 Freud's instinct theory of, 477
 gender differences in, 478–479
 honor, cultures of, 479–480
 hostility in, 485–487
 instrumental and hostile types of, 476
 learning of, 481–483
 media violence and, 492–496
 provocation of, 30, 483–484
 theories of, 476–478
 thoughts and scripts of, 484–485
 types of, 475–476
 violence in media and, 492–496
 Alcohol, aggression and, 491–492
 Altruism, 445
 AmeriCorps, 464
 Analytic thinking, 120
 Anchoring and adjustment heuristic, 130
 Anger
 physical properties of, 73
 recognition of, 73–74
 Anger management, 508–510
 Applied research, 11
 Approach-approach conflict, 52–53
 Approach-avoidance conflict, 52–53
 Approach goals, 171
 Arousal
 causes of, 321–322
 as factor in aggressive behaviors, 488–489
 role in cognitive dissonance, 231–237
 Asch's holistic model, 106–109, 110
 Aspiration, levels of, 51–53

Assimilation effects, 92–94
 Associationism, 36
 Assortative mating, 414–415
 Attachment style, 421–423
 Attitude/attitudes. See also Cognitive
 dissonance theory; Prejudice;
 Self-perception theory
 ambivalence of, 202–203
 arousal in, 231–237
 behavior-based, 210
 biased assimilation effects on, 211–215
 as bidimensional, 202–203
 cognitive consequences of, 211–213
 components of, 196–197
 defined, 195–196
 heritability of, 210–211
 influencing/predicting behaviors, 215–219
 measuring, 197–202
 mere exposure effect of, 206–207
 planned behavior theory of, 220–221
 reasoned action theory of, 219–221
 self-perception of, 157–158
 theories of forming, 203–210
 Attitude change/persuasion
 Asch's model of, 252–253
 audience characteristics and, 249–251
 cognitive response theory of, 259–268
 dual process model of, 261–268
 framing health-promoting behaviors with,
 268–272
 incentives for, 241–242
 message characteristics and, 246–248
 model of acquisition of, 240–241
 perceptual/cognitive models of, 252–259
 personal involvement/personal relevance
 and, 255
 resistance to, 257–259
 social judgment theory of, 253–257
 source credibility in, 243–246
 studies and research on, 242–251
 Attributions process
 actor-observer effect in, 122–123
 correspondence bias in, 116–125
 correspondent inference theory of, 114–116
 cultural differences in, 120–121
 dispositional vs. situational, 111–112
 factors influencing, 112
 individual differences affecting, 121–122
 Kelley's covariation model of, 112–114
 self-serving bias in, 122–123, 167
 stereotypes influencing, 374
 theories of, 112–116
 Augmenting principle, 115–116

Authority, obedience to, 306–313
 Autokinetic effect, 282
 Availability heuristic, 126–127
 Averaging model, 104–105
 Avoidance-avoidance conflict, 52–53
 Avoidance goals, 171

B

Bargaining, in social dilemmas, 344–349
 Base-rate fallacy, 126
 Behavior. See also Attitude
 attitude changes for healthy, 268–272
 behavioral confirmation process of, 95–98
 control/resisting temptation in, 176–177
 factors affecting attributions of, 115–116
 Freud's psychoanalytic theory of, 59–60
 motivational models of, 53–57
 as purposive, 43–44
 sociocultural models of, 57–58
 Behavioral confirmation effects, 95–98
 Behavioral mimicry, 276
 Behaviorism
 assumptions of, 37–41, 42
 dissenting theories and, 42, 43–53
 Behaviors
 cognitive processes in, 85–95
 nonverbal, 75–85
 Beliefs
 in judgment/decision making, 138–139
 role in attitudes, 196–197
 Benevolent sexism, 377–378
 Better-than-most effect, 162–163
*Black, White, and Jewish: Autobiography of a
 Shifting Self* (Walker), 144
 Black sheep effect, 364–365
 Bottom-up processing, 85
 Boundary conditions, 229
 Brainstorming, 325, 328–329
Brown v. Board of Education, 387, 388
 Bullying, 496–497
 Bystander effect, 459

C

Capital punishment, 503–504
 Categorization, 118
 Catharsis hypothesis, 505–506

Cathexis, 60
 Causal attributions, 110–112
 Central route to attitude change, 261–263
 Central traits, 107–109
Challenger, 7
 Choice, as factor in attributions process, 114–115
 Classical conditioning, 39, 204–206
 Cocktail-party effect, 164
 Cognitive behaviorism, 43–45
 Cognitive dissonance
 arousal and, 231–237
 boundary conditions of, 229
 reducing, 222–223
 research and studies of, 223–229
 theories of, 222–223, 235–237
 Cognitive heuristics, 126–130
 Cognitive misers, 125
 Cognitive processing, schemas in, 85–95, 87–92
 Cognitive response theory, 259–268
 Collectivism, 57–58, 467
The Color Purple (Walker), 144
Columbia, 7
 Columbine High School, 201, 496–497
 Commission on National and Community Service Trust Act, 464
 Commitment, 300–301, 303–304, 419–420
 Commons dilemma, 337
 Communal relationships, 431
 Companionate love, 416
 Compliance, social influence of, 296–306
 Confederate, 28
 Conflict
 approach-approach conflict in, 52–53
 approach-avoidance conflict in, 52–53
 avoidance-avoidance conflict in, 52–53
 situations of, 52–53
 Conformity, social influence of, 278–295
 Confounding variables, 19
 Conjunctive task, 328
 Consensus, 113–114
 Consistency, 113
 Contagion effects, 277–278
 Context, as variable in perception, 46
 Contingency theory of leadership, 334–335
 Control, illusion of, 132–133
 Corporal punishment, 504–505
 Correction stage, 118
 Correlational research, 15–17
 Correspondence bias in attributions process, 116–125
 Correspondent inference theory of attributions process, 114–116
 Counterarguments, 259
 Counterfactual thinking, 128–129
 Culture
 defined, 57
 differences in causal reasoning, 120–121
 as factor in conformity studies, 285
 love experiences in, 418–419
 negotiation within, 347
 self-concept differences with, 148–149
 variations in aggressive behaviors, 479–481
 in volunteerism and helping behaviors, 466–469

D

Date rape, 502
 Deductive reasoning, 13–14, 30
 Defensive pessimism, 168–169
 Deindividuation, 490
 Demand characteristics, 22
The Denial of Death (Becker), 363–364
 Dependent variables, 17–18
 Descriptive norms, 279
 Diffusion-of-responsibility effect, 461–462
 Discounting principle, 115–116
 Discrimination, 353, 356–357
 Disengagement, 384–385
 Disidentification, 384–385
 Disjunctive task, 328
 Displacement, 506–507
 Dispositional attribution, 111–112
 Distinctiveness, 112
 Dogmatism, 9
 Domestic violence, 502
 Door-in-the-face effect, 304, 305
 Double-blind studies, 23
 Drive-reduction model of behavior, 41
 Drives, influences on behaviors, 41

E

Egocentric biases, in self-perception, 163–165
 Egoism, 445
 Elemental models of impressions, 103–106, 109–110
 Emergencies, decision-making model of helping in, 458–464
 Emotion
 feelings of self worth and, 186
 misattribution of arousal in, 161–162
 self-perception of, 160–161
 two-factor theory of, 160–161
 Emotional regulation, 176
 Emotional support, 398
 Emotional theories of attitude formation, 203–207
 Empiricism, 10
 Equity theory of satisfaction in relationships, 429–430
 Evaluation apprehension, 22–23
 Evolutionary models of behaviors, 54–57, 448–450, 477–478
 Exchange relationships, 431
 Excitation transfer theory, 489
 Expectancy-value model of behavior, 45
 Experimental research, 17–19
 Experimenter expectancy effects, 23
 Explaining, bias and expectations of, 136–138
 Explicit attitudes, 355
 Extended self, 147–148
 External validity, 23–26

F

Facial features
 average features in, 67–69
 babyishness of, 70–71

emotional expressions in, 71–74
 feminized patterns in, 67, 68
 preferences of, 68–69
 role in social perception, 65–75
 symmetrical faces in, 67
 Factorial design, 28–31
 False-consensus effect, 165
 False-uniqueness effect, 165
 Fear, benefits of affiliation, 395–396
 Fear appeal, 270
 Fixed-pie perception, 344–346
 Foot-in-the-door effect, 302–303, 305
 Forewarning effects, 258
 Framing, influencing judgment/decision making, 135–136
 Freud's psychoanalytic theory of behavior, 59–60
 Friendship
 proximity effect and, 402–403
 qualities of a likable person in, 407–410
 reciprocity principle of, 404–407
 social exchange theory of, 403–404
 Frustration-aggression hypothesis, 483–484
 Functional distance, 404
 Fundamental attribution error, 117–118, 124–125
Furman v. Georgia, 503

G

Gambler's fallacy, 126
 Gender
 affiliation differences related to, 396
 aggressive behaviors related to, 478–479
 differences in nonverbal behavior, 77–79
 as factor in conformity studies, 285
 helping behaviors and, 465–466
 interpersonal attraction and, 409–410
 leadership style differences with, 336–337
 in motivation to join groups, 319
 stereotypes and sexism, 376–380
 Gestalt psychology, 45–49, 106–109
 Global self-esteem, 185–187
 Goals, personal, 169–172
Gregg v. Georgia, 503
 GRIT (graduated and reciprocated initiative in tension reduction), 343–344
 Group identities, 152, 319, 340
 Groups. See also Social dilemmas
 arousal of members in, 321–323
 decision making by, 288–294
 evaluating performance of, 328–331
 functions of, 318–320
 gender differences in joining, 319
 group polarization effect in, 289–291
 groupthink process in, 291–294
 individual performance in, 320–327
 information exchange in, 329–331
 leadership in, 331–337
 minority influences in, 294–295
 negotiations in, 348–349
 norms and roles of, 320
 reacting to deviants in, 288–289
 reasons to join, 318–320
 social loafing in, 323–327
 task types of, 328
 types of, 317–318

I-18

Subject Index

Group selection, 448–449
Groupthink, 291–294

H

Halo effect, 87
Happiness
 advantages of, 179–181
 national wealth and, 181–182
 personality of, 183
 well-being and, 178–192
Health behaviors
 fear appeals and, 270
 gains vs. losses in, 268–272
 overcoming defensiveness toward, 271–272
 preventive and detection habits for, 268–272
Hedonism, 38
Helping. *See also* Volunteerism
 cost/benefit analysis of, 446–448
 defined, 444–445
 emotional reactions to person in need, 451–455
 empathy-altruism model of, 452–455
 evolutionary models of, 448–450
 experiences of, 471–472
 factors affecting, 455
 Good Samaritan laws and, 463
 learning to help, 469–470
 reasons for, 445
 responsibility and decision to, 446–447
 sadness and, 456
 self-image and, 456–457
 service learning of, 471
 situational influences on, 450–458
 taking action in emergencies, 458–464
 types of, 444–445
High explicit self-esteem, 189
Hindsight bias, 136–137
Hitler's Willing Executioners (Goldhagen), 311
Holistic thinking, 120–121
Holocaust, 311–312
Hostile aggression, 476
Hostile attribution bias, 487
Hostile masculinity, 499
Hostile sexism, 377–378
Hostility, 485–487
Hullian drive-reduction theory, 41
Hurt feelings, 401
Hypothesis
 formation of, 11–12
 testing of, 13–15

