

Erica

by Greg Crowther

D

1. Well, I know the se-quence of the steps in gly-col-y-sis, and
I know ev-ry bone from the toes to the cra-ni-um, and
I know the func-tion of Wer-ni-cke's ar-e-a, and

Em

I know how to ca-ta-lyze an a-mide hy-dro-ly-sis, and
I know twen-ty-se-ven u-ses for ur-a-ni-um, and
I know the ter-ti-ar-y symp-toms of ma-lar-i-a, and

D

I know the first for-ty di-gits of the val-ue of
I know what the i-deal gas e-qua-tion is
I know who coined the term "cell"; it was Ro-ber-t

A

D

pi. I con-vert to Cel-si-us with
for. I can do P-C-R with
Hooke. I know New-ton's first and

Em

out a ther-mo-me-ter, and I know how to ca-li-brate a
help from Ther-mo-phi-lus, and I know the re-pro-duc-tive
se-cond Laws of Mo-tion, and I know the os-mo-lar-i-ty of

D

light spec - tro - me - ter; I have - n't fig - ured you out
cy - cle of Dro - so - phi - la, and I know you're in there, and I
ev' - ry ma - jor o - cean, but I don't know how to please you so I

A

D

yet, but I'd real - ly like to try.
wish you would o - pen the door.
guess I'll go back to my books.

G

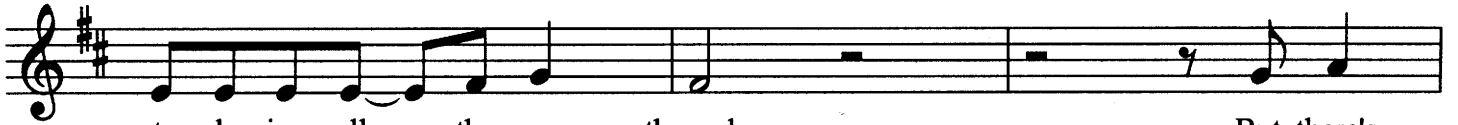

D

Er - i - ca, Er - i - ca, I've been a - cross A - mer - i - ca,

A

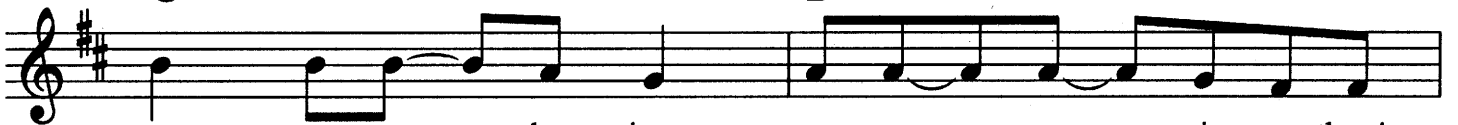

D

stu - dy - ing all the way through. But there's

G

D

more to me than just es - o - ter - i - ca; there's

A

D

lots of lo - ove for you.

2.Now
3.Yes,
