## tcore 102: Quiz 3

You have 30 minutes to complete the quiz and upload an answer. You may work with your group and any materials provided inside the Canvas course.

1. [3] Recall a TUP is the "Turned Up Part" of a patty paper when one corner is folded over. Is it possible to make a fold so that the TUP has five sides? If so, draw an example. If not, provide some reasoning for why not.
2. [2] Reflect on the class work/discussion on PattyHW2 (Folding TUP's). What events/observations helped your realize that your answer needed editing and improving?
3. [2] Identify a line that transverses line $\overline{B H}$ and $\overline{G E}$.

4. [3] Find a pair of corresponding angles with respect to the transversal line you identified in Number 3.
