Discrete Mathematics 2012 Lecture 1

Ngày 25 tháng 8 năm 2012

Question What is mathematics?

One of my favorite

Question

What is mathematics?

One of my favorite

Definition

Mathematics is the study of numbers, shapes and patterns

Question

What is mathematics?

One of my favorite

Definition

Mathematics is the study of numbers, shapes and patterns

Question How do you study mathematics?

Question

What is mathematics?

One of my favorite

Definition

Mathematics is the study of numbers, shapes and patterns

Question

How do you study mathematics?

Answer

With love and enhtusiasm.

Question How do you really study mathematics?

Question How do you really study mathematics?

Answer

Question How do you really study mathematics?

Answer

Observe

Question How do you really study mathematics?

Answer

- Observe
- e Hypothesize

Question How do you really study mathematics?

Answer

- Observe
- e Hypothesize
- Verify

Question

How do you really study mathematics?

Answer

- Observe
- Output the state of the stat
- Verify
- Modify (if needed)

Question

How do you really study mathematics?

Answer

- Observe
- e Hypothesize
- Verify
- Modify (if needed)

Prove

Question

How do you really study mathematics?

Answer

- Observe
- Output the state of the stat
- Verify
- Modify (if needed)
- Prove

Question

How do you really study mathematics?

Answer

- Observe
- e Hypothesize
- Verify
- Modify (if needed)
- Prove

Let us start with a small sample of examples.

2

イロト イヨト イヨト イヨト

Onsider the sequence 1, 2, 4,

イロト イポト イヨト イヨト

Onsider the sequence 1, 2, 4,

Onsider the sequence 1, 2, 4, 7,

Onsider the sequence 1, 2, 4, 7, 11,

Onsider the sequence 1, 2, 4, 7, 11, 16,

Consider the sequence 1, 2, 4, 7, 11, 16, 22...

 Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence?

A (10) A (10) A (10)

 Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence?
 Does this sequence represent anything?

イロト イポト イラト イラ

 Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?

イロト イヨト イラト イラト

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
 Consider the sequence:
 - 13, 29, 53,

A D N A B N A B N A B

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
- Consider the sequence: 13, 29, 53,

4 D N 4 B N 4 B N 4 B N

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
- Onsider the sequence: 13, 29, 53, 149,

イヨト イモト イモト

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
- Consider the sequence: 13, 29, 53, 149, 173,

不同 トイモトイモ

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
- Consider the sequence: 13, 29, 53, 149, 173, 269,

不同 トイモトイモ

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
- Consider the sequence: 13, 29, 53, 149, 173, 269, 293,

不同 トイモトイモ

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
- Consider the sequence: 13, 29, 53, 149, 173, 269, 293, 317, ... What is the next number?

不同 いくきいくき

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
 - Consider the sequence: 13, 29, 53, 149, 173, 269, 293, 317, ... What is the next number? Can you express it in a "mathematical" sentence?

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
 Consider the sequence:
 - 13, 29, 53, 149, 173, 269, 293, 317, ... What is the next number?

Can you express it in a "mathematical" sentence?

Can you formulate an hypothesis?

A D N A B N A B N A B

- Consider the sequence 1, 2, 4, 7, 11, 16, 22... Can you express your observation in a "mathematical" sentence? Does this sequence represent anything?
 Consider the sequence:
 - $13, 29, 53, 149, 173, 269, 293, 317, \ldots$

What is the next number?

Can you express it in a "mathematical" sentence?

Can you formulate an hypothesis? Can you prove it?

Shapes

Shapes

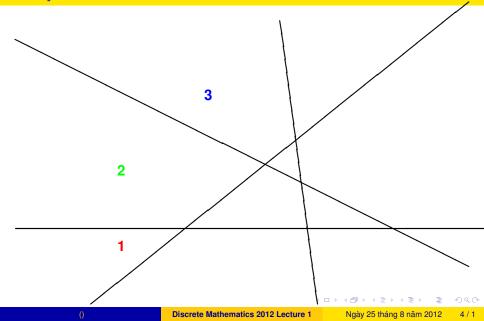

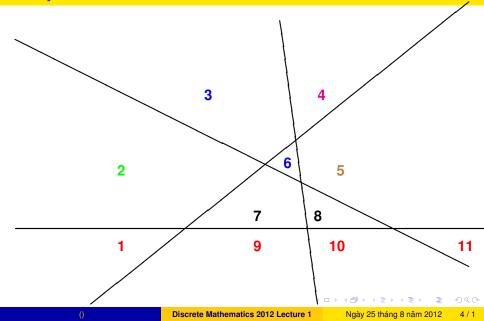

How many regions can be generated by 5 lines?

