### Observations about new Schedule:

- From a grading perspective, the new schedule preserves the number of assignments and points.
- The new schedule provides for a one-week break at Thanksgiving.
- The new schedule allocates more time to the portfolio assignment. During the two weeks devoted to the portfolio assignment, much of class time will be devoted to discussing topics related to the assignment (or specifically team's progress on the assignment. More information will be provided at the beginning of that period.
