Homework #1

- 1. [5] Make a (18 triangle) Hexaflexagon.
- 2. [5] Make an interesting Hexaflexagon using colors, chirality, math, art, or topology. Note, this can be the same Hexaflexagon you made in problem 1.
- 3. [10] Complete the Folding TUP's patter paper activity either individually or in pairs (preferred). Note that this is being scored on *clarity* as well as correctness!
