

Cell biology: cell parts

- Discuss last night's homework
- Today's assignment

Today's assignment: draw & label a dividing plant cell

- Include the organelles we covered yesterday
 - Which are unique to plant cells?
- Color-code the organelles – create a key
 - Do color choices matter?
- Pay attention to relative sizes
 - Which is the biggest organelle? Which is the smallest?
- Pay attention to relative numbers
 - For each cell, is there 1 of something, or more than 1?

Challenge question:
Why are the mitochondria saying, "Haha! No!"?

If organelles could talk.
