

Required Items:

- Text: Precalculus: A Unit Circle Approach 3rd ed, by Ratti/McWaters/Skrzypek, 2018
- MyMathLab Access: This is the online homework system.

Inclusive Access has been set up for TMath 120 courses. Note that this means a lower cost to students (\$76) but access to the text and MyMathLab is only given for one quarter (18 weeks). If you drop the course be sure to contact the UW Seattle bookstore before the drop date listed in the UWT academic calendar to request a refund at inclusive.access@ubookstore.com or 206-634-3400 x335. All contact regarding Inclusive Access must go through the UW Seattle bookstore (the UWT Bookstore is not part of this program). Note that this access is only for 18 weeks and if you need the textbook again you need to call the publisher to prompt additional access.

Various ways to access the textbook and MyMathLab are discussed below. Note that Inclusive Access gives you access to the textbook electronically. If you are interested in having a separate hard copy of the text, some useful information is below:

This textbook is relatively new so it will be hard to find used copies. The following is a summary of my brief search results for the Precalculus text carried out on 8/8/2018. If you happen upon a source of reasonably priced textbooks that is not listed below, please let your instructor know so the list can be updated.

Sources for Hardcopies:

- \$112 for new from the University. (Note: buyback is less than \$90.)
- \$190 from Pearson publishing directly.
- \$167 for a used copy & \$34 to rent from Amazon marketplace
- \$166 for a used copy from Textbook.com marketplace.
- \$110 for a used copy from Abebooks.com marketplace.
- Goodwill, St. Vincent DePauls, & Halfprice Books all carry textbooks
