Descendancy Charts

The descendancy charts which follow list approximately 450 descendants of Joseph Hannah (ca1720 - 1789). It is by no means a complete list. Many of his descendants are unknown to us. Also, for reasons of privacy we have not listed those who are in our records but were born later than approximately 1900 and may be still living.

Family charts provided by Gary Hannah of Beverly, West Virginia, have added substantially to our data base of the Hannah family and are included in these descendancy charts.

In these charts the generations are numbered (1 to 6 preceding each name) and birth, marriage and death information are given when known. The vertical lines on the charts match up on each succeeding page so one can follow down a line to locate all the children of a marriage even though the children are on succeeding pages.
