tcore 102: Quiz 3
There are two sides to this quiz. You can use a calculator and a three-sided 3×5" notecard with anything written or typed on it.

1. [2] (10/7 Discussion) Name at least one campus support that you can use if you experience test anxiety.

2. [2] (Lang41-51) There were multiple elephant designs presented in Section 3 of Lang's book beginning with a "one fold" design. Either make the "one fold" design or draw the directions below.

3. [4] (Lang41-51) What was the point Lang was making in Section 3 of his text?

4. [3] (10/11 lecture) Did Pythagorus use paper when doing mathematics? Why or why not.

5. [3] (ViHartVideo) Pythagorus and his cult approached mathematics and numbers quite different than we do today. Describe one such difference mentioned by ViHart.

6. [6] (Activity4#2) Let l be a line on a patty paper and X a point on l. Give instructions (using patty paper rules!!!) to build a line perpendicular to l that passes through X.
