The list below represents an initial guide only. Each student must negotiate a final reading list with the field examiner.

**Economic Models of Politics and Decision Making**

There are a number of books that provide background to game theory. We especially recommend the following:
   James Morrow. Game Theory for Political Scientists
   Kenneth Shepsle and Mark Bonacik, Analyzing Politics
   Steven Brams, Theory of Moves
   Peter Ordeshook, Game Theory and Political Theory
   Eric Rasmussen, Games and Information

Micro and Macro Institutions

**Property Rights**

**Regulation**

**Imperfect Information and Signaling**

**Governance of Labor and Capital**

Hall, Peter, and David Soskice, editors (2001) Varieties of Capitalism, Oxford University Press.

Marks, and John D. Stephens eds., Continuity and Change in Contemporary Capitalism, Cambridge: Cambridge University Press.

Shonfield, Andrew (1965) Modern Capitalism, Oxford University Press.

**Welfare Politics**

Development and Underdevelopment

Cardoso Fernando and Faletto Enzo (1979) Dependency and Development in Latin America, University of California Press.

**Developing and Transition Countries**

**Corruption, Extraction, and Taxation**

**Capitalism and Democracy**
