Guide for Citing Resources— Chicago Manual of Style

This guide is based on *The Chicago Manual of Style* 14th ed. rev. (University of Chicago Press, 1993). Examples are shown for both the newer **Scientific / Social Sciences** style recommended for natural sciences and social sciences, as well as the more traditional **Humanities** style used for fine arts, literature, etc.

Bibliography items are listed alphabetically at the end of the research paper. These items are referred to in the body of the paper using the **In-Text** style.

For additional examples, please consult *The Chicago Manual of Style* available in the Reference collections in the Law Library and other OSU libraries. (Z253 C5722 1993)
