

# Reading Reflection 2

Let's take this time to look around at some other mathematicians now that we have completed the second exam. Choose one of the readings/videos below and in 200 to 300 words 1) *summarize* the authors/speakers main point(s) and 2) *connect* the main points with experiences (or lack of experiences) in your own life.

1. Watch or read Francis Su's MAA's presidential retiring address:
