Modeling Reflection 3

Read the model created Team #8479 developed in response to a prompt very close to #2 from your ModelingHW2 assignment.

1. [4] Where you able to "mathify" more in ModelingHW2 than in ModelingHW1? If so, please describe. If not, explain why.

2. [3] Identify that classes that introduce some of the math tools that Team #8479 used in their model(s).

3. [3] Reflect on Team #8479's approach in comparison to the approach taken by your group. Would you approach this problem differently now? If so, how? If not, explain why.
