Bibliography of Academic Writings, updated December 12, 2007

Included here are my writings of all kinds that have some relevance to academic research, teaching or related pursuits. The list is arranged in reverse chronological order by year, starting with work which is forthcoming or in press (that is, reasonably certain to appear in the foreseeable future) and then moving from most recent to earliest work. I have coded each item number to indicate the nature of the publication; works in hard copy print are interspersed with those in electronic form. Where possible I provide links to electronic versions of the work; over time more of the hard-copy publications will be added in electronic form. The abbreviations for the type of publication are:

- B1 Singly authored or edited book.
- B2 Co-authored, co-edited book; book to which I made significant editorial contributions.
- A1 Scholarly article or occasional paper.
- A2 General interest article (e.g., web essay, encyclopedia article); edited or translated article.
- AE Edited or translated article.
- R Book review.
- RA Review article.
- SC Short communication, review notice, editorial, obituary.