Ngày 25 tháng 8 năm 2012 5 / 1

()

How many regions can be generated by 5 lines?By 6 lines?

Ngày 25 tháng 8 năm 2012 5 / 1

- How many regions can be generated by 5 lines?
- By 6 lines?
- Have you seen this sequence of numbers before?

- How many regions can be generated by 5 lines?
- By 6 lines?
- It ave you seen this sequence of numbers before?
- So can you tell how many regions can be generated by 17 lines?

- How many regions can be generated by 5 lines?
- By 6 lines?
- Iteration between the sequence of numbers before?
- So can you tell how many regions can be generated by 17 lines?
- Can you explain why?

イロト イポト イラト イラ

- How many regions can be generated by 5 lines?
- By 6 lines?
- It ave you seen this sequence of numbers before?
- So can you tell how many regions can be generated by 17 lines?
- Oan you explain why?
- Can you find a "formula" for f(n) the number of regions generated by n lines?

< ロ > < 同 > < 回 > < 回 >

- How many regions can be generated by 5 lines?
- By 6 lines?
- It ave you seen this sequence of numbers before?
- So can you tell how many regions can be generated by 17 lines?
- Can you explain why?
- Can you find a "formula" for f(n) the number of regions generated by n lines?
- Can you prove that it is $\binom{n+1}{2} + 1$?

< ロ > < 同 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ >

You have four points on a line, the distance between any two consecutive points is **1**.

4 D N 4 B N 4 B N 4 B N

You have four points on a line, the distance between any two consecutive points is **1**.

0-0-0-0

How many times does the distance 1 occur?

4 D N 4 B N 4 B N 4 B N

You have four points on a line, the distance between any two consecutive points is **1**.

How many times does the distance 1 occur?
How many times does the distance 2 occur?

4 D N 4 B N 4 B N 4 B N

You have four points on a line, the distance between any two consecutive points is **1**.

How many times does the distance 1 occur?

- Item any times does the distance 2 occur?
- How many times does the distance 3 occur?

イロト イポト イラト イラト

You have four points on a line, the distance between any two consecutive points is **1**.

- How many times does the distance 1 occur?
- Item any times does the distance 2 occur?
- How many times does the distance 3 occur?
- Can you place *n* points in the plane so one distance will occur *n* 1 times, a second distance will occur *n* 2 times, a third *n* 3 times etc.

< ロ > < 同 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < 回 > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ >

You have four points on a line, the distance between any two consecutive points is **1**.

- How many times does the distance 1 occur?
- Item any times does the distance 2 occur?
- How many times does the distance 3 occur?
- Can you place *n* points in the plane so one distance will occur *n* 1 times, a second distance will occur *n* 2 times, a third *n* 3 times etc.
- This was easy, can you do it so no three points are on a line?

You have four points on a line, the distance between any two consecutive points is **1**.

- How many times does the distance 1 occur?
- Item any times does the distance 2 occur?
- How many times does the distance 3 occur?
- Can you place *n* points in the plane so one distance will occur *n* 1 times, a second distance will occur *n* 2 times, a third *n* 3 times etc.
- This was easy, can you do it so no three points are on a line?
- This was not too difficult,

You have four points on a line, the distance between any two consecutive points is **1**.

- How many times does the distance 1 occur?
- Item any times does the distance 2 occur?
- How many times does the distance 3 occur?
- Can you place *n* points in the plane so one distance will occur *n* 1 times, a second distance will occur *n* 2 times, a third *n* 3 times etc.
- This was easy, can you do it so no three points are on a line?
- This was not too difficult,
- but can you do it so the points wil be in general position (no three on a line, no four on a circle)?
