## Quiz 0

This is a two-stage quiz. You will be given this quiz twice, each session is 15 minutes.
The first (colored) copy of the quiz corresponds with the first stage. Use your knowledge \& calculator to take this quiz-no notes, books, internet resources, faculty, tutors or colleagues.

The second (white) copy of the quiz corresponds with the second stage. You are now welcome to use your books, notes, and students in the class to retake the same quiz. A group of 2 to 3 people will build one solution to be turned in (with everyone's name on top!). Second stage quizzes with only one name at the top will not be marked.

Show all your work. Reasonable supporting work must be shown for any partial credit.

1. [4] Write down something that the person/people taking this quiz are good at. It does not have to be academic.
2. [4] Explain how the person/people got good at it!
3. [2] Let $a$ and $b$ be real, non-zero numbers. Add $\frac{1}{a}+\frac{1}{b}$.
