# Curriculum Vitae STEPHEN R. SHARPE

#### **Contact Information**

Department of Physics University of Washington Seattle, WA 98195–1560 phone: (206) 685-2395 fax: (206) 685-0635 email: srsharpe@uw.edu

## Education

Ph.D. Physics, University of California, Berkeley, 1983 (Advisor, Michael Chanowitz) B.A. Theoretical Physics, Trinity College, Cambridge University, 1978

### **Research and Professional Experience**

1995-present, Professor, University of Washington 1991-1995, Associate Professor, University of Washington 1988-1991, Assistant Professor, University of Washington 1986-1988, Five-year Research Associate, SLAC 1983-1986, Junior Fellow, Harvard Society of Fellows

### **Visiting Positions**

Visiting Professor, Kyoto University, 2019 George Southgate Fellow, University of Adelaide, 2019 Visiting Professor, University of Marseille, 2008 Visiting Professor, University of Southampton, 2004 Visiting Professor, University of Tsukuba, 1998 Visiting Professor, University of Rome, 1996 Visiting Staff Scientist, CEBAF (now Jefferson Lab), 1991-2 Visiting Research Physicist, UC Santa Barbara, 1990

#### **Honors and Awards**

Undergraduate Teaching Award, Physics Department, UW, 2015
Undergraduate Teaching Award, Physics Department, UW, 2014
Graduate Mentoring Award, Physics Department, UW, 2013
Graduate Teaching Award, Physics Department, UW, 2011
Graduate Teaching Award, Physics Department, UW, 2008
Outstanding Referee, American Physical Society, 2007
Graduate Teaching Award, Physics Department, UW, 2000
Graduate Teaching Award, Physics Department, UW, 2000
Graduate Teaching Award, Physics Department, UW, 2000
Graduate Teaching Award, Physics Department, UW, 1999
Fellow, American Physical Society, 1993
Alfred P. Sloan Foundation Fellow, 1990-1994
DOE Outstanding Junior Investigator, 1989-1991
B. Friedman Memorial Prize in Mathematics, Berkeley, 1982

University & Department Service (major responsibilities only) Chair, Majors Committee, 2016-18 Chair, Search Committee for Physics Education Research position, 2015-16 Associate Chair, Physics Department, 2009-2011 Member, Graduate School Council, 2008-2011 Graduate Program Coordinator, Physics Department, 2002-2011 Member, Executive Committee, Physics Department, 1999-2001, 2007-2011 Chair, Graduate Committee, Physics Department, 2001-2 Chair, Undergraduate Committee, 1995-6

### Ph.D. advisees

Tyler Blanton, Ph.D. expected 2021 Fernando Romero-López (visiting student from University of Valencia), Ph.D. expected 2021 John Lombard, Ph.D. 2018 Derek Horkel, Ph.D. 2016 Max Hansen, Ph.D., 2014 Mateusz Koren, (visiting student from Jagiellonian University, Krakow), Ph.D. 2013 Andrew Lytle, Ph.D. 2010 Ruth van de Water, Ph.D. 2005 Jackson Wu, Ph.D. 2005 Noam Shoresh, Ph.D. 2001 (co-chair) Yan Zhang, Ph.D. 1997 Keith Clay Ph.D. 1995 (co-chair) Greg Kilcup (unofficial advisor), Harvard Ph.D. 1985

