

## Addendum to ESS 312 Syllabus

### (1) Student Conduct Statement:

All UW students agree to abide by, and familiarize themselves with, the Student Conduct Code when enrolling at the University of Washington. All students in ESS courses are expected to abide by the Student Conduct Code (also known as WAC 478-120).

**The possession, use, or distribution of controlled substances, firearms, and dangerous weapons will not be tolerated. Physical abuse, sexual harassment, or harassment of any kind, for any reason, will not be tolerated.**

Violations will be immediately reported to the Community Standards and Student Conduct, and possibly the UW Police Department. The Student Conduct Code can be viewed at:

<http://apps.leg.wa.gov/WAC/default.aspx?cite=478-120>

If you have questions or concerns regarding an alleged violation of the Student Conduct Code please contact your instructor, ESS Student Services (206-616-8511 or [essadv@uw.edu](mailto:essadv@uw.edu)), or Community Standards and Student Conduct (206-685-6194 or [cssc@uw.edu](mailto:cssc@uw.edu)).

### (2) College of the Environment Disability Statement:

It is crucial that all students in this class have access to the full range of learning experiences. At the University of Washington, it is the policy and practice to create inclusive and accessible learning environments consistent with federal and state law.

Full participation in this course requires the following types of engagement:

<b>Course Component</b>	<b>Requirement(s)</b>
Lecture	The ability to attend tri-weekly lectures of 50 minutes with approximately 40 other students. Lecture periods may include participation in discussions, question-and-answer sessions and brief written quizzes.
Lab periods	The ability to attend twice-weekly lab sessions of 2-hours each with 20-30 other students. The ability to work in small groups and assist classmates with practical, theoretical and computational problems. Many labs will involve EXCEL-based calculations, including application of simple EXCEL formulas. TAs and instructor will assist students who have not worked with EXCEL previously.

If you anticipate or experience barriers to your learning or full participation in this course based on a physical, learning, or mental health disability, please immediately contact the instructor to discuss possible accommodation(s). A more complete description of the disability policy of the College of the Environment can be found <http://coenv.washington.edu/intranet/academics/teaching/disability-accommodation/>

If you have, or think you have, a temporary or permanent disability that impacts your participation in any course, please also contact Disability Resources for Students (DRS) at: [206-543-8924](tel:206-543-8924) V / [206-543-8925](tel:206-543-8925) TDD / [uwdss@uw.edu](mailto:uwdss@uw.edu) e-mail / <http://www.uw.edu/students/drs>.

## **Roles & Responsibilities**

*Student:* inform the instructor no later than the first week of the quarter of any accommodation(s) you will or may potentially require.

*Instructor and TA:* maintain strict confidentiality of any student's disability and accommodation(s); help all students meet the learning objectives of this course.

### **(3) Student Misconduct Statement:**

At the University of Washington, passing off anyone else's scholarly work as your own, without proper attribution, is considered academic misconduct. This includes written material, assignments and lab reports, exam answers, graphics or other images, and even ideas. Referencing material that you have read in scientific articles or on the Web is normal academic practice, but transcribing or cutting-and-pasting material from the Web without proper attribution, especially with the intention that it appear as your own work, is plagiarism. Likewise, group work and discussion of lab assignment questions is encouraged, but your lab write-ups must be your own work.

Plagiarism, cheating, and other misconduct are serious violations of the University of Washington Student Conduct Code (WAC 478-120). We expect that you will know and follow the UW's policies on cheating and plagiarism. Any suspected cases of academic misconduct will be handled according to UW regulations. For more information, see the College of the Environment Academic Misconduct Policy and the UW Community Standards and Student Conduct website:
