7. Neurons communicate with each other through this type of process_____
8. Important for energy production within cells_____
9. Neurons contain these chemicals_____
10. Ribosomes are not found in this part of a neuron_____

Column B

- a. Nissl bodies
- b. Neuron
- c. Axon
- d. Nucleus
- e. Mitochondria
- f. Nucleolus
- g. Neurotransmitters
- h. Golgi apparatus
- i. Synapse
- j. Electrochemical