## **Professional Service**

Editor, JHEP, 2015-present Member, Editorial Board, Flavor Lattice Averaging Group, 2014-present Lattice coordinator, Chamless Hadronic B Decay & Charm working groups, "Belle-2-Theory Interface Platform", 2014-present Member, Particle Data Group, 2011-present Organizer, "Scattering amplitudes and resonance properties from Lattice QCD", workshop at the Mainz Institute for Theoretical Physics, August 27-31, 2018 Organizer, "Multi-hadron systems from lattice QCD", workshop at the Institute for Nuclear Theory, Feb. 5-9, 2018 Member, International Adv. Comm., "Lattice 2018", Michigan State, 2018 Member, International Adv. Comm., "Chiral Dynamics", Durham, NC, 2018 Member, Advisory committee, RIKEN/BNL Research Center, 2015-2018 Member, Internation Adv. Comm., "Hadrons and Hadron Interactions in QCD," Yukawa Institute workshop, Kyoto, Japan 2015 Convener, ICHEP 2014, Valencia, Spain Member, Steering Committee, Topical Panel on Computing in High Energy Physics, DOE, 2013-14 Member, International Adv. Comm., "Chiral Dynamics 2015", Pisa, Italy, 2015 Chair, Ken Wilson Lattice Award Committee, 2014 Vice-Chair, Ken Wilson Lattice Award Committee, 2013 Member, Flavor Lattice Averaging Group, 2011-2014 Member, US National Lattice QCD Collab. Exec. Committee, 1999–2012 Member, International Adv. Comml, "Chiral Symmetry in Hadrons and Nuclei", Beijing, China, 2013 Member, International Adv. Comm., "Lattice 2013", Mainz, Germany, 2013 Member, International Adv. Comm., "Lattice 2012", Cairns, Australia, 2012 Member, International Adv. Comm., Parma School of Theoretical Phyiscs, 2009-present Member, International Adv. Comm., "Lattice 09", Beijing, China, 2009 Member, DOE-HEP Early Career Award Panel, 2009 Panel chair, DOE workshop on "Extreme Scale Computing", Kavli Institute, SLAC, December 2008 Organizer, INT summer school "Lattice QCD and its Applications", August 2007 Member, US Lattice Coll. Scientific Program Committee, 2002–2007 Member, International Adv. Comm., "Lattice 07", Regensberg, Germany, 2007 Member, Riken-Brookhaven Review Committee, 2003–2006 Member, International Adv. Comm., "CKM 2006", KEK, Japan, 2006 Member, Editorial Board, Physical Review D, 2003-2005 Member, Sakurai Prize Committee of the APS, 2004-5 Member, International Adv. Comm., "Lattice 05", Dublin, Ireland, 2005 Member, International Adv. Comm., "CCP 2004", Genoa, Italy, 2004 Member, International Adv. Comm., "Lattice 04", Fermilab, USA, 2004 Member, International Adv. Comm., "Lattice 03", Tsukuba, Japan, 2003 Member, Organizing Comm., INT-JLAB Workshop in "Gluonic Excitations", JLAB, May 2003 Member, International Adv. Comm., "Lattice 02", Boston, USA, 2002 Member, International Adv. Comm., "Lattice 01", Berlin, Germany, 2001 Organizer of Workshop "Lattice QCD and Hadron Phenomenology", INT, Seattle, Autumn 2001 Member, Local Organizing Committee for "Lattice 98", Boulder, Colorado, 1998 Organizer of INT Workshop "Improved Actions for Lattice QCD", September 1996 Divisional Associate Editor, Physical Review Letters, 1994–1996 Member, Scientific Advisory Committee, 10'th Aspen Winter Conference, 1994 Organizer, INT program and Summer School, "Phenomenology and Lattice QCD," Seattle, 1993 Member, International Adv. Comm., "Lattice 92", Amsterdam, 1992 Member, International Adv. Comm., "Lattice 91", Tsukuba, Japan, 1991 Coordinator, Institute for Theoretical Physics program "Lattice Gauge Theory: Standard Model and Beyond", Santa Barbara, 1990

#### **Classroom Teaching (all at UW)**

Particle Physics (Phys 557): 2017-2018 Particles and Symmetries (Phys 226): 2015, 2016, 2017 Lattice Field Theory and Applications (Phys 578): 2014 Elementary Mathematical Physics (Phys 227-8): 2012-15 Graduate Quantum Mechanics (Phys 517-9): 1995-6, 2007, 2009-2011, 2018 Physical Applications of Group Theory (Phys 507): 2009, 2013, 2015, 2017 Senior & Honors Seminars: 1993, 2005, 2008 Graduate Mechanics (Phys 505): 2006-8 Introductory Calculus-based Physics (Phys 121-3): 1988-3, 2005, 2007, 2008, 2016 Honors Introductory Physics (Phys 121H-123H): 2001-4 Quantum Field Theory–special topics (Phys 578): 2001 Advanced Quantum Mechanics & Intro. to Field Theory (Phys 520-2): 1997-2001 Statistical Mechanics (Phys 328): 2004 Particle Physics (Phys 558-9): 1988-9, 1994

## **Invited Lecture Series & Plenary Conference Talks**

*Multihadron physics from Lattice QCD*, 4 lectures at School on "Frontiers of Lattice QCD", Beijing, China, June-July 2019

