

CE Elbow Ideal Application

The CE Elbow brace, the premium DonJoy elbow brace, combines the ultimate in technology, design and materials to give you the strongest DonJoy elbow brace available. It provides excellent medial/lateral stability and hyperextension protection in even the most physically demanding situations.

Features and Benefits

- Cast only with Elbow in 10° -15° flexion
- Cast must be 16" in length
- Patients must be within short minimum circumference - 10.5" forearm, 12.5" upper arm
- Lightweight hollow carbon fiber frame for increased strength and decreased weight.
- Custom made from a cast for the ultimate in fit and function.
- Low profile design for an easy fit under uniforms and clothing
- 72 hour in-house turnaround time
- Includes patented supracondylar pad medially and air condyle pad laterally for comfort and to prevent migration.
- Suede or Chamois liners available
- 16 individual color options, 6 graphic patterns and 18 graduation options available for an individual look
- 10° Extension Stops installed
- Stop Kit includes:
Flexion stops - 45°, 60°, 75° and 90°
Extension stops - 0°, 10°, 20°, 30°, and 40°
- 1 Year Guarantee on frame and hinge
- 1 Free Remake in first 4 months if girth changes significantly.
