Christopher Adolph is an associate professor of political science and an adjunct associate professor of statistics at the University of Washington, Seattle, where he is also a core faculty member of the Center for Statistics and the Social Sciences. He holds a Ph.D. in political science from Harvard University and won the American Political Science Association’s Mancur Olson Award for best dissertation in political economy. He was a Robert Wood Johnson Scholar in Health Policy Research at the University of Michigan and is a regular instructor in the Essex Summer School in Social Science Data Analysis.

Christopher Adolph is the author of Bankers, Bureaucrats, and Central Bank Politics: The Myth of Neutrality (Cambridge University Press), winner of the International Political Science Association’s Charles H. Levine Prize for best contribution in comparative policy and administration. His research on comparative political economy, health policy, and quantitative methods has appeared in American Political Science Review, Nature Medicine, Political Analysis, Social Science & Medicine, World Development, and other journals. He lives in Seattle with his wife, the artist and illustrator Erika Steiskal.