*Effective Field Theories for Lattice QCD*, 4 lectures at School and Workshop on "New Horizons in Lattice Field Theory", Natal, Brazil, March 2013

*Future Applications of Lattice QCD for High Energy Physics*, INT summer school, August 2012

*Exploring the large N limit of lattice QCD*, International Symposium "From Quarks to Supernovae", Izu, Japan, November 2010

Lattice QCD—a robust tool for precise calculations, Symposium in honor of Jan Smit's retirement, Amsterdam, Holland, August 2008

Applications of Chiral Perturbation to Lattice QCD, 3 lectures at "Physique subatomique et calculs sur reseau", summer school, Marseille, France, June 2008

*Rooted staggered fermions: good, bad or ugly?*, Int. Symp. on Lattice Field Theory, "Lattice 2006", Tucson, Arizona, July 2006

Applications of chiral perturbation theory to lattice QCD, 3 lectures at workshop on "Perspectives in Lattice QCD", Nara, Japan, November 2005.

*Introduction to chiral perturbation theory*, 6 lectures at Univ. Southampton, England, November 2004 *Applications of chiral perturbation theory to lattice QCD*, 3 lectures at school on "Masses of Hadrons", Bad Honnef, Germany, October 2003

*Chiral perturbation theory for lattice practitioners*, 3 lectures at Seoul National University, South Korea, May 2002

*Chiral perturbation theory for lattice practitioners*, 3 lectures at workshop on "Effective Theories, Renormalization and Matching", Univ. Southampton, England, January 2002

Chiral perturbation theory and its applications to lattice results, 10 lectures at Univ. Tsukuba, Japan, Autumn 1998

*Progress in Lattice Gauge Theory*, Int. Conf. on High Energy Physics, Vancouver, Canada, July 1998 *Introduction to chiral perturbation theory*, 8 lectures at University of Rome, Italy, Autumn 1996

*Chiral perturbation theory and weak matrix elements*, Int. Symp. on Lattice Field Theory, "Lattice 96", St. Louis, Missouri, June 1996

*Phenomenology from the Lattice*, 4 lectures at Theoretical Advanced Study Institute, Boulder, Colorado, July 1994

Introduction to lattice gauge theory, 5 lectures at Uehling summer school, INT, UW, June 1993

*Lattice Field Theory*, Division of Particles and Fields meeting, American Physical Society, Fermilab, Chicago, November 1992

*Lattice gauge theory*, 6 lectures at British Universities Summer School on elementary particle physics, Edinburgh, Scotland, September 1992

*Chiral perturbation theory, the quenched approximation and finite volume effects,* 5 lectures at the UK High Energy Physics Institute, Durham, England, September 1992

*Towards the continuum limit of staggered weak matrix elements*, Int. Symp. on Lattice Field Theory, "Lattice 91", Tsukuba, Japan, November 1991

Lattice gauge theory, 12 lectures at Jefferson Lab, Newport News, Virginia, Autumn 1991 Lattice results for hadron masses and weak matrix elements, Zakopane spring school, Poland, June 1990 Electroweak matrix elements, "Lattice 89", Capri, Italy, September 1989

### Seminars, Colloquia & Conference Talks (since 2010)

Scattering observables from Lattice QCD: progress in three-particle channels, seminar at INT, Seattle, March 2019

*Lattice QCD: successes, challenges and future outlook,* invited colloquium at University of Adelaide, February 2019

Scattering observables from Lattice QCD: progress in three-particle channels, invited seminar at University of Adelaide, February 2019

Scattering observables from Lattice QCD: progress in three-particle channels, invited talk at MIAPP workshop on "Interface of Effective Field Theories and Lattice Gauge Theory,", Munich, November 2018

Scattering observables from Lattice QCD: progress in three-particle channels, invited seminar at U. Valencia, Spain, October 2018

*Progress on the relativistic three-particle quantization condition*, invited talk at MITP workshop on "Scattering amplitudes and Resonance Properties from Lattice QCD", August 2018

*Progress on the relativistic three-particle quantization condition*, contributed talk at Lattice 2018, July 2018

*Workshop goals and introduction to Lüscher formalism for two particles*, talk at INT workshop on "Multihadron physics from Lattice QCD", February 2018

