My Brain is Me!

By Eric H. Chudler
My brain helps me do everything!
My brain helps me listen to music...
use a computer...
read the comics…
play the piano...
watch TV...
play games...
sleep...
play sports...
ride a bike...
read a book...
do math...
cut the grass...
walk...
see...
smell...
and taste.
I take my brain everywhere I go.
I take my brain to the park...
football games...
mall...
bookstore...
video store...
work.
My brain is me!