I

Identity
 group identities in, 152
 maintaining cultural identity in, 380–381
Identity influence, 280–282
Illusion of control, 132–133
Illusory correlation, 111–112
Imitation, social influence of, 276–278
Implicit attitudes, 355
Implicit personality theory, 87
Impressions. *See also* Social judgment
 elemental models of, 103–106, 109–110
 first, 65–75

Independent variables, 17
Individualism, 57–58, 467
Informational influence, 280–282
Informational support, 398
Information-integration models, 118
Ingroup favoritism, 353
Injunctive norms, 279
Inoculation theory of persuasion, 258
Insensitivity effects, 130–131
Instrumental conditioning/learning, 39–40
Interaction, 28–30
Interdependence model of satisfaction in
 relationships, 426–427
Internal validity, 21–26
Interpersonal relationships. *See also* Love;
 Marriage
 affiliation as, 395–396
 coping with conflict in, 433–436
 developing romantic relationships in,
 424–426
 friendships in, 402–415
 gender differences in, 409–410
 general model of, 439–440
 longevity of, 431–440
 love and caring in, 394–395
 marriage and social support in, 396–400
 satisfaction and commitment in, 426–431
 similarity/dissimilarity effect in, 411–414
Intimacy, 419–420
Intimacy groups, 318
Introspection, 156–157
Introspectionism, 36–37
Investment model of relationships, 428–429
Iraq, Abu Gharib prison in, 7, 490–491

J

Jigsaw Classroom, 389–390
Judgment/decision making
 action and outcomes in, 133–136
 belief perseverance in, 138–139
 cognitive heuristics strategies in, 126–130
 errors and biases in, 130–139
 social prediction in, 139–140
 studies and research in, 125–126
 too many choices and, 136

K

Kelley's covariation model of attribution,
 112–114
Kin selection, 448
Knowledge, ways of, 9–10

L

Law of Effect, 40
Leadership
 defined, 331
 effectiveness of, 332–336
 gender differences in, 336–337
 in groups, 331–337
 styles of, 51, 332
 theories of, 331–336

Learn and Serve America, 464
Learned helplessness, 185
Learning
 as cognitive, 43
 in formation of attitudes, 203–204
 of prejudice, 365
 teacher expectations and student performance
 in, 97–98
 types of, 39–41
Lewin's field theory, 49–53
Lie detectors, 85
Life space, 49–53
Likert scale, 197, 198
Logical positivism, 10
Loneliness, 400–402
Loose associations, group type of, 318
Love
 arousal effect in, 416–417
 attachment theory of, 421–423
 components of, 419–420
 cultural differences in, 418–419
 defined, 415–417
 as factor in marriage, 418
 falling in, 424–426
 at first sight, 424
 in interpersonal relationships, 415–423
 liking v. loving, 416
 styles of, 420–421
 types of, 416–417
Lowballing effect, 303–304, 305
Low implicit self-esteem, 189

M

Machismo, 479
Majority influences, 294–295
Marriage
 adjusting to dissolution of, 399–400
 coping with conflict in, 433–436
 enhancing relationships in, 436–439
 levels of satisfaction in, 431–440
 longevity of, 431–440
 as social support, 398–399
 unhappy couples in, 436
Mastery goals, 169–171
Mean differences, 27–28
Meaning, as variable in perception, 46
Mechanism, 38
Media bias, 213
Media violence, aggression and, 492–496
Memory, schemas influencing, 89–92
Mental control, 175–176
Mere exposure effect, 206–207
Mere presence hypothesis, 322
Message learning, 240
Meta-analysis, 18
Minimal group paradigm, 362–365
Minority influences, 294–295
Misunderstanding, covariation and correlation
 of, 131–132
Mood
 affecting judgment and decision making,
 127–128
 as factor in helping, 455–458
 role in attitude change/persuasion,
 265–266

- Motivation
 evolutionary psychology in, 54–57
 models of behavior, 53–57
 self-perception of, 158–160