Scattering observables from lattice QCD: progress in two- and three-particle channels, seminar at Stanford Linear Accelerator Center, September 2017

*Numerical experiments with three-particle quantization condition*, contributed talk at Santa Fe workshop on Lattice QCD, September 2017

*Multihadron observables from lattice QCD*, invited talk at Santa Fe workshop on Lattice QCD, August 2017

Scattering observables from lattice QCD: progress in three-particle channels, seminar at Lawrence Berkeley Lab, March 2017

*Lattice QCD: successes, challenges and future outlook,* colloquium at San Francisco State University, March 2017

*Phase structure of Wilson and twisted-mass femions in the presence of isospin breaking*, seminars at Universities of Bonn and Mainz, July 2016

*Future of Chiral Perturbation Theory for Lattice QCD*, invited talk at Symposium on "Effective Field Theories and Lattice Gauge Theory", Munich-IAS, May 2016

*Chiral Perturbation Theory and Lattice QCD*, invited talk at "BernardFest2016", Washington Univ., St. Louis, March 2016

*Multiparticle processes from lattice QCD*, invited talk at workshop on "QCD for New Physics at the Precision Frontier," INT, Seattle, September 2015

*Multiparticle processes from lattice QCD*, invited talk at workshop on "High-precision QCD at low energy," Centro de Ciencias, Benasque, Spain, August 2015

Lattice QCD: successes, challenges and future outlook, colloquium at UCSC, May 2015

*Three particle scattering amplitudes from finite volume simulations*, invited talk at workshop on "Hadrons and Hadron Interactions in QCD 2015", Yukawa Institute, Kyoto, March 2015

*Finite volume quantization conditions for multiparticle states*, invited talk at workshop on "Multihadron and Nonlocal matrix Elements in Lattice QCD", Brookhaven Nat. Lab., February 2015 *Extracting three particle scattering amplitudes from the finite volume spectrum*, invited seminar at Jefferson Lab., December 2014

Applying chiral perturbation theory to LQCD: successes and challenges, invited talk at "CreutzFest 2014", BNL, September 2014

*Three-particle quantization condition: an update*, contributed talk at "Lattice 2014", Columbia Univ., June 2014

Kaons and long-distance meson mixing from lattice QCD, invited talk at "Lattice QCD meets Experiment 2014", Fermilab, March 2014

*Extracting 3-particle scattering amplitudes from the finite-volume spectrum*, invited talk at STRONGNET workshop, Graz, Austria, September 2013

*Relativistic, Model-independent 3-particle quantization condition: (2) Threshold expansion, talk at* "Lattice 2013", Mainz, Germany, July 2013

*Can Eguchi-Kawai reduction provide a practical method for studying large-N<sub>c</sub> theories on the lattice?*, invited lecture at Cracow school of Theoretical Physics, Zakopane, Poland, June 2013

*Lattice QCD for the Intensity Frontier*, invited talk at USQCD All-Hands meeting, Brookhaven Lab, April 2013

Multiple-channel generalization of Lellouch-Luscher formula, invited INT seminar, UW, August 2012 Chiral extrapolation of matrix elements of BSM kaon operators, talk at "Lattice 2012", Cairns, Australia, July 2012

Comments on non-degenerate staggered fermions, staggered-Wilson and Overlap fermions, and the application of chirla perturbation theory to lattice fermions, invited talk at workshop on "New fermion discretizations", Yukawa Institute, Kyoto, February 2012

*Lattice QCD: successes, challenges and future outlook,* colloquium at Seoul National University, South Korea, November 2011

Using chiral perturbation theory to study Wilson(-like) fermions: Introduction, a small proposal and open questions, invited talk at ECT\* workshop on "Chiral Dynamics with Wilson fermions", Trento, Italy, October 2011

Nonperturbative renormalization for general improved staggered bilinears, talk at "Lattice 2011", Squaw Valley, California, July 2011

Large-N QCD from simulations on a single site?, seminar at Brookhaven National Lab, March 2011

Using volume reduction to study QCD-like theories at large  $N_c$ , invited talk at CERN workshop "Future directions in lattice gauge theory", Geneva, Switzerland, July 2010

Kaon physics on the lattice, invited talk at "Lattice meets Experiment", Fermilab, Chicago, April 2010
