EDUCATION

B. A. *Stanford University, 1988*
Psychology, with Departmental Honors

Ph.D. *University of Washington, 1998*
Major area: Child Clinical Psychology
Dissertation: Structure and variability in the developmental trajectory of children's externalizing problems : Impact of child sex, infant attachment, and maternal depression

PROFESSIONAL POSITIONS

1997-1998 Psychological Intern. University of Washington. Department of Psychiatry and Behavioral Sciences
1998-2006 Research Scientist, Center on Human Development and Disability, University of Washington
1998-present Director, UW Autism Center Informatics Core
2007-present Research Assistant Professor of Psychiatry and Behavioral Sciences, University of Washington

PROFESSIONAL ACTIVITIES

Ad hoc reviewer: Archives of Clinical Neuropsychology
Autism: International Journal of Research and Practice
Development and Psychopathology
Developmental Psychology
Journal of Autism and Development Disorders
Autism Research
New England Journal of Medicine

Grant Review Panels: Small Business: Biobehavioral and Behavioral Processes Across the Lifespan (NIH ZRG1 BBBP-T (10) B) (2009 – present)

Communication and Gaze in Children with Disabilities

The purpose of this project is to develop an innovative assessment tool using eye-tracking technology that is integrated in real-time with real-time 3D rendered graphics. The integration of these

two technologies will provide a means to investigate social-cognition and language comprehension in children with limited communication abilities.

Role: Principal Investigator

P50HD055782 NICHD/NIDCD King (PI), Munson (Core PI) 8/1/07– 7/31/12
UW Autism Center of Excellence

The goals of this project are to (1) discover genetic and environmental risk factors for autism, (2) identify early behavioral and neurophysiological risk indices of autism, (3) examine early manifestations of abnormal brain development in autism, (4) conduct a randomized clinical trial aimed at reducing and preventing the onset of autism symptoms, (5) conduct a follow-up study of early intensive behavioral intervention in autism, and (6) identify risk factors for the development of associated conditions in adolescence in autism.

Role: Principal Investigator of Statistics and Data Management Core

Simons Foundation Munson (PI) 2/1/12-1/31/13
Novel Measurement of Imitation and Motor Control in Severe Autism

This project will use novel computer-based activities to study imitation and motor planning skills in a sample of severely impaired adolescents with autism. The activities use the Microsoft Kinect depth camera to record body movement in fine-detail as the students pop balloons, balance blocks, play “follow the leader”, and pilot an airplane. During these activities we will measure how students modify their movements in response to what they observe on the screen. This will allow us to assess the learning process as it unfolds based on behavior the student initiates on his or her own. Tools that can assess subtle changes in behavior and learning are needed to support treatment research for those with the most severe impairments.

Role: Principal Investigator

TEACHING

Faculty sponsor for Jae Kim, Student of Dr. Kelvin Sung in the senior internship program in the UW Bothell Department of Computing and Software Systems. Project Title: *Integrating Eye-tracking Device-Driven Applications for Studying Autism Using Valve's Source Real-time Game Engine*. (2009).

Faculty sponsor for Young Youn, Student of Dr. Kelvin Sung in the senior internship program in the UW Bothell Department of Computing and Software Systems. Project Title: *Eye-tracking Across Multiple Monitors Using Valve's Source Game To Investigate Nonverbal Measures of Theory of Mind*. (2009).

Faculty Mentor to David Xue, Senior Capstone Project in the UW Department of Engineering (Department sponsor, Tom Lewis, PhD). Project Title: *Design of a toolset for evaluating visual attention variability in autistic children*. (2010).

SERVICE

Discussion Leader for the Biomedical Research Integrity Program Series, Department of Bioethics & Humanities, UW School of Medicine. (2010).
